

A Tandem. What woman is all the wide world would not be glad to be a tandem for two happy, healthy, practical babies? When Nature whispers the sweet assurance of maternity, it is a little stranger will come to you, with baby fingers her cheek and neck, she makes the fondest preparations for its arrival. Everything that a woman's dainty taste can imagine is provided for the new-comer's wardrobe. Nothing is overlooked save one thing, and that one thing is the most important. Too many mothers forget that baby's strength and health, its ability to withstand the usual ailments of childhood, and its vigor and welfare, at a man's expense. It is dependent upon her own health and physical condition during the period of prospective maternity. If, during that critical time, she is weak, sickly, nervous and dependent, because of troubles peculiar to her sex, these conditions are bound to have their influence upon her baby's health. Neglect of these conditions invariably means that baby will be weak, puny and feeble. Dr. Fiere's Favorite Prescription is an unfailing cure for all troubles of this nature, and it will reinforce a woman's body and nerve strength so that she can safely undergo the trials of maternity. It gives health, strength, vigor, elasticity and endurance to the organs specially concerned in motherhood. It gives bodily and nervous hardihood to the child. After using fifteen bottles of your 'Favorite Prescription' and five vials of your 'Fleasant Pellets,' I am entirely cured of uterine troubles. I had suffered for nearly three years. Mrs. F. W. Fogel, of 714 Highland Ave., Newark, N. J. 'I had such terrible bearing down pains that I could hardly walk. My back and head ached dreadfully with more or less nervous attacks, and I felt miserably. With my first child I had to be chloroformed and the child was delivered with my second child, and I was confined for two months. I was born only an hour and a beautiful child was born. I was able to leave my bed the fifth day. I commenced walking in about four months after confinement. My baby is three months old now and is a fine, big fat baby. I am in very good health, have no more pains or aches. I would be pleased to advise any woman who suffers as I did.'

TO START AN ORGAN DEMOCRATIC SENATORS SEEK LEGISLATION TO HELP THEM.

Bills Directed at the Associated Press Fall of Passage in Both Branches.

COLUMBUS HOSPITAL KILLED

SENATE OVERWHELMINGLY SUSTAINS THE GOVERNOR'S VETO.

Speaker Littleton Complimented by the Representatives—House Has Little Business.

Yesterday's session of the Legislature indicated the close of the session. The Senate was busy acting on bills, and the House having practically completed its work on Friday, took recess and adjourned all day in order that it might act on bills from the Senate, and that the speaker might sign bills. The last bill to be received by the Governor was last night about 9 o'clock, when the anti-lynching bill, a House bill introduced by Mr. Noel, came to him. The bill was introduced by Speaker Littleton himself in order that it might go to the Governor. The Governor will refuse to receive any further measures. Both branches will meet to-morrow, when the members of the House expect to loaf. The House will devote a portion of the afternoon to orations on the life of ex-Governor Matthews, and some time during the afternoon or evening both branches will adjourn without day, and the Sixty-first General Assembly will come to a close. As soon as the Senate was called to order yesterday afternoon Senator Shea introduced a new bill which was expected to make great changes in the newspaper field of this city. It provided that the Associated Press shall furnish its news service to any paper asking for it and willing to pay the regular price. Senator Shea, in asking for a suspension of the rules, said that there was a crying need for such a law and that the bill ought to pass. Senator Wood introduced the bill, explaining that the Associated Press was merely an association of newspaper publishers, organized for the purpose of furnishing news to members, who were charged pro rata, according to the cost of operation. Senator Drummond vehemently advocated the bill, saying that it was not directed at regular papers, but was introduced for the purpose of allowing Democrats to combine and place a reputable paper in the city of Indianapolis which would reflect the real sentiments of the Democratic party. He alleged that the Sentinel was repudiated by most of the representative Democrats as un-democratic, and that it was not directed at Democrats all over the State to work in common until a real Democratic organ was established in the capital city. He referred bitterly to the episode of the day before in which the representative of the Sentinel had been expelled from the chamber and wound up by pleading for the help of the Republican members in having the Democratic party represented by a reputable paper. Senator Wood joined in the appeal, but from a purely business standpoint. He, in common with Senator Agnew, held that the Associated Press had a monopoly of the news service and should be compelled to sell news to all.

