ance to the upper classmen. The phraseology of the Ten Commandments was used in the address and at the closing. The freshmen attempted to tear down one of these posters. The juniors tried to prevent them, but in the confusion, black eyes were exchanged. The freshmen outnumbered their opponents. A stop was made, but they were not allowed to go again. A policeman and several janitors were on watch the remainder of the day to prevent any further disturbance.

MILES OF GRAZING LAND IN NEBRASKA BURNED OVER AND FOUR LIVES LOST.

HYANNIS, Neb., Oct. 25.—This week has been a direful one in a large portion of the west. Devastating fires swept through the western part of Cherry and Grand counties, burning on the north side of the Burlington & Omaha railroad track to within about four miles of Hyannis. Lashed on by a furious wind the fires traveled at a pace that carried consternation as well as destruction. The fire north of the railroad was set the first of the week by a man and his pipe, about ten miles north of Hyannis. The man was intoxicated, and in filling and lighting his pipe threw the burning match on the ground, where it ignited the grass. In an instant a fire started which, fanned by the northwest wind, at once set out on its mission of destruction. At about the same time another fire started on the south side of the track, burning everything clear from Lakeside to the Blue River. At present the fire is largely confined to the isolated districts of Cherry and Grand counties, but Cherry counties. Little information is obtainable, as the fire is swept by a high wind, but the loss is known to be heavy. E. L. and Bliss Locher, ranchmen, and two unknown men were burned to death in Sherman county. The fire is now burning a strip of country over forty miles in width and is still burning. Thousands of tons of timber are being destroyed, leaving cattle men destitute. The homes and stock of two men were burned and their cattle range raised. It is estimated that thousands of dollars to repair the great damage of the fire. Nothing like the rain has happened for years.

At Bedford, ten miles south, citizens were until a late hour last night burning brush and the wind blowing from the north, considered safe unless the fire should come in north of the strip burned over yesterday. The wind blowing from the north of sixty miles an hour, and grave fears of fire are entertained, as the atmosphere is full of smoke and cinders. The loss of life is reported in that locality. Hundreds of thousands of cattle were grazing in Cherry, Thomas and Grand counties, and were sent there from the southern part of the State, where the drought has been felt here. The cattle are now in the northern counties to graze for the winter. It is feared a large proportion of these cattle have perished. It is not possible to get any definite information concerning the fires, as they are at some distance from the railway stations.

GUNNING FOR BANDITS.

Five Hundred Men Ready to Shoot the Cook Outlaws on Sight.

FORT SMITH, Ark., Oct. 25.—A report has reached this city to the effect that the little town of Gibson Station has been robbed in pretty much the same fashion as the Watoba "hold-up," the express office and several stores being looted. The place is six miles south of Wagoner, on the Missouri, Kansas & Texas road, and, as there is no telegraph office there, meager particulars of the robbery have been received. It is said that six men took part in the hold-up.

CLEVELAND GUARDED

SURROUNDED BY DETECTIVES WHEN HE STARTED FOR WASHINGTON.

Yesterday the Crank that Challenged Kaiser Wilhelm Called on the President, but Did Not See Him.

NEW YORK, Oct. 25.—A crank of note called at the residence of Dr. Joseph G. Bryant on West Thirty-sixth street, where President Cleveland was stopping to-day and demanded to see the President. The man is Richard Goerdler, of New York, the same man who wrote to Emperor William, of Germany, some years ago, challenging him to a duel. Goerdler rang the door bell of the Bryant home violently about 9 o'clock, and when the butler responded demanded to see the President. The butler told him that Mr. Cleveland could not be seen.

WARDLY MILITIAMEN.

Report of the Court of Inquiry on Conduct of California Troops.

SACRAMENTO, Cal., Oct. 25.—The military court of inquiry which was appointed by Governor Markham to investigate the conduct of the National Guards at Sacramento during the late railroad strike has made its report. Major General Dimick is held mainly responsible for the blunders on July 4, when the soldiers failed to dislodge the mob from the depot. Brigadier Generals Sheehan and Dickinson and Colonel Sullivan, Noonan and Barrier are also scored for their lack of military knowledge and for their failure to take prompt action. Baldwin is criticized for bringing about an armistice with the mob at the depot, thus putting the troops in a false position. The report says that companies A, of Sacramento, and G, of San Francisco, the members of which had returned to the National Guard, and should not be permitted to remain in the service. The organization of the National Guard so there will be no more of these men and fewer officers is recommended.

