MUST TAKE OUT LICENSES.
Agents of Express Companies Cannot Act as Wholesalers of Liquors.

OMAHA, Neb., Dec. 14.—Agent Humanson, of the Adams Express Company at Hastings, was to-day convicted in the federal court of selling whisky without a license. Sentence has not been pronounced. This case will cause a revolution in methods of express companies throughout the country. The federal law requires all persons handling spirits to have a license. Brewers save thousands of dollars annually by consigning goods direct to express companies in filling orders, who collect and remit. Under this ruling, they will be forced to take out licenses for all distributing points, however small, and will not be permitted to depend on express companies. The case will be appealed.

IN HONOR OF GEN. W. H. HARRISON.
Equestrian Statue of the Hero of Tippecanoe Placed in Position.

CINCINNATI, O., Dec. 14.—The equestrian statue of Gen. William Henry Harrison was placed in position to-day in Garfield place, next to Vine street. It is of bronze, modeled by Louis Rebeus, of this city, and was cast at Chicopee, Mass. It cost \$12,000, while the granite base cost \$5,000. It will not be unveiled until spring, in order to permit some very old people to be present.

Asphyxiated, Mangled, Buried.
BESSEMER, Ala., Dec. 14.—Roy Zane, who falls from West Virginia, crawled upon the top of an iron furnace last night and went to sleep. He was asphyxiated by gas and fell down on the boilers, a distance of seventy feet, and was literally burned up.

Miss Helea Culver Adds to the Wealth of Chicago University.

CHICAGO, Dec. 14.—Miss Helen Culver, of this city, has given \$100,000 to the University of Chicago, the entire gift to be devoted to the increase and spread of knowledge within the field of the biological sciences.

In defining the uses to which the money may be put, Miss Culver says: "I mean that the gift shall develop the work now represented in the several biological departments of the University of Chicago, by the expansion of the present resources. That it shall be applied in part to an inland experimental station, and to a marine biological laboratory. A portion of the instruction supported by the gift shall take the form of university extension lectures to be delivered by recognized authorities at suitable points on the West Side of Chicago."

To secure the above ends, a portion not to exceed one-half the capital sum thus given, may be used for the purchase of lands, for equipment and for the erection of buildings. The marine laboratory will be erected either on the Atlantic or Pacific coast and the inland laboratory will be placed at Lake Geneva, Wis., where the Yerkes telescope is located; \$50,000 will be spent for the erection and equipment of buildings on the college campus in this city.

Miss Culver is about fifty years of age and some years since inherited the estate of her uncle Charles J. Hull, whose household she managed for many years. Her estate is estimated at anywhere from \$7,000,000 to \$10,000,000. She says that in making the gift she is carrying out the ideas and honoring the memory of her uncle, whose name will be borne by all the buildings to be erected.

HELD AT SAGHALIEN.
Fifteen Americans Charged with Fishing in Russian Waters.

SAN FRANCISCO, Dec. 14.—Five San Francisco sea-faring men and ten other Americans are supposed to be held at Saghalien prison by the Russian authorities for prohibitory fishing in Siberian waters. The five San Franciscans belong to a party of seal hunters that left here a year ago on the steamer City of Pekin to join John Kennan's fishing crew that have headquarters at Hakodate and Yokohama. The men missing are: Frank Peterson, James Maloney, Steve Brennan, R. Sherer and Ned Howe. In addition to these men, in whom local interest will naturally center, are the ten American seamen and hunters, John Ross, James McCarthy, John Riley, F. Hill, A. A. Anderson, H. Carlson, Edward Lanckin, Alexander Lerrick, C. L. Nelson and K. Erickson. Two of the party seized the Russians and hurried to Saghalien prison are said to be British subjects. They are C. C. Campbell and A. M. Mudge. The Russian penalty for fishing in the waters off the coast of Saghalien island and Siberia is imprisonment for life in the island prison, where no man can hope to escape the persecution of petty tyrants and men abuses of laws that govern tyranny. The men under arrest have, undoubtedly, trespassed on Russian territory, but there is some question as to the jurisdiction of the czar over the island. Kennan has appealed to the Secretary of State, at Washington, in behalf of his men, asking the intervention of the United States government. The men were on the schooner Sappan, when she was seized by the Russians.