Senator Drummond replied by saying that, as a Democrat, he had come to the conclusion that he would not give up the man who fought the battles of his party, and that if he could live the last sixty days over again he would not give up the man who fought the battles of his party. He said that he would not give up the man who fought the battles of his party, and that if he could live the last sixty days over again he would not give up the man who fought the battles of his party.

At 11 o'clock Senator Lambert moved that Senate Bill No. 19 (the Columbus insane hospital measure) be passed, notwithstanding the veto of the Governor, but, as anticipated yesterday morning, the opposition was too strong. Mr. Noel, Mr. Goar, Mr. Hornor, Mr. Lambert, Mr. Ryan and Mr. Shea cast the only affirmative votes.

The following House bills were passed during the day: No. 578. To allow the Union Chapel Cemetery Association of Marion county to hold the title to the tract formerly known as the Whitinger burying ground of Washington township.

No. 579. Allowing townships in adjoining counties to construct free grade roads jointly.

No. 580. Allowing the prosecution of lynchers in Indiana and adjoining States to call in citizens to aid them in an emergency.

No. 581. Requiring the chief of the Bureau of Statistics to compile labor, social and criminal statistics.

No. 582. Compelling the doorkeepers and assistants of both branches of the Assembly to wear Union soldiers' uniforms.

Senator Stillwell offered a resolution at present intervals during the session requiring the judiciary committee to make report on the bill providing for the creation of a railroad commission.

No. 583. Providing for the cost of surveying and marking a part of the assessment against the abutting property owners.

No. 584. For the burial at state expense of all Union soldiers or their wives and orphans.

No. 585. For the creation of a state board of emergency relief during the session requiring of every kind of short notice.

Senator Noel announced that he was against the bill, saying that he understood that the "architectural" clause had been struck out of the bill, and that in his opinion all that was left of it was the name of Francis T. Hoops on the back of the bill, and that he had moved to strike out the enacting clause, which was done.

No. 586. Providing for the exchange of state reports and documents for similar publications of other States.

No. 587. Regulating the duties of town and city trustees in cities of from 5,000 to 50,000 population.

No. 588. Providing for the payment of material men an absolute lien not only on real property, but also on machinery owned by their debtors.

No. 589. Requiring the directors of all insurance companies to each year file with the state auditor a statement of their sources of income.

No. 590. Regulating the incorporation of Shiloh City, Allen county.

No. 591. Specifying the method of making sheriff's sales.

No. 592. Providing for the redemption of property within six months after the end of the two years of the owner's own default.

The Senate concurred in the House amendments to Senate Bill No. 582, and 583, the latter of which is the Indianapolis street improvement bill, which specifies that intersecting pavements shall be approved by the board of public works.

Approval of the bill to reimburse the University of Vincennes for the loss of \$52,200, providing for the confinement of feeble-minded women up to forty-five years of age in the Institute for the Feeble-minded at Fort Wayne.

PRESENTS TO THE SPEAKER. Watch and Cane Presented Him—An Easy Session.

The morning session of the House was merely an effort to keep the session open in order that the speaker might sign bills and that the House might act on such bills as would come from the Senate. The close of the session was marked by kindly expressions and handsome gifts to the speaker. Mr. James, a Democrat, who was present, said that he had been delegated a very pleasant duty. He desired to say to the speaker, for the minority and for the members of the whole House, that he was held in high esteem by all. The minority, he said, had been fairly treated throughout the entire session. He had tried to do his duty, and he hoped that the members of the House, a handsome gold-headed cane, which he then sent up to the speaker. When the speaker had received the cane, he said that he frequently stopped to rest his hand on it, and he expressed the greatest pleasure in receiving it. He said that he had been very much pleased to receive it, and he hoped that the members of the House would be very much pleased to receive it.

