

JACK FROST

It is somewhat late in making his appearance this fall, but he will be here—depend upon that. Shouldn't wonder that his Indianapolis order for jackets, etc. has been sent in by this time. Still, that fact need have no terrors for you. Our Underwear by day and our Blankets by night, and you can defy the FROST MAN. It's about

BLANKETS

that we wish to speak. Continual showing and handling last season has soiled a great many fine ones. These we are willing to sacrifice in order to sell them. They are not clean—don't expect that—but we've made such a difference in the price that you can have them laundered a dozen times and still come out ahead. All of them are PRICED LIKE THESE:

- White all-wool Shrunken Blankets, soiled, \$6.50 kind, for \$4 pair.
White all-wool Shrunken Blankets, soiled, \$6 kind, for \$3.49.
Red all-wool Shrunken Blankets, soiled, \$6.50 kind, for \$4.
Red all-wool Shrunken Blankets, soiled, \$6 kind, for \$3.50.
Red all-wool Shrunken Blankets, soiled, \$5 kind, for \$3.19.
Gray all-wool Shrunken Blankets, soiled, \$7.50 kind for \$5.

Dress Goods Bargain

TROWN FROM HIS HORSE.

James Powell, While Riding, Suffers a Broken Leg. James Powell, of 65 Rhode Island street, was riding his horse on North Mississippi street last night. When near North street the animal became frightened and ran away, throwing Mr. Powell to the ground. In the fall Mr. Powell's right leg was broken below the knee. He was conveyed to his home, where the broken limb was set by Dr. Eisenbeis and Dr. Cook.

Office Deaks of all styles.—Wm. L. Elder.

MORE OF FAST METERS

EXPERTS MAKE AN EXAMINATION OF THOSE IN TOMLINSON HALL.

Detroit Has a Meter Inspector—Fences Around New Buildings Must Be Removed.

Messrs. Noon and May, the two experts who have been examining gas meters in the city, took measurements on those at Tomlinson Hall yesterday and found one too fast and the other too slow. They were not prepared to give percentages. A report will be handed to the Mayor in a few days. The experts say that while Indianapolis is faring no worse than many other cities in the way of fast meters yet there is a considerable loss to the consumers. They say that in Detroit, as a result of examinations of meters by experts a meter inspector was appointed by the city at a salary of \$1,200 a year, the appointment made by the Board of Works and the gas companies paying the salary. Whenever a complaint is made by a consumer the inspector examines the meter. If the meter is found to be correct a fee of \$1 is charged the consumer. If the meter is too fast a like fee is charged, but it comes out of the rebate which the gas company is required to give to the consumer who has suffered. Before a meter is placed in a house or place of business the city inspector must set his private seal upon it, showing that it has been tested and found correct. An ordinance was passed by the Common Council bringing about this new state of affairs and the ordinance had to be amended first before it worked satisfactorily. Monday the two experts will test the big meters that furnish gas to the State Capitol. They think a considerable portion of the gas used for lighting purposes in this city is composed of natural gas.

ANOTHER PUZZLE SOLVED.

How to Increase Salaries Without the Intervention of the Council.

At the last meeting of the Board of Safety the reporters were excused, with the explanation that the board had a few routine matters to consider and nothing was to be done. Clerk Herrick said there was absolutely nothing to come before the board, the questions for consideration being trivial. It has developed that the same night John Engle, clerk to Superintendent Colbert, was appointed a detective and assigned to his old position. Formerly he was getting \$2.50 a day, but while credited with being a detective he gets \$2.50. Mr. Engle is not a detective and never has been. Mr. Colbert says the promotion was made so he could draw more pay. Under Mr. Powell a clerk was paid the old price and so it was with Mr. Engle when he was first appointed. In the same connection it might be stated Engle was appointed over the protest of Mr. Maguire, boss of the board. The latter stated to a friend that he "was not struck on the new clerk, but Colbert seemed completely gone on him." After Engle was turned out two years ago he went away to work for a while in Texas, but came home to vote for Mr. Taggart. His appointment has caused some disgust, for seemingly he has been simply to fill the position. It is said that Colbert would be absolutely helpless without the assistance of Mr. Engle and he insisted that if made superintendent he should select his own clerk.

FENCES OUT IN THE STREET.

Building Inspector Says Contractors Must Make Passageway.

Building Inspector Bunting has ordered the contractors for the new Lemcke Building, at Pennsylvania and Market streets, to remove the high fence which now projects out into both streets. The fence now reaches within a few inches of street-car tracks on both streets and it has been remarkable that serious accidents have not happened since the building has been under way. The contractor will be required, the building inspector says, to make a passageway along the sidewalks along the curb. A provision has been put into the contract for the new buildings that are to go up on the site of the Eastman, Schleicher & Lee fire, requiring the builders to secure a passageway along the sidewalk while the structures are building. In other cities a passageway is boomed up and building materials piled on either side. In this way traffic is not interrupted. The building inspector will see that this new requirement is enforced.

THE HOSPITAL APPROPRIATION.

Controller and Mayor Favor Permanent Improvements if Any Are Made.

