

The Regilding of Frames

What WE Would Like. 'Tisn't often we tell you of our wants; we're too busy looking after yours. This business of regilding, however, offers the opportunity. Along in April and May our gilders, framers and upholsters have to work day and night to keep up with your demands. It's different now, and while we never slight your work, gilding is better for the delicate care and attention now possible. Let us have such pictures as require attention this month, and when house-cleaning time rolls around they'll be done to the queen's taste.

The Durability of THE DIAMOND Is greater than the strength of the Iron. It is the most imperishable thing in all creation. It is most fitting to use as the gem to represent human love and to bind the engagement of "love's young dream."

J. C. SIPE, Importer of Diamonds, 200 S. 2nd and 4, 184 North Meridian St. INDIANAPOLIS, IND.

Message from King Edward. Governor Durbin a few weeks ago received an invitation from the British consulate at Philadelphia to attend the memorial services for Queen Victoria, which were held in that city. The Governor was unable to attend but sent a message of condolence in response. Yesterday he received a letter from the British consulate which is from King Edward. It is said to be the first that any Indiana man has received from the King. I duly transmitted your letter of condolence on the occasion of the deeply lamented loss of the late Queen Victoria, Empress of India, to be laid before the King, my sovereign. I have received through the British secretary of state for foreign affairs the King's command to convey to you his most sincere thanks for your much appreciated message of sympathy in the great loss which has been sustained by His Majesty, his royal house and his subjects throughout the world.

Purdue Students on a Tour. Agricultural students of Purdue University, at Lafayette, to the number of forty, arrived in this city yesterday. The party has been making a tour of the larger stock farms of the State, leaving Lafayette Tuesday. The trip was in charge of the party. Several of the dairy farms and herds near Indianapolis will be visited today. Prof. S. Plumb is in charge of the party. The Wabash, the Big Four and the electric Indianapolis lines have supplied special accommodations for the trip.

THE KIRKMAN FISH LAW

FULL TEXT OF THE BILL PASSED BY THE LEGISLATURE.

The Emergency Clause Was Stricken Out, and the Law Will Become Operative in May.

House bill No. 16, introduced by Representative Kirkman, regulating the taking of fish from the waters of the State. The bill has been passed by both houses and has been signed by the Governor. The Senate struck out the emergency clause, so that the measure will not become a law until the acts of the Legislature have been printed and forwarded to the different counties. This will probably be the latter part of May. The bill reads as follows:

"Section 1. Be it enacted by the General Assembly of the State of Indiana, That it shall be unlawful for any person or persons, firm or corporation, to enter or permit any dye-stuff, acid, coal tar, oil, logwood or other refuse matter and substances to be thrown, run or drained into any of the waters of this State in quantities sufficient to injure, destroy the lives of fish which may inhabit the same at or below the point where any of such substances are discharged or permitted to flow into the waters. Whoever shall violate this section shall be fined not less than \$25 nor more than \$100 for each offense.

"Sec. 2. The use of dynamite or other explosives in any of the waters of this State is prohibited, except by the special permission of the commissioner of fisheries and game, in charge of the department, for the mining or mechanical purposes. Any one violating the provisions of this section shall be fined not less than \$50 nor more than \$100, to which may be added imprisonment in the county jail for any period not less than thirty days nor more than one year, and for a second or subsequent offense shall be fined in the sum of \$100 and imprisoned in the State prison for not less than one year nor more than three years.

"Sec. 3. It shall be unlawful to take, catch or kill or attempt to take, catch or kill any fish in any of the waters of this State by means of any spear, seine, pond net, set net, trammel net, gill net, dip net or any other kind of net or trap, or to kill or destroy or attempt to kill or destroy any fish by the use of Indian cockle, fish berries or other substances which have a tendency to stupefy or poison fish. Provided, that the provisions of this section shall not apply to the waters of Lake Michigan, private ponds, the Ohio river, the Wabash river so far as it is the boundary line between the States of Indiana and Illinois, except that it shall be unlawful to use any net, seine or trap in the Ohio or Wabash rivers, so far as the same is a boundary line between the States of Indiana and Illinois, within one hundred yards of the mouth of any stream emptying into such rivers from the Indiana side. Provided, further, that it shall be lawful to catch minnows for bait with glass minnow trap or a minnow seine, which shall not be more than twelve feet long, four feet deep and the meshes of which shall not be less than one-fourth of an inch. Whoever violates any of the provisions of this section shall be fined not less than \$10 nor more than \$25, to which may be added imprisonment in the county jail for any period not less than ten days nor more than thirty days, and for a second and subsequent offense shall be fined not less than \$25 nor more than \$50, to which may be added imprisonment in the county jail for any period not less than ten days nor more than thirty days.