Speaker Littleton was greeted by the presentation, and said that it was indeed a very pleasant surprise. He said that he had been very much pleased to receive it, and he hoped that the members of the House would be very much pleased to receive it.

The Democrats contemplate starting a new paper in this city, and that proposition was the cause of a bill introduced by Mr. Downey to break the Associated Press. It required all corporations, associations, selling information or news, or collecting information or news, to send the news to any newspaper which might demand it. An attempt was made to suspend the rules and place the bill on its passage, but the attempt failed.

The first bill passed was that by Senator Goehner to enable owners of land to drain and redivide such lands, which was not done without affecting the lands of others. The bill was passed by 62 yeas and 9 nays.

An attempt was made to reconsider the bill which Senator Newby's bill was killed. This authorizing the county commissioners to appropriate money for county hospitals, which was introduced by Mr. Newby, was defeated by a vote of 5 yeas to 5 nays.

Mr. Kirkpatrick, who has been persistent in his effort to have the county commissioners brought before the House, rose to his feet, and Mr. Marshall at once moved to adjourn. Mr. Kirkpatrick said that he had just been informed that the bill had been brought back from the printer and had been put in the hands of Mr. Hedgecock. He demanded that the clerk at once take the bill from Mr. Hedgecock and send it to the printer, so that the resolution requiring the county commissioners to be brought before the House might be passed.

No business was before the House in the afternoon, but it had to remain in session so as to receive reports from the Senate, which will be made to-morrow. The members were at ease during the entire afternoon, and at times the House was officially in session. The members sat around and chatted, and the House was officially in session. The members sat around and chatted, and the House was officially in session.

A message from the Senate or to announce that he had signed some enrolled bills. This was some throwing of books and papers and Mr. Root rose to make a motion. He was made the target for so many missiles that he was forced to place the waste basket over his head and then was driven from the floor. Mr. Downey sent up a resolution to distribute among the high schools the reports which are now in the possession of the Statehouse, and it was adopted. Mr. Root sent up a resolution requesting the city to fix the sidewalks between the \$300,000 monument and the \$2,000,000 Statehouse. He said he did not care for its adoption, but he merely desired to call the attention of the street, which was one of those most traveled by strangers to the city. A resolution expressing thanks to the public printer and one expressing thanks to the working newspaper men in the House were adopted. After the first hour the members were not called to order to hear the messages from the Senate, and they were reading the papers and talking to each other and the members spent the afternoon socially. As soon as the Senate adjourned the House adjourned until Monday morning. The following committee reports were received:—Insurance.—

No. 569. By Mr. Barlow: To create the office of state oil inspector; indefinitely postponed.

No. 561. By Mr. Noel: Relating to companies organized and operated against burglary; etc.; indefinitely postponed.

—Bill Referred.—

No. 562. By Mr. Downey: To regulate foreign corporations buying or selling news, to wear Union soldiers' uniforms; indefinitely postponed.

—Bill Passed.—

S. B. No. 207. By Mr. Goehner: To enable owners of certain lands to drain them; etc.; 62 yeas, 9 nays.

—Bills Defeated.—

S. B. No. 208. By Mr. Leduc: To enable trustees to build flood gates; 3 yeas, 53 nays.

No. 82. By Mr. Hedgecock: To revise the fee and salary law; 20 yeas, 31 nays.

ONE HUNDRED NEW CARS

FIRST STEP AFTER CONTRACT IS SIGNED, SAYS MR. MCGOWAN. Cobble Stones to Be Torn Up—What the Mayor Says of Plans.

According to the statements made by Mayor Taggart and Hugh McGowan both the city and the new street-railway company are making a great deal of work and giving the people of Indianapolis better service. The mayor says that while it is desirable to get the matter disposed of as soon as possible, the city officials realize the magnitude of the task which confronts them in making a contract which will secure a first-class service for the city for all time and offer no loophole by which the company can evade any of its obligations.