THE WILD DUCK KILLER SAFE

PRESIDENT CLEVELAND WAS NOT IN PERIL DURING THE STORM.

Now on His Way to Washington from the North Carolina Sounds—A. P. A. Fighting Coppinger.

Opposing Coppinger's Confirmation.

WASHINGTON, Dec. 14.—The American Protective Association is engaged in vigorous warfare through petitions and otherwise against the confirmation of the nomination of Gen. J. J. Coppinger to be brigadier general. The petitions charge that General Coppinger's promotion is made over the heads of a score of skillful, brave and gallant officers and assert that he has been promoted to the rank of brigadier general for three years. They further say: "He is the Irish Roman Catholic volunteer who was in the line of the landing of New York for Pope Pius IX against the freedom and unity of Italy and who for pretended gallantry in the capture of the German Emperor, St. Michael and made honorary aid de camp to Pope Pius IX." The petitions are in printed form and set forth the facts and arguments. The nomination is now before the committee on military affairs of the House, but has not yet been considered.

Utah's Constitution.

WASHINGTON, Dec. 14.—Jerrold R. Letcher, of Salt Lake, chairman of the Utah commission, arrived here to-day bringing with him the enrolled copy of the Utah Constitution as a certificate of the votes cast thereon at the last election for presentation to the President. It is designed to present these as soon as an audience can be obtained with the President. Governor Vest and other members of the Utah commission, and some congressional friends of the State will call on the President and the Legislature will be called in special session to make laws under the Constitution and elect United States Senators.

Something New in Metal Working.

WASHINGTON, Dec. 14.—An epoch in the progress of metal working is indicated in the judgment of United States Consul-General Mason, at Frankfurt, in the development in Germany of a process of making tubular forms directly from a hot metal ingot confined in a mold, into which a suitable shaped mandrel is driven by hydraulic pressure. The product is so much superior to tubular forms as ordinarily constructed, and is so economical that the German government has required all steel shells for guns to be made in this way. Cannon tubes up to and beyond six inches calibre are cheaply and speedily produced; copper tubes of ordinary sizes and any length up to twenty feet, and of any gauge, are produced in the same way. The process is being introduced in making machinery and in making it possible to substitute economical tubes for solid axes, shafting, driving rods and other parts.

Republicans Will Caucus.

WASHINGTON, Dec. 14.—The Republicans of the Senate will hold a caucus next Tuesday, when the caucus committee will make a full report on committee assignments. The committee will report on the assignments of the East at Governor's island, N. Y., and on the assignments of the Democratic caucus for its consideration, and the test of the ability of the Republicans to organize may come on Wednesday or Thursday.

MR. CLEVELAND SAFE.

Started for Washington Last Night After a Reception at Elizabeth, N. C.

BILZABETH CITY, N. C., Dec. 14.—President Cleveland arrived here at 4:45 o'clock this evening on board the lighthouse tender Violette. The town turned out to greet him and for half an hour Mr. Cleveland held an informal reception. The villagers were anxious to shake hands with the President. Mr. Cleveland seemed willing to gratify their wish in this respect. The President was dressed in a sack suit of black and those who expected to see him arrayed in fishing and hunting costume were disappointed. His face was bronzed and seemed in fine health and spirits. He was importuned for a speech, but declined. From what can be learned the President has distinguished himself as a sportsman on this trip. Scores of duck and swan have gone down before his unerring gun.

Exports and Imports.