RELICS OF THE WAR.

Case of Rifles Marked "John H. Morgan" Unearthed in Kentucky.

MIDDLESBORO, Ky., Oct. 25.—In excavating near Colonel Cottrell's farm at Cumberland Gap, seven feet below the surface, workmen found a case containing twenty-five Enfield rifles. The case was stamped "John H. Morgan, 1863," indicating that the rifles had been buried there thirty-one years ago by the famous Southern guerrilla. They are in a perfect state of preservation and are not valued.

HERETIC TROUPEY HEARD FROM.

BALTIMORE, Md., Oct. 25.—The first biennial session of the Middle States Conference of the Universalist Church closed last night. Rev. Howard Macquary, of Erie, Pa., read a paper on "The Theological and Religious Meaning of Evolution." He is the young minister who was expelled from the ministry of the Episcopal Church on the charge of heresy, his case being very similar to that of Rev. Dr. Chas. A. Briggs and Rev. Dr. Henry Preserved Smith, of the Presbyterian Church. He has been practically repeated the statements upon which he was charged with heresy.

Mrs. Barnaby's Estate.

PROVIDENCE, R. I., Oct. 25.—Custodian Edwards, appointed by the court to take charge of the estate of Mrs. Barnaby, who died in Colorado, is alleged by the late Dr. Thatche Graves, of this city, to have been guilty of a conspiracy, which shows that the estate is worth \$80,000. Over \$50,000 is personal property. It is estimated that the estate against the estate to be \$10,000. Graves was a beneficiary under Mrs. Barnaby's will, and is pushing the claim.

BIG GUNS IN ACTION

CAMPAIGN IN THE EMPIRE STATE BEGINS TO BE INTERESTING.

Hill, Stevenson, Depew and McKinley Spoke Yesterday and Gen. Harrison Will Speak Next Week.

FAULKNER'S TRIP A FAILURE

DIDN'T RESULT IN UNITING TAMMANY AND THE STATE DEMOCRACY.

Progress of the Political Battle in Other States—Speeches by Messrs. Crisp, Wilson and Reed.

NEW YORK, Oct. 25.—The campaign oratory of both parties are now under full swing and the general political situation all over the State is indicative of the fierce fight that will be fought out on election day. The most prominent men—Republican and Democratic alike—have been drafted into service, and the headquarters of both forces were never so alive with bustling politicians as the past two days. The declaration of Congressman Dunphy of the nomination of New York Democracy for the Eighth district was received to-day, leaving J. J. Walsh, the Tammany nominee, a clear field. The Eighth district was one of those which a few days ago was thought might possibly be sacrificed by Tammany in the interests of harmony. Following this official announcement came the resignation of a number of members of the New York State Democracy organization in the Twenty-fourth Assembly district, to the effecters from Grace's organization at the same time announcing their intention of supporting the entire Democratic ticket. At both headquarters there was the usual rounding up of official statements, with none that might materially affect the situation either one way or the other.

Senator Faulkner, chairman of the Democratic congressional campaign committee, returned to Washington to-day. He admitted, prior to his departure, that his mission here had been a failure, so far as the Democratic congressional situation in the city district is concerned. He has been unable to bring the factions to an agreement. Congressman Dunphy's retirement in the Eighth was his own act, and will have no bearing on the situation in the other districts. In Brooklyn Senator Faulkner has a distinct advantage over the independent Democratic candidate in the Fifth district, and has filed notice of his withdrawal. John L. Nostrand will probably withdraw also. In the other two districts there will be no contest.

A vast crowd assembled at Cooper Union to-night to hear Senator David B. Hill speak. The gathering assembled under the auspices of the combined labor organization of the city. Hill's gubernatorial administration was made the subject of a laboring men's demonstration and resolutions were adopted endorsing his political career in New York State and pledging to him the support of the gathering at the coming election. John Phillips presided. John T. Burke read a series of resolutions setting forth that David B. Hill, assemblyman, Mayor, Lieutenant Governor and Governor, had demonstrated his true friendship to the industrial classes; that during his term as Governor he approved six separate laws for the relief of the laboring masses of Brooklyn and New York, and calling upon all workers to rally to the support of his cause. During the reading of the resolutions, which were adopted, the crowd in the rear of the hall endeavored to break through the lines of police.