He said that few people realize what a task this is and how many points have to be considered in formulating such a contract. Referring to the provision in the proposition made by the company that the road was to remain under the control of local people during the entire life of the franchise, he said that it was a question whether such an agreement could be enforced if the company saw fit to violate it.

Mr. McGowan, representing the new company, when seen last night held much the same views as the mayor and expressed the wish to get the stock of the company as soon as possible. He said that he had been in the city for some time and that he had been very much pleased to see the people of the city and that he had been very much pleased to see the people of the city.

While expressing a desire to say little and do much, Mr. McGowan said that the company intended to begin to lay out the streets as soon as possible. He said that he had been in the city for some time and that he had been very much pleased to see the people of the city.

Mr. McGowan said that he had been in the city for some time and that he had been very much pleased to see the people of the city. He said that he had been in the city for some time and that he had been very much pleased to see the people of the city.

Mr. McGowan said that he had been in the city for some time and that he had been very much pleased to see the people of the city. He said that he had been in the city for some time and that he had been very much pleased to see the people of the city.

Mr. McGowan said that he had been in the city for some time and that he had been very much pleased to see the people of the city. He said that he had been in the city for some time and that he had been very much pleased to see the people of the city.

Mr. McGowan said that he had been in the city for some time and that he had been very much pleased to see the people of the city. He said that he had been in the city for some time and that he had been very much pleased to see the people of the city.

Mr. McGowan said that he had been in the city for some time and that he had been very much pleased to see the people of the city. He said that he had been in the city for some time and that he had been very much pleased to see the people of the city.

WASHINGTON AND PENNSYLVANIA STS. Open all night.

DENTIST Dr. A. E. BUCHANAN

32-33 When Building. Mrs. E. P. Tilford, a Pioneer, Dead.

Mrs. Emily P. Tilford, a pioneer, died at the age of eighty-three years at the home of her niece, Mrs. Michael Sells, No. 302 North Meridian street, yesterday morning. She had been ill for nine months. Her father, Jacob Weitzel, was one of the pioneers who settled near Waverly in 1816. He obtained his right to settle there from the chief of the Delaware Indians. Mrs. Tilford's first playmate were Indian children. She came to this city in 1840 from Johnson county. Her first husband was W. H. H. Finney, who died in 1850, and her second husband, Milton C. Tilford, died five years ago. She was childless. She was a member of the Central Presbyterian church, and the funeral will take place Monday afternoon.

Colored Boy Stole \$10.

Eddie Griffin, a colored lad of about twelve years, was taken to the police station yesterday forenoon on a charge of petit larceny. It is claimed that he stole a \$10 bill from a Mrs. Pedlow, 34 Douglas street, for whom he was working. It seems that he showed the money to his mother and told her he had found it. She took the money and bought the boy a new suit of clothes, and when arrested he confessed that he had stolen it.

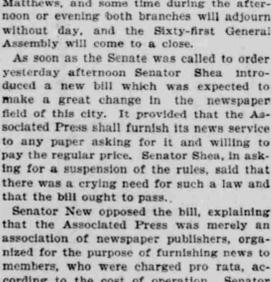

The Gang Bound Over.

William Hurt and Dan Loder, charged with forgery, and Fred Hazleton and Fred Esley, grand larceny, were bound over to the grand jury. These are the men arrested Tuesday for stealing and obtaining goods from wholesalers on forced orders.

The Cook Can't disappoint Those Who Use Grape-Nuts.

They are perfectly cooked at the Factory. Responsible for Many Cases of Indigestion.

Many cooks send cooked cereals to the breakfast table in a starchy, paste and wholly indigestible manner. You are sure of a properly cooked dish when Grape-Nuts are served, for absolutely no preparation of any kind is required; therefore, the flavor and ease of digestion are just as intended by the food experts who make Grape-Nuts. Try them. Made by Postum Co., Battle Creek, Mich. Leading grocers sell Grape-Nuts.