Controller Johnson has not yet considered the matter of recommending to the Council an appropriation of \$30,000 for hospital purposes as recommended by the Board of Health. Next week Mayor Taggart will make an inspection of the hospital and see what is needed there. It is the opinion of both Mr. Mayor and the controller, as well as many others, that any improvements to be made at the hospital should be of a permanent value and not mere repairs that may have to be renewed a few years from now.

Spending Money Fast.

The Democratic administration is beginning at a rapid gait to spend the money left in the city treasury by the Republicans. The pay rolls for the week in the street commissioner's department amounted to \$1,462.50.

Park Commission Draughtsman.

Harry H. Reinschagen has been appointed a draughtsman in the office of the park commission.

FOR THE UNFORTUNATE.

Places Where Thanksgiving Donations Will Be Received.

It has been the custom for a number of years for the different charities of the city to make the Tuesday preceding Thanksgiving one on which to receive donations for the institutions. The following charities will be represented at the different places by members of the boards of managers, who will be at the places designated all day to receive gifts of food, clothing and money. The managers desire to give those who are under their care a good dinner on Thanksgiving and to have much left over to supply the tables during the winter. A liberal response to the call is asked. Donations for the orphan's asylum will be received at the When clothing store. There are about ninety children, and many pairs of shoes and other things are needed to make them comfortable. On account of there having been a case of diphtheria recently at the institution the children will not be at the When, as usual. Members of the board of managers of the Kinsale Home for Old Ladies and members of the auxiliary will receive donations at Mr. George Marrott's shoe store on Washington street from 8:30 till 2 o'clock. The managers of the Home for Friendless Colored Children will receive donations at Nixon music house, No. 53 North Pennsylvania street. Ladies will be in attendance at the rooms of the Boys' Club and Employment association, Nos. 62 and 64 East Court street, to receive contributions of clothing, shoes or hats for boys from ten to eighteen years of age. Just now there is a pressing need for supplies of this kind.

CHARGED WITH LOITERING.

But Suspected of Being one of the Men That Robbed Rosberg's Store.

Lawrence Hale was arrested yesterday afternoon by detectives Spahn and Thornton on the charge of loitering. He was found in an alley near Ohio and Pennsylvania streets. Hale was identified as the man seen carrying a large bundle through an alley near the scene of the robbery at Rosberg's tailoring establishment, Thursday night, and as the man who was seen carrying a bundle of clothing in the alley. It was said at the station house that Hale returned from the penitentiary six weeks ago, but has not been seen on the streets since. It is said he has kept in hiding since his return to Indianapolis. Hale is about nineteen years old.

GOING TO THE DOGS

IS THIS COUNTRY AT AN ASTONISHING RATE OF SPEED.

An Extensive Addition Made to the "Cranks' Curio Box" in the Governor's Office.

A very queer document was received at the Governor's office yesterday, which was promptly consigned to the "cranks' curio box." The document came in the shape of a scroll, twelve feet in length, the reading matter printed on both sides in glaring colors. Both sides are alike, that is, in reading matter. The latter clearly shows the work of a peculiar state of mind. The writer seems impressed with the great and awful danger in which the country stands of complete destruction. Perhaps the author is not insane, but merely a "degenerative," but anyway he has some very strange ideas and stranger ways of presenting them.

HUNTERS' PARADISE.

Arkansas and Northern Louisiana. The finest hunting for deer, turkey, squirrels, ducks, etc. The best hunting season for quail is between now and Jan. 1. Low rates of fare to hunting parties. For copy of game laws, rates and other information, address Cole Alexander, P. O. A. Missouri Pacific railway, 7 Jackson place, Indianapolis.

To Bicycle Riders of This City and State.

Owing to business reasons we have given up the Columbia bicycle agency, and we wish to inform patrons of our establishment, no matter what make of wheel they ride, we are in a position to give them our undivided attention and look after their wants as in the past. You are cordially invited to call and see our new line of bicycles. H. T. Hearsey & Co.

Sandow Butter

Would not be strong enough for some people, who are never satisfied. But those who are inclined to be reasonable are more than satisfied with the invigorating and palatable "Extract of Malt," brewed and bottled by The Home Brewing Company, Telephone 1669.

Don't forget to take a few bottles of Cook's Extra Dry Imperial Champagne with you on your summer outings.

AN ATTRACTIVE WINDOW DISPLAY

Show by the Central Rubber and Supply Co., 79 S. Illinois St.

The Central Rubber and Supply Company have an elegant display of rubber in their show window this week. The rubber is shown in the crude form, the raw state, and in the finished state. Rubber trees are common to most tropical countries, but the greatest supply is from the Amazon region. The rubber tree is one of Brazil's most important industries, especially along the Amazon river. These trees grow to the average height of thirty feet, and the rubber is taken from them in the same way as we tap our maple trees in this country. The sap from the rubber tree is milky in color, and is carried by the natives to kettles where it is boiled down until it becomes thick and sticky. After boiling down to the proper thickness it is taken out in large blocks by means of strong sticks, and the new pieces of rubber are made. Rubber trees are common to most tropical countries, but the greatest supply is from the Amazon region. The rubber tree is one of Brazil's most important industries, especially along the Amazon river. These trees grow to the average height of thirty feet, and the rubber is taken from them in the same way as we tap our maple trees in this country.
