A FIGHTING PROFESSOR

PROF. STONEKING, OF I. U., TROUNCED A TROUBLESOME NEGRO.

Indiana Miners Celebrate the New Eight-Hour-Day Agreement—School Teachers Adjourn.

Special to the Indianapolis Journal.

BLOOMINGTON, Ind., April 1.—There was a sensation on College hill to-day in which Prof. J. A. Stoneking proved himself an athlete. James Maybury, a young colored man of bad habits, came to Stoneking's home early in the morning while the professor was away. He attacked his wife, a domestic in the Stoneking family, and beat her brutally, then left the house. Upon the return of the professor at noon the story had just been related to him when the negro again made his appearance and was met at the door by the professor, who refused his admission. This enraged the negro and he forced his way into the house, picked up a chair and made an attack. The professor wrestled the chair from the negro's hands, threw him to the floor and with a convenient buggy whip, used the butt end to give the negro an unmerciful beating. Upon his promise to leave peacefully the man was allowed to go, but no sooner had he left the house than he commenced throwing stones and broke a number of windows. A party was soon organized and the negro was captured and placed in jail where he will stand trial for assault with intent to kill.

Special to the Indianapolis Journal.

NEW ALBANY, Ind., April 1.—Charles L. Bradley, son of Lawrence Bradley, ex-president of the Second National Bank, shot Charles M. Dunbar, a young druggist of this city this afternoon. The shooting occurred in front of Dunbar's store, East Ninth and Spring streets. Bradley called Dunbar outside and as soon as he appeared drew a Colt's revolver and fired, the bullet striking him in the wrist and coming out near the elbow. Dunbar grappled with Bradley, and they were separated by the crowd. The cause for the shooting is unexplained. Dunbar has several clubs, and he and Bradley have been friends apparently. Dunbar has never had any quarrels with Bradley and the latter must have had a fancied grievance against him. Bradley has been in the city for some time and it is said his mind has become affected. Bradley was taken in custody and was released on \$500 bond to appear April 15. Dunbar is not badly wounded.

But he found friends among the relatives of the Ponlets, who educated him and tried to make a lady of his coarse wife—a Miss Shippy, ballet dancer—and what with his organ grinding and his public life, he won no little sympathy from the people. The interesting question is: How will he receive the House of Lords should he win his title?

great service to the association and think that this feature of annual meetings should receive greater encouragement.

The first resolution of the association was a warm member to his feet. He declared that many of the teachers had never even heard of the article in question. The association will pass judgment on it. He moved to adopt the resolution without the first clause. The vote supported him and killed the resolution. An amendment appropriating \$5 for the exhibition of penmanship work of the schools was referred to the executive committee with power to act. The sum of \$5 was appropriated to the state headquarters at the national meeting. The members of the association and the various sections were elected as follows: General association president, J. N. Waddy, Fort Wayne; vice president, W. E. Richards, Michigan City; secretary, Mrs. E. M. Richards, Auburn; treasurer, W. A. Mills, Ellettsburgh; railroad secretary, J. W. Hadley, Forrest.

Car Works Valuation.

Special to the Indianapolis Journal.

JEFFERSONVILLE, Ind., April 1.—The statement published in regard to the amount of taxes paid into the county treasury of Clark county by the Ohio Falls Car and Manufacturing Company being only a \$100,000 valuation, has called forth the statement from M. Z. Stannard, attorney for the company, in which he says in part: "The deal by which the sale was made was only made possible on account of the plethora of money seeking investment at this particular time and exceedingly low rate of interest that is being paid on loans, due largely to the stimulus given to general business as a result of the war. While the price paid was given out at about \$200,000, the value of the old company assumed the bonded debt, amounting to \$500,000 and its other obligations to the satisfaction of the creditor. In addition to this the old company has a number of contingent liabilities still outstanding, such as pending lawsuits in respect to the like, some of which may have to be made good."
