PROPYLAEUM PARTIES.

What It Costs to Give an Entertainment There. The majority of people who entertain wish to do it on the most lavish scale commensurate with their means. Where there is no limit to the pocketbook or bank account the rooms may be lined with roses set with diamonds, the sparkling real and new drops may have tiny electric lights that rival the stars of heaven, with everything in proportion, but such long purses and extravagances are not to be found in the Hoosier capital, which, at most times, except the holiday season, is apt to take its social gayety homeopathically. A real swell party at the Propylaeum probably costs more than the same kind of a company at home, but there are very few homes where so many guests may be entertained so comfortably as at this woman's clubhouse. The building is so arranged that almost any amount of space may be secured for a party. Should the entertainer wish to have a dance in the assembly hall she may take that room and use the broad platform for a place to serve refreshments. If she desires to have all of her guests served at the same time, this cannot be done there, and one or more parlors on the first floor will be needed. For the use of the assembly hall and both parlors, with the use of the kitchen, the rentals will be close in the neighborhood of \$50, but the rental of the rooms is a small matter.

through the mails, and with four hundred, five hundred or more sent out this amount to a considerable item. No one has ever been known to send out invitations for a general party that some few friends or acquaintances have not been missed, either overlooked in the list or the invitation misdirected, so that this little unhappiness brought to the entertainer must be taken as a necessary infliction of a large party.

The gowns to be worn make another important item, and anything from \$25 to \$50 may be spent, or even more, though a gown costing more than the latter seldom goes to an Indianapolis party. The hall and lower rooms must be decorated. Flowers and potted plants are a feature of every party. Potted plants will cost from \$5 to \$50 or more and cut flowers, as every one knows, are mostly sold by the dozen, but sometimes by the hundred. It has been known that an entire bouquet, her roses for \$1 a hundred, but according to the number and kind preferred, they come from \$1.25 to \$5 or more a dozen. Almost any amount may be spent for flowers for the party. At the holiday season, Christmas greens are an extra item, and it costs from \$20 to \$30 for these.

Should the night be stormy or even suggest a storm, there is the saving to be considered. The one from the curb to the door will be \$1 or \$5. Should the hostess prefer the canvas for the floor of the ballroom, it will be \$10. This gives a prettier effect to the room, but it is very hard to dance on. It is a saving to party goers to have the floor protected, but to have the canvas or not to have it, is a matter of taste.

It would never do to have one's guests hungry, and dancing creates the best kind of an appetite. Ice cream and cake is not sufficient, and the thoughtful hostess will provide two or three courses, the first one or two substantial, and the last, ice cream and cake. If there are the courses, and so much a plate is paid, the price will be perhaps \$1.50 a plate, though sometimes \$1.25 is given. A good deal depends on what kind of ice is served. Colored ices in forms come to \$2.50 a dozen and the fancy ice creams at less; plain ice cream and cake at much less. It will take \$7 worth of ice cream and \$4 worth of macaroons and cakes to serve one hundred. All of the people have to be waited on, and the waiters are served at once, twelve waiters will be required and four waiters can do the serving for parties for forty persons.

The best number ever served at the Propylaeum was 500 for the reception given in honor of Miss Catherine Merrill. One caterer provided for a glue club last winter and was told to arrange for 300. She did and there were nearly 600 present. Fortunately ice cream and cake and oysters may be quickly secured and served, and so no one but the caterer and her assistants know what an amount of hurry there was in the kitchen.

Nothing has been said of the maids in the toilet rooms. They get \$2 each and servants in the men's toilet room get an equal amount each.

To have a dance one must have musicians, and these will be \$5 each. No large dance is given with less than four, and many of them with six pieces, or players. This of itself is something and the four or six players ought to be refreshed during the evening, although it must be said that some hostesses have been known not to think of it.

In giving a fine party expense is seldom spared. It is considered better to give one large party with everything done as it should be once in three or four years, rather than to be "skimping" and have several parties. If a fine party is given it is praised by one's friends and remembered for several years. If a "stingy" party is given it gives an opportunity for criticism, and one never outlives that, according to the philosophy of swill society.