"Sec. 4. It shall be unlawful to take, catch or kill or attempt to take, catch or kill any fish in any of the waters of this State, except private ponds, by any means or with any device whatever from the first day of December to the first day of April of the succeeding year or to sell, offer for sale or to buy any pike, pickerel, wall-eyed pike, perch, blue gills, black bass, green bass, rock bass or other species of bass at any time during the provisions of this section shall apply only to fish caught in the waters of this State. Provided, that the provisions of this section shall not apply to any person taking fish with a hook and line in any of the waters of this State at any time of the year, which method is hereby expressly made lawful at any and all times of the year. Whoever violates or attempts to violate any of the provisions of this section shall be deemed a misdemeanor and shall be fined not less than \$5 for each fish caught, sold or purchased, and not less than \$25 nor more than \$50 for each attempt to catch fish in violation of any of the provisions of this section.

"Sec. 5. It shall be unlawful for any person to fish in any of the waters of this State with more than one trot line, having not to exceed one hundred hooks, at any one time. Provided, that the provisions of this section shall not apply to the Ohio river, Lake Michigan and the Wabash river, so far as it is the boundary line between the States of Indiana and Illinois. Any person violating any of the provisions of this section shall be deemed a misdemeanor and shall be fined not less than \$5 nor more than \$25, to which may be added imprisonment in the county jail for any period not less than ten days nor more than thirty days, and for a second and subsequent offense shall be fined not less than \$10 nor more than \$25, to which may be added imprisonment in the county jail for any period not less than ten days nor more than thirty days.

"Sec. 6. No person shall enter upon any enclosed land for the purpose of setting a trot line without the consent of the owner, lessee or tenant of such premises. Whoever shall violate or attempt to violate any of the provisions of this section shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined not less than \$5 nor more than \$25, to which may be added imprisonment in the county jail for any period not less than ten days nor more than thirty days.

"Sec. 7. It is hereby declared to be a misdemeanor for any person to have in his possession, or to sell, or to offer for sale, or to buy, or to transport, or to attempt to transport, or to permit to be transported, or to receive, or to attempt to receive, or to have in his possession, or to sell, or to offer for sale, or to buy, or to transport, or to attempt to transport, or to permit to be transported, or to receive, or to attempt to receive, any fish or other aquatic animal, or any part thereof, other than a minnow, except as provided in section 3 of this act, and any one convicted of having such fish or other aquatic animal, or any part thereof, in his possession, or to sell, or to offer for sale, or to buy, or to transport, or to attempt to transport, or to permit to be transported, or to receive, or to attempt to receive, shall be deemed guilty of a misdemeanor, and upon conviction thereof shall be fined in any sum not less than \$5 nor more than \$25 for each fish or other aquatic animal, to which may be added imprisonment in the county jail for any period not less than ten days nor more than thirty days.

A FEE OF TWENTY DOLLARS. "Sec. 10. In all cases of conviction or on plea of guilty of violating any provisions of this act, in all cases filed by, or that have been caused to be filed by, the commissioner of fisheries and game, and in no other case shall be taxed and collected in favor of the commissioner of fisheries and game, a fee of \$20 as a part of the costs and against each defendant so convicted. Said fee shall be paid by the clerk, justice of the peace or mayor, as the case may be, to the auditor of state within sixty days after the collection thereof, and such fee shall be used for the purchase of state by the auditor of state, as a part of the fish and game protective fund, to be expended by the commissioner of fisheries and game in paying rewards and other expenses for the detection and conviction of persons who violate any of the provisions of this act and the game laws of the State.

MR. CREGIER'S CLAIMS

HE SAYS HE COULD HAVE SAVED THE CITY A LARGE SUM.

Charge Made that the Gamevill Bid Is Exorbitant—Other Municipal Affairs.

