The percentage was 85.0, that is, the forecast was correct 85 percent of the time. This is the highest percentage officially recorded since the Weather Bureau was established. The present chief of the bureau, Mr. D. W. Foster, is justly proud of having obtained the highest record of verification to date. Cox to-night, speaking of the report that they had attempted to secure the Ohio Protective Association to throw its influence in favor of the Republican ticket, each said the report was a complete fabrication.