WASHINGTON, Dec. 14.—The monthly statement of the imports and exports of the United States, issued to-day by the Bureau of Statistics, shows that the total amount of domestic exports during November was \$85,151,267, against \$78,887,284 for November, 1894; for the last eleven months, \$716,644,832, against \$722,648,063 last year. The total imports of merchandise during November was \$83,243,759, of which \$32,539,725 was free of duty; for 1894, \$50,564,812, of which \$23,044,095 was free of duty. During the last eleven months the imports amounted to \$7,841,217, against \$6,147,519 for 1894. The exports of gold during November aggregated \$14,666,460, an excess of exports over imports of \$13,472,875, against an excess of \$1,507,388 in imports over exports for the same month in 1894. The exports of gold during the last eleven months amounted to \$85,151,267, as compared with \$2,017,555 for the same months last year. The exports of silver coin and bullion during November amounted to \$5,139,921, and the imports \$1,027,653. The exports during November, 1894, were \$5,838,778, and the imports \$1,027,653.

RENEWAL OF UNFOUNDED RUMORS.

WASHINGTON, Dec. 14.—The report that the European powers have united in a demand on Japan for the evacuation of Korea is regarded as the Japanese legend here as a renewal of unfounded rumors current some time ago. It is stated by officials that Japan's evacuation of the Liao Tung peninsula is already accomplished. This was done as soon as China paid the indemnity, some weeks ago. At the time Minister Kurino, of Japan, made an official statement to the effect that the withdrawal would be followed by a general evacuation of the Japanese forces in Korea, except so far as they would be required to protect Japan's interests. Mr. Kurino expressly disavowed any purpose on the part of Japan to establish a protectorate over Korea. It is said in the legend that these conditions remain unchanged, and that the withdrawal of troops is proceeding as fast as practicable.

ST. JOSEPH, Mo., Dec. 14.—A sensational suit was filed here to-day in connection with the grave robbing that occurred here about a year ago. Fannie Tinsley to-day brought suit for \$25,000 damages against the Central Medical College for having caused the body of her husband, T. J. Tinsley, to be removed from his grave and used as a subject for dissection in the college.

HURRICANE ALL THE WAY.

The Steamer Portia Has a Terrible Struggle with Wind and Wave.

ST. JOHNS, Newfoundland, Dec. 14.—The steamer Portia arrived here safely to-day. Her captain reports having had a terrible struggle with wind and weather during the whole voyage from Halifax, a hurricane having raged all the way. The entire deck load, consisting of four hundred barrels, had to be thrown overboard. The wheel struck with wind and weather during the struggle. The steam pumps also gave out. Two of the crew were dashed against the rail, by the sea and severely injured. The whole ship was thickly coated with ice. The schooners Bertha, Daisy, Sovereign, Edie and Lake Albert are ashore on various parts of the coast.

Movements of Steamers.

NEW YORK, Dec. 14.—Arrived: St. Paul from Southampton; Campania, from Liverpool; Dresden, from Bremen.

Clearwater Is Pool Champion.

SYRACUSE, N. Y., Dec. 14.—Wm. E. Clearwater, of Ravenna, O., won the world's championship at pool playing to-night by defeating Jerome Keogh 25 to 12. If Keogh had won, the tournament would have resulted in a tie between Keogh, Clearwater and DeOro, the chance of the being in favor of the latter winning. A struggle paper offers to back Clearwater for \$1,000 against all for the championship of the world.

Sixty-Six Indictments Against Ward.

MEMPHIS, Tenn., Dec. 14.—Thirty-one more indictments were returned to-day against the "Ward" grand jury, making a total of sixty-six and amounting to \$100,000. In the Chancery Court Ward refused to give his testimony in the civil suits now pending against him and states that the threat of contempt of court and going to jail had no terrors for him, as he was already in jail.

Michigan's Output of Salt.

SAGINAW, Mich., Dec. 14.—The annual report of G. W. Hildreth, state salt inspector for the fiscal year ending Nov. 30 was issued to-day. There are 119 firms operating salt works in Michigan, having a total capacity of 4,500,000 barrels. The actual production for the year was 3,853,334 barrels, 26,333 barrels more than in 1894.