N. Banks Cregier, vice president of the Municipal Signal Company of Chicago, was in the city yesterday and criticized the Board of Safety for giving the Gamevill company the contract to place a new fire-alarm system in this city. Mr. Cregier made the claim several days ago that he could save the city at least \$100,000 from the bid submitted by the Gamevill company, and he said yesterday that he would have saved the city over \$200,000 had his company been given the contract. Had he been allowed to compete, his bid would have been about \$100,000, he said. Mr. Cregier claimed he would duplicate the Chicago system in Indianapolis, and thought it strange that the board would not consider his proposition, in view of the fact that the members of the board praised the Chicago system.

MEETS WITH FAVOR. Some Members of the Council on Pay of Policemen.

Councilman Perrott's plan to introduce an ordinance in the City Council providing for an increase in salaries of members of the police department and a few of the clerks in the city offices is meeting with general approval in view of the fact that the Legislature has passed a bill increasing the pay of policemen. One of the prominent public men members of the Council said yesterday that he was in favor of such an ordinance. He criticized the Legislature for not increasing the pay of policemen, and said he would introduce an ordinance to increase the policemen's pay.

Will Bid on Fire Engines. Several representatives of manufacturers of fire engines and other fire apparatus are in the city to bid on the new apparatus to be purchased by the city.

FAIR GROUNDS TRACK. It Will Be Used by Local Horsemen—The Premium List.

At the meeting of the State Board of Agriculture yesterday the members visited the fair grounds to inspect the buildings and race track. After much discussion it was decided that the track should be kept in condition so that horsemen and trainers will bring their stock here for training purposes early in the season. It was feared by many that the board would lease the track to some outside concern who would conduct races, but the members feel that enough revenue can be raised to keep the track and keep it in good condition from the local horsemen. The board decided to purchase the track for \$100,000, of this to be used for stake races, which will be a new feature at the fair grounds, and the remainder for purses. The reason the board will make a feature of the track is that it will be a new attraction for the fair grounds and will draw the best horses here. The members who were present at the meeting thought that \$100,000 was too large a sum to be given the speed department, but the premium list was approved, which does not cost it anything, as each race pays for itself from the entry money, the 20 per cent taken from the winners.

REPORT OF INVESTIGATION. Senator Agnew's Draft of It Will Be Considered To-Day.

The Senate committee which completed the investigation of the Indiana Industrial School for Girls and Women's Prison last Wednesday night has not yet decided on the report which shall be laid before the Senate. Senator Agnew, chairman of the committee, who was authorized by the committee to draw up the report, submitted a draft yesterday to the various members of the committee, but late last night a part of the committee committee withdrew and it did not know whether they would approve it or not. One member of the committee, who has made a careful examination of the report submitted by Senator Agnew, said there were certain charges which he did not approve, but declined to state wherein he differed from Senator Agnew. The committee intended to discuss the report, but owing to the late session of the Senate, postponed the matter until this morning.

Was Driven Out of China. The Rev. Horace W. Houlding, for many years a missionary in central China, who was driven out of that country during the late disturbances there, will speak at the Gospel Tabernacle, at East street and Massachusetts streets, at 7:30 p. m. and 7:30 o'clock. He will arrive in the city from St. Louis this afternoon, and will be the guest of the Rev. G. M. Eldridge, of Irvington.

Illustrated Sermons Continued. At the First Baptist Church on Sunday evening Rev. Thomas J. Villers will continue his series of six sermons on "Pilgrim's Progress from This World to the Next." The sermons are beautifully illustrated with stereoscopic views. On Sunday evening the pictures will be shown from the wicket gate to the cross. The illustrations will be more numerous and attractive than those in the previous series, and the illustrated hymns will precede the sermon.

New Associations. The following articles of incorporation were filed yesterday: The Klondike Milling Company, of Danville; capital stock, \$15,000; directors, C. E. Howell, M. B. Farnice, C. E. McLane and Joseph B. Homann.

The Porter Land Company, of Porter; capital stock, \$250,000; directors, Helen P. Evans, Jasper T. Darling, Clarence W. Shape, Henry F. Harris, Elizabeth C. O'Brien.

Insurance companies sell indemnity against loss by fire upon the same business principle that merchants sell goods to their customers. Prudent insurance companies do not accept risks unless they are able to pay in an untidy shape or if the report of the inspector indicates that a fire is likely to occur.

