The banks now hold \$16,859,376 in excess of the requirements of the 25 per cent. rule. Saturday's New York stock market showed clearly that operators in shares have resigned themselves to a period of waiting and dullness, following the abortive bull movement Friday. Dealings were on an insignificant scale and the market was almost immovable during the greater part of the session. The drooping tendency in the wheat and cotton markets had the effect of stiffening quotations for some of the railroad stocks which opened depressed on the score of probable crop damage. Prices had dropped back somewhat when the appearance of the bank statement caused some covering by room shorts. The movement was, however, so feeble that there were some recessions, making the close irregular and very dull. The loan dation of sterling loans was probably grade, 1; total, 6 cars. keeping pace with the demand for new loans in providing for the July 1 settlements. This is the only possible explanation for the decrease in the loan account The increase in cash of \$649,200 also fulfills the expectation that some of the week's requirements for cash had already been anticipated in last week's bank statement. With the semi-annual settlement period thus comfortably tided over, the confidence is reasonable that the disbursement, after July 1, of the large dividend and interest payments will insure an adequate supply of loanable funds to meet

ning ease in money and continued firm, Saturday, as it has been all week. Prices of stocks are generally higher. after a week of great irregularity and varying fluctuations. The buying has come, to a large extent, from the short interest. and there has been no evidence of sub stantial investment buying. Bonds have been firmly held and have advanced on a small volume of business. United States refunding twos, when issued, advanced 14 and new fours declined 1/4 in the bid price. LOCAL GRAIN AND PRODUCE. The Business of June, as a Whole,

Satisfactory in Volume. Saturday closed the trade for the month of June, and in most lines it has reached expectations, and in some exceeded the volume looked for. This remark will apply to the wholesale grocers, the druggists, the iron and hardware merchants and produce and provision handlers, In lines where trade in June is expected to be Sterling exchange was steady, with actu- light merchants report their trade fully as good al business in bankers' bills at \$4.8614 for an in June. 1899. On Commission row the trade of the month was much more satisfactory than in June, 1899, as there was a large supply of fruits and early vegetables, and prices were so reasonable that the products, if good stock, were readily disposed of, and less fruit of the season went to waste than usual. The egg, poultry and butter markets ruled unusually steady through the month, butter and poultry being in good request. The flour market was more active, prices New York banks, issued Saturday, snows advancing 50 cents a barrel on the average. Provisions moved quite freely, but prices were

The local grain market was disappointing, and with the exception of the third week little interest shown in the cereals. The manufacturers of products from grain had a trying month, being unable to get corn or wheat at prices which left any margin on the manufactured product. Rains in the Northwest Provoked Wheat Liquidation-Corn, Oats and Provisions on Lower Range.

CHICAGO, June 30 .- Wheat was weak today under more liquidation, caused by the Liverpool unresponsiveness and rains in the Northwest, closing 14@1%c under yesterday. Corn closed %c lower and oats %c depressed. Provisions were weak, closing

121/c to 25c down. Wheat was only moderately active and weak most of the session, although at the bottom the market steadied. It did not, however, show much recuperative power at any time and was devoid of features. The weak opening was because Liverpool showed no response to the advance here yesterday, and also because rains were predicted for the Northwest. This caused renewed liquidation through commission houses on a moderate scale, and, as the demand was rather slack, the market slumped. European crop conditions were reported favorable. Through an error Beerbohm's report was made to show a shortage in this year's world crop of 16,000,000 bu, but a correction received later in the session made this 128,-000,000 bu. This was of influence in the market, such as it was, and made the close a bit better than the bottom. August opened unchanged to 1/2%c under yesterday, at 83@831/sc to 821/2c, and sold off early to 81c, closing 11/201%c down, at 81@811/2c. Resume of the Leading Items in the Seaboard clearances in wheat and flour were equal to 212,000 bu. Primary receipts aggregated 518,000 bu, compared with 788,000 bu last year. Minneapolis and Duluth reported 323 cars, against 411 last week and 524 a year ago. Receipts here were fifty-

three cars, none of contract grade Corn was quiet and altogether easy, early, in sympathy with wheat and under the influence of rains in parts of Kansas and on ir country offerings, but recovered later on a good shipping demand. August sold between 421/2042%c and 43c, closing %c under .. 4c. Liverpool was %d \$1.23. vesterday, at 4. lower. The cash business amounted to 260,000 bu. Receipts were 772 cars.

The oats market needed a plaster cast, and, not having it, was rather weak. There was a fair trade, but it was mostly in the way of changing July for other options. September was about 1/2c over July. There was some liquidation of July by longs and the Northwest demand was anything but urgent. August sold between 24%c and 241/sc, closing %c under yesterday, at 241/4c. Receipts were 300 cars.

Provisions were quiet and weak. wheat decline was of influence, but selling by packers who keep their reasons to them selves was the main factor. September pork sold between \$12.85 and \$12.721/2 and closed 25c under yesterday, at \$12.721/2; tember lard between \$7@7.021/2 and \$6.90 closing 121/2c down, at \$6.921/2, and September ribs betwene \$7.071/2 and \$7.05, with the close 15@171/2c depressed, at \$7.05. Estimated receipts for Monday-Wheat 100 cars; corn. 825 cars; oats, 270 cars; hogs 30,000 head.

UNION STOCKYARDS, INDIANAPOLIS June 20 .- Cattle-Receipts, 100; shipments fair. There was a very good supply of cattle on sale for this time of the week, and hard, 76@78c. Corn-No. 2, cash, 414c; June, will all buyers present the offerings changed hands readily enough at quotably steady prices. The arrivals were principally butcher grades, and there were none good enough to test the full strength of the market. The receipts this week show an increase of nearly 1,000, compared with iast week, and little change compared with the same week a year ago. There has been considerable uneveness in the trade this week, and rather a heavy feeling prevailed in prices for the opening to the close. For the most part salesmen succeeded in maintaining about steady prices for strictly dry fed fat cattle that were not too heavy and there was not a great deal of change in

Hogs-Receipts, 6,500; shipments, 1,500. The receipts of hogs to-day show an increase of 3,000 compared with last week, and were about that much smaller than a year ago. The market opened active at steady to 21/2c lower prices. All buyers were active, and the offerings changed hands in good season at the decline. With liberal receipts the beginning of the week there was break of 71/2@10c in prices, which was followed by considerably lessened supplies and naturally a rally in prices amounting to about 5c. Continued small supplies were responsible for a further gain of 10c prices on Thursday, and this was followed by more liberal receipts, which resulted in a loss of 10c, leaving the average at the close of trade Friday 5c higher than Tuesday. with yesterday. The receipts this week are about 20 smaller than last week and 900 smaller than the same week a year ago. From the beginning of the veek there has been rather a dull feeling in the trade and the tendency has been toward a lower level in prices. The scarcity of choice stock is largely responsible for the condition of the trade, but the markets elsewhere are in rather a demoralized state and it was hardly to be expected that the market would be satisfactory to shippers. "Saint" Theresa Shot.

PHOENIX, Ariz., July 1.-Theresa Urrea, commonly called Santa Teresa, the you senora, who, it is alleged, helped to incite the various Yaqui Indian rebellions in Mexico, was shot at Clifton, Ariz., by G. N. Rodriguez, whom she had married two days before. The young woman is regarded as a saint, and hundreds of Mexicans where he was captured after a hard fight. He was unmercifully beaten, and narrowly escaped lynching. The girl was live,

chased Rodriguez into the mo
