ANOTHER BULGE IN CORN. THAT CEREAL MADE A NEW HIGH RECORD FOR THE CROP. Wheat Dull and Oats Active, Both Closing a Shade Lower—Hog Products Somewhat Easier.

CHICAGO, Feb. 15.—Corn was the leading speculative figure on 'Change to-day. The market was active and strong under a variety of bullish influences and after setting a new high price mark for the crop, closed 1/4 cent higher. Wheat was dull and narrow, closing a shade lower. Oats also experienced a decline of a shade, while provisions at the close were 1/2 cent depressed.

Corn was a bigger market than has been experienced recently. Buying was general, while most of the offerings came from local hands. At the bottom of the market's strength lay light country acceptances, belief in an approaching period of bad roads, which would hinder the movement, the small amount of contract stock here and the fact that cash sales here yesterday afternoon aggregated half a million bushels. May corn opened 1/4 cent higher at 40 1/2 cents, and under heavy buying by commission houses and shippers and pressure from covering shorts advanced during the forenoon to 40 1/2 cents, one-half cent above the previous high.

Wheat was dull and narrow. Trade in this cereal was light in volume and absolute quietness reigned throughout the day. Local receipts were equal to 340,000 bushels, against 340,000 bushels the corresponding day last year. Minneapolis and Duluth reported 420,000 bushels, against 380,000 bushels the corresponding day last year.

Provisions were dull and the tendency toward a decline in prices was maintained. Pork was 1/2 cent lower at 11 1/2 cents, and lard was 1/2 cent lower at 11 1/2 cents. Butter was 1/2 cent lower at 11 1/2 cents. Eggs were 1/2 cent lower at 11 1/2 cents.