The Indianapolis Fire Insurance Company will insure your property. If upon examination the property is found to be in safe condition. JOHN N. SPANN, Secretary. Home Office, No. 145 East Market street.

MARION CLUB TICKET THE REGULARS ELECT ALL BUT THREE DIRECTORS.

John G. Kirkwood the New President—Judge Leathers' High Vote—The Official Result.

The Marion Club election Tuesday resulted as expected. The two institutions ought not to be under the same superintendent, and we therefore recommend that a site be purchased for the present board of institutions and appropriate and suitable buildings erected, and that such legislation be heretofore enacted as will provide a separate superintendent and corps of officers and teachers for each institution.

The successful independents were Clint Hare, John W. Bowers and Fred C. Gardner. In every instance, with these three exceptions, the regulars ran ahead of their ticket, and the unusual number of unscratched votes which they received is proof of the perfection of their organization. John G. Kirkwood received 436 votes as against 219 for Merle Walker, his independent opponent. Judge James M. Leathers, the regular and simon-pure candidate for first vice president, received 560 votes to 124 for his opponent, John E. Shidder. This was the largest vote that any candidate received. William A. Bogardus won the place of second vice president with 469 votes, his opponent, Linton A. Cox, of the independent ticket, receiving 151 votes. E. S. R. Seguin, the simon-pure candidate for secretary, polled 511 votes, while Judge Lawson M. Harvey landed the office of third vice president with 383 votes, while Albert Leap, of the independents, received 275 votes. Dr. Homer Jones, of the simon-pure ticket, trailed behind with 22 votes. Bert E. Uhl, of the regulars, administered an overwhelming defeat to the independent candidate for treasurer, by a vote of 446 to 238. Of the directors, John L. Ketcham, sr., received the highest number of votes, while L. Hare and John W. Bowers, of the independents, received 37 each. Charles O. Roemer, a regular, received 20 votes, and Fred C. Gardner, an independent, 32. Leon J. Cooper, the regular candidate for sergeant-at-arms, received 20 votes, while Fred C. Eppert, of the independents, polled 20, and Fred Akin, of the simon-pures, only 15 votes.

Mr. Votaw Took Clerk's Place. Clarence E. Votaw, chief clerk of the railway mail service, started off yesterday morning to go to Seymour to inspect the Southern Railway, but on arriving at the Union station in this city he found that Train No. 3, on the St. Louis division of the Big Four, on a slow short, and he accordingly undertook to make the run to St. Louis in place of the absent clerk. It does not often occur that Mr. Votaw assumes this work, although he is perfectly competent to run on any route out of Indianapolis. It was reported that he failed to catch the mail at Toiglate, Ind., because he did not get to the door in time.

Arrest of C. L. Bunn. C. L. Bunn, who was arrested some time ago and indicted for conspiracy to defraud, was yesterday arrested and taken in charge by federal authorities for fraudulent use of the mails. The Marion county grand jury will waive in favor of the government its right to try Bunn. Bunn is supposed to have been implicated with three other men in Louisville. They assumed the names of responsible firms, securing consignments of cheese, which were then reshipped and sold for a small part of the value.

Two Petitions Filed. The following petitions in bankruptcy were filed in the Federal Court yesterday: Howard A. Cann, salesman, Clinton; liabilities, \$1,108; assets, \$390.

These matters can be remedied and the moral condition and comfort of the girls be largely bettered by providing a separate institution for the girls and separate one for the women, so that they may be entirely separated and have no communication. The two institutions ought not to be under the same superintendent, and we therefore recommend that a site be purchased for the present board of institutions and appropriate and suitable buildings erected, and that such legislation be heretofore enacted as will provide a separate superintendent and corps of officers and teachers for each institution.

The term of office of one of the managers has already expired and a successor may be appointed at once. Our judgment is that the present board of managers has instituted a better order of affairs and that the matter of changes should be left with the Governor for the present.

The Marion Club election Tuesday resulted as expected. The two institutions ought not to be under the same superintendent, and we therefore recommend that a site be purchased for the present board of institutions and appropriate and suitable buildings erected, and that such legislation be heretofore enacted as will provide a separate superintendent and corps of officers and teachers for each institution.