The disorder finally subsided and the chairman introduced Mr. Hill. Mr. Hill said in his address that the convict system of labor leases should be abolished because it is injurious to the discipline of the State and is a disgrace to the State. It injuriously affects the mechanics. It is upon the latter ground that I recently introduced a bill to abolish the convict system. Let us cast aside this system and relieve the tax-burdened people and do away with the mechanics of the State. Under various pretexts the contractors evade the laws. In previous years efforts were made to repeal the laws, but they were not so far as we can. Efforts were made to evade these laws in the interest of commerce. The measure known as the "5-per-cent" law was a triumph for the workingmen. It was a triumph for the mechanics. It was a triumph for the State. It was a triumph for the people. It was a triumph for the country. It was a triumph for the world. It was a triumph for the human race. It was a triumph for the God of the universe. It was a triumph for the Father, the Son and the Holy Spirit. It was a triumph for the Kingdom of God on earth and the peace of good will to men.

Although Vice President Stevenson, to-night, at 6 o'clock, decided that he was too tired to speak at Cooper Union with Senator Hill, half an hour later he decided he would speak at Brooklyn with Amos J. Cummings. About one thousand people greeted the Vice President at Tivoli Hall, Brooklyn. He first thanked those present for the hearty welcome he received and said he brought good tidings to Brooklyn. Everything throughout the country was assuming a brighter prospect and business was on the increase. He then went into the details of the tariff bill. He said that the tariff reform was a success. The people demanded a change. They elected Grover Cleveland and the country has prospered. When Harrison was in power the treasury was full, but when he went out at the expiration of four years the treasury was empty. The tariff reform was the cause of this. The tariff reform was a success. The people demanded a change. They elected Grover Cleveland and the country has prospered. When Harrison was in power the treasury was full, but when he went out at the expiration of four years the treasury was empty. The tariff reform was the cause of this.

Mr. Wilson's Campaign. CLARKSBURG, W. Va., Oct. 25.—This city to-night was the scene of the biggest election in the history of the Harrison county. When the train bearing the Wilson party pulled into the depot two thousand people surrounded the car. There was a uniform marching club from Fairmont one hundred strong, a large number of horsemen from the surrounding country, and enough Democrats to make up a party of five thousand people had assembled. Assistant Secretary McAduff was the chief speaker. He made a great speech, although the audience was so large that many were not within sound of his voice. He was followed by Mr. Wilson, whose reception was flattering and whose address was fully equal to that delivered in Wheeling and along the same lines of thought. Friday will be spent by Mr. Wilson at Berkeley Springs, where he will rest from the arduous work of the past two days.

Atlanta's Majority. ATLANTA, Ga., Oct. 25.—The official count of the vote at the recent State election was completed this evening, and shows that W. Y. Atkinson, Democrat, has a majority of 2,181 over J. K. Hines, Populist. Atkinson ran about 7,000 behind the majority on the State ticket.

YALU RIVER CROSSED

AND A FORCE OF CHINESE CAVALRY AND INFANTRY ROUTED.

Little Opposition Encountered by the Japanese, Who Captured a Fort, Two Cannon and Many Rifles.

VICTORS PRESSING ONWARD

FORT ARTHUR SAID TO HAVE BEEN EVACUATED BY CHINESE.

Japanese Also Reported to Have Effected a Landing Near the Port—Great Havoc by an Earthquake.

LONDON, Oct. 25.—A dispatch from Tokio, dated to-day, says that Field Marshal Count Yamagata has telegraphed to the War Office that a detachment of 1,600 Japanese infantry crossed the Yalu river on Wednesday morning and attacked the enemy. The Chinese force consisted of six hundred cavalry and one hundred infantry with two guns. The enemy fled. The Japanese captured a Chinese fort, two guns and many rifles. The Chinese loss was twenty killed and wounded. The Japanese sustained no loss. The Japanese advance columns are marching upon Lishyen.

A dispatch dated Wiju, Oct. 24, apparently delayed in transmission, was received here this evening, giving details of the above fight. It says that the Japanese were ferried over the Yalu river at daybreak. Chinese earthworks had been thrown up to oppose the landing of the Japanese force, but a slight deviation enabled the Japanese to cross the river and land without opposition. The Chinese fled after the first few rounds were fired at them. The Japanese captured the works with a rush.

