Several incidents helped professional traders in putting up prices of stocks yesterday. A selling movement in the last fifteen minutes of trading, however, made some was rather weak, but with net gains saved for the majority of stocks. Sugar continued to occupy a preponderating share of attention. A further advance of 10 cents sugar was the occasion of the strength in the advance, and its competitors in the trade quickly followed. Wall street gave much attention to the movement of represenfatives of the various companies, as bearing on the problem whether the rival interests had or had not come to an agreement for a settlement of the trade war. The moderate price movement in the stock, in view of the news, seems to indicate that the short interest had been largely elimnated. After advancing something over two points, profit-taking turned the price backward. London bought stocks here to the extent of 20,000 shares, Louisville being n special demand for that account. This buying, which gave the opening tone to the market, was based on the favorable war news and the easier money condition n London. The eve of a holiday invariably leads to the closing up of accounts and buying for the shorts was an element of strength yesterday. Some relief was felt at the nonoccurrence of further financial difficulties. The iron and steel stocks were strong, led by Steel Hoop on the favorable annual statement. Confirmation of reports of an arrangement for the absorption of

Company were a favorable influence. Railroad earnings, so far as reported, wer good. The room traders were disposed to the bull side on the general grounds that ness displayed in face of the two brokerage failures last week and this. Notwithing these various elements of strength it cannot be said that the sentiment for an advance was very deep-rooted. Uneasiness continues over the reactionary tendency of business, and especially over the decline in freight traffic and well defined reports of cutting of rates. The need of rain in the spring wheat belt is also a

cause of anxiety. The bond market was very dull and the price movement irregular. Total sales, 1.535,000. United States bonds were unchanged in bid quotations. Following are the day's share sales and

There was a large local trade in corn, and prices were higher. intensified, with the market in as nearly a state complete stagnation as it is possible to co ceive it. The mills are pursuing the strictly hand-to-mouth policy in the purchasing of woot, because of the quietness of the goods trade and the uncertainty as to the style of goods which will be in demand for the coming light-weight season. Sheep-Receipts, 200; shipments small. The receipts of sheep and lambs were not large enough to invite active competition between buyers, and therefore the trading was a little sluggish and prices rather inclined to weakness, except, possibly, for the handy light stock. It appears that buyers are very well supplied for the present, and it is reasonable to expect that there will be some rally in prices when the conditions are different. Yearlings sold at \$5@5.25, sheep at \$3@4 and spring lambs at \$5.25@6. Quotations:

The market opened steady to a shade higher, with liberal orders from Eastern packers and changed hands at strong prices. Trade We are Running a ruled active, with quite a number of buyers anxious to fill their orders, but they were unable to do so for want of stock. The closing was steady, with rather

UNION STOCKYARDS, INDIANAPOLIS,

May 29.-The marketing of horses is gradually getting back to normal, about 200 head having been offered in the regular sale, against 125 a week ago and 300 a year ago. Comparatively few strictly high-class harness horses or prime heavy drafters were represented, but for the most part the offerings were a smooth lot of stock and met the requirements of the trade. There was quite a good attendance of buyers, but with salesmen trying to get as high prices as those current a week ago the demand at the start was sluggish. After noon there was more animation in the bidding and the trading was more active, but sales-"Moderately warm weather the greater | men were unable to get the high prices current a week ago. Sales, however, appeared to be generally satisfactory to owners. First transactions included coach horses as high as \$200, and drivers and carriage teams at from \$100 to \$400.
