WEAKNESS IS DISSIPATED

NEW YORK STOCKS REACH A RANGE ABOVE SATURDAY'S LEVEL.

Small Comfort Found in Explanations of the Bank Statement—Opening Strength in Local Markets.

At New York yesterday money on call was firm at 5 to 12 per cent; last loan, 5 per cent; ruling rate, 5; prime mercantile paper, 4 1/2 to 5.

Steering exchange was irregular, with actual business in bankers' bills at 1/8 to 1/4 for demand, and at 1/2 to 3/4 for sixty days; posted rates, 1/4 and 1/2; commercial bills, 1/2.

Silver certificates were 1/16 to 1/8; bar silver was 55 1/2; Mexican dollars were 47 1/2. Bar silver at London was steady at 2 1/2 per ounce.

The clearing house committee of the Clearing House Association has decided to place all the trust companies that clear through banks in the association in the same category as the member banks, which means, in effect, that the trust companies will be obliged to make weekly reports of their assets and liabilities, and submit to general examination of their affairs.

It was also decided by the committee to send out a formal notice to the sixty-four banks in the association, informing them that they must not clear for any trust company unless the company has been in active operation for at least one year.

This will result in the withdrawal of the Morton trust, the federal trust, the bankers' trust, the century trust, the trust company of New York, and fully half a dozen others that have come into existence recently. This rule will place the trust companies on exactly the same footing as member banks.

The course of the New York stock market yesterday actually dissipated the symptoms of weakness which were engendered by the bank statement, and the course of prices was downward in the early dealings, but practically all the declines were recovered and the market was established in a considerable list of stocks.

The downward course proceeded to the extent of 2 to 4 points in many of the prominent industrials, and reached as much as a point in the case of the American Express, a decline which was not recovered until noon. It was generally expected that the market would be a single bank or two, but it was advanced 1/2, and closed there, the previous day's advance being 1/4.

Higher Grain Markets. They follow a period of dullness and great weakness.

Foreign News Adds Strength to Wheat—Cables and Small Receipts Advance Corn—Oats and Provisions.

CHICAGO, Nov. 6.—All the grain markets were strong to-day and good advances were scored, wheat closing at 1/2 advance, corn 1/16 higher and oats 1/16 higher.

The opening in wheat, though quiet, was not without interest and considerable strength was shown. For the first time in weeks prospective buyers had something really substantial to announce.

The trend of prices was steadily upward and during the last hour of the session the best prices for wheat were 1/2 cent higher.

Local shorts shown on Saturday's curb was much more apparent at the opening to-day and buying from that class of traders had taken place.

The demand was not heavy, but offerings were few and far between and shorts in consequence had some difficulty at times in covering.

There was some selling by professionals on the first announcement of Northwest receipts, which turned out to be very light.

There was also done on the announcement of an increase of 1,400,000 bushels in the visible supply.

But all offerings were quickly absorbed and at the close of the session the market was 1/2 cent higher.

The trend of prices was steadily upward and during the last hour of the session the best prices for wheat were 1/2 cent higher.