The Chinese fled to batteries that had been constructed lower down the river, throwing away their arms in their flight. These were found to be antiquated muskets. The advance detachment now holds the Sukochin ferry to guard the passage of the Japanese main body, the advance of which will commence at dawn to-morrow (Thursday). The Japanese engineers have pontoons thrown across the river in readiness for the army to pass over. The Chinese are still in force in the Hsinshua position. Their strength has not materially increased during the past week. The main attack upon the Chinese position will be delivered before Sunday.

A dispatch from Yokohama to-night says: The main body of the Japanese army is reported to be attacking the Chinese position at Kullenstedt, north of Wiju.

Later advices from Yokohama show that the Japanese army crossed the Yalu river on Wednesday without further opposition, and immediately advanced to the attack of the Chinese at Kullenstedt. The battle is now proceeding.

Port Arthur Evacuated. LONDON, Oct. 25.—An unconfirmed dispatch from Yokohama to-day reported that the Japanese had invaded China. Another dispatch, dated Shanghai, stated that it was reported that the Chinese had evacuated Port Arthur. A report was also current that the Japanese had effected a landing at Tallen Wan bay on the Korean side of the Kwang-Tung peninsula near Port Arthur.

The Yokohama dispatch says: It is reported here that the army corps under Field Marshal Count Oyama, formerly Minister of War, has effected a landing near Port Arthur. It is also again asserted here that the Japanese army under Field Marshal Yamagata has successfully crossed the Yalu river and entered Manchuria. It was announced on Sept. 26 that Field Marshal Oyama had sailed from Hiroshima with the second Japanese squadron. Since then it has been repeatedly asserted that the Japanese had effected a landing near Port Arthur, and it has been stated that a report was current that this important place had been captured by the Japanese. It has been reported as having crossed the Yalu river, and also as having effected a landing on Oct. 5. A Shanghai dispatch stated that Field Marshal Oyama had crossed the Yalu river, and that he had three thousand men in the rear of the Japanese being driven southward. If the Japanese have been so uniformly successful against the Chinese, the most to understand how they have so many of their soldiers wounded and already sent to the hospital. Mr. Draffen said that on Oct. 23, announced that 1,800 wounded Japanese had arrived there; that there was a large number of wounded Japanese at Seoul, and that 2,100 wounded soldiers of Japan had already been sent back to that country. Suppose that the Japanese really would show that the whereabouts of about six thousand wounded are already in the hands of the Chinese. It is not to be assumed that this number does not include those who have been engaged in the Yalu river. It is not to be assumed that the Japanese are not engaged in the Yalu river. It is not to be assumed that the Japanese are not engaged in the Yalu river.

Inquiries made at the Japanese legation in this city show that no news confirming the reported landing of the Japanese army under Field Marshal Count Oyama near Port Arthur had been received there, but the Japanese officials fully credit the report. They say that it seems certain that Oyama's expedition was dispatched for the purpose of attacking Port Arthur.

The Standard says that a silver loan of \$200,000 to the city of London is being offered in London, probably in order to feel the pulse for a Chinese loan.

Pemle Spy Arrested. VANCOUVER, Oct. 25.—Among advices by the Empress of Japan is news of the arrest at Hiroshima of a female spy who gives her name as Ota. She has been using her wiles with effect among the Japanese officials and had secured of them at her beck and call, with the result that she was pulling up information for why old Li Hung Chang, one of whose extensive holdings, it appears, she was a member. She is beautiful and accomplished in seductive ways, and she speaks Japanese fluently. She was admirably fitted for the work to which she was assigned. Her recent betrayal of the Japanese officials fully credits the report that she was a spy. The disaster caused great excitement ashore and about

DISASTROUS EARTHQUAKES. Two Hundred and Fifty People Killed and 3,000 Homes Destroyed. YOKOHAMA, Oct. 25.—Three thousand houses have been destroyed by a succession of violent earthquake shocks. As far as known 250 lives have been lost and a large number of people have been injured.

EXPLOSION ON A WAR SHIP. Six Frenchmen Killed and Twenty Others Badly Scalded. BREST, Oct. 25.—An explosion took place to-day on board the French cruiser Arethuse while her engines were being tested preparatory to sailing for the East in order to reinforce the French squadron in Chinese waters. It such a step should be necessary. Six men were killed and twenty others were badly scalded. The first report of the disaster which reached the shore magnified it considerably, and it was generally believed that the cruiser's boilers had burst. It is now believed, however, that the explosion was due to the bursting of a steam pipe. The disaster caused great excitement ashore and about
