MONON AND LAKE ERIE

THEY MADE LARGE ADVANCES ON YESTERDAY'S TRADING.

Anthracite Coals Also Were Notably Strong—Bad Weather Operates as a Check to Local Trade.

At New York yesterday money on call was steady at 2 1/2 per cent.

Prime mercantile paper, 2 1/4 to 2 1/2 per cent. Sterling exchange was firm, with actual business in bankers' bills at 15 1/2 for demand and 14 1/2 for sixty days; posted rates, 14.80 for 60 days; commercial bills, 14.80 for 60 days.

Silver certificates were 61 1/2 for bar silver, 61 1/2 for Mexican ounces, 61 bar silver closed at 23 1/2 an ounce in London.

There was more activity and variety in the last half hour of yesterday's stock market than during any other period of the session. A buoyant rise in the Erie stocks, led by the second preferred and followed by the other coals, caused a covering movement among the shorts all around the room and a smart rise in prices. The bears rallied their forces and raised stocks here and there sufficiently to check the advance and unsettle the close. The advance in Erie seconds was 1/2, and the other coals rose between one and two points. The St. Paul dividend increase seemed to fall flat on the market. The expectation of an afternoon action had held the market in check all through the day. The stock was run up 2 points during the morning, but when the increase in the dividend was announced selling to realize spread out all but a small fraction of the rise. It looked as though the heaviness in St. Paul would carry down the whole market, but at one time the Erie stiffened the tone. For the rest the market was rather dull and narrower than of late. It continued to be characterized by the movement of specialties to a large extent. The Southwestern railroad stocks continued to advance, and in some general ground of the prosperity of that region of the country and the expectation of a coming amalgamation of the Erie and railroad properties there. The Washburn securities came to the front in the movement and were bought on a very large scale. Several of the subsidiary Vanderbilt lines were included in this movement. Chicago, Indianapolis and Louisville and New York, Chicago & St. Louis first preferred moved up 3 points and other stocks of these companies and Canada Southern between 1 and 2 points. Lake Erie & Western, after an early advance of a point, broke 2 and closed unchanged. The Minneapolis & St. Louis stocks rose 3 for the common and 2 1/2 for the preferred. The Erie stocks rose 1 1/2. There was large realizing going on under cover of the points of strength, and many stocks which advanced recently were profit taking during the course of the day. Amalgamated Copper advanced 1 1/2 and turned very strong, closing with a net gain of 1 1/2. Continental Tobacco preferred rose 1/2. The continued ease in the call money rate and the apprehension on the score of money rates, led to-day's large dividend disbursements, including \$20,000,000 by the Standard Oil Company, to a corresponding advance in the money market of to-day to replenish the market.

Business in railroad bonds continued very large, but profit taking in the speculative issues caused some irregularity in the movement. Total sales at par value were \$3,000,000. United States refunding two, the three and new four advanced 1/2 per cent. on the last call.

Following are the day's share sales and the closing bid prices:

LONGS AFTER PROFITS

REALIZING SALES CAUSED A DEPRESSION IN THE CEREALS.

Declines Range from a Shade to an Eighth—Provisions Also Lower by Five to Twenty Cents.

CHICAGO, March 14.—A profit-realizing movement on 'Change to-day effected a depression in both grain and provisions, prevailing against bullish conditions which were the cause of considerable strength early. Wheat closed 1/2 lower, and corn and oats each a shade and provisions 5/8 to 2/8 depressed.

Strength and bullish activity, together with the punishment of shorts in wheat, came at the opening as a result of an advance at Liverpool and the lightness of Northwest receipts, and partly to a decline in the price of flour, which was higher at 7 1/2. Outside interests and the silent speculators who work through brokers in the majority of cases supported the market, while the crowd, which was long, sold liberally to secure profits. The demand was heavy, however, and during most of the forenoon the market fluctuated between 7 1/2 and 7 3/4. Good cash demand and liberal clearances at the seaboard were supporting influences, following the opening. During the afternoon the corn break brought additional selling pressure on the market and May was forced down to 7 1/2. The close was heavy, 1/2 lower, at 7 1/2.

Local cash sales were reported at 7 1/2. The market was quiet, with a few receipts being 16-18, compared with 16-18. Receipts remained favorable, but were reported 27 cars, against 41 last week and 50 1/2 a year. Local receipts were 33 cars, with 100,000 bushels of wheat, 100,000 bushels of corn, and 100,000 bushels of oats.

Corn was very strong at the opening and continued so for an hour and a half. May was higher at 4 1/2 and 4 1/4, and a heavy general demand ran up to 4 1/2. This advance, coming on top of yesterday's decline, was due to a heavy demand for the market, which was quiet and closed easy. Prices declined to 4 1/4 and closed easy, a shade lower at 4 1/4. Receipts were 263 cars, of 50,000 bushels of wheat, 100,000 bushels of corn, and 100,000 bushels of oats.

The oats market was a narrow one. It showed sympathy with corn and later receded to 2 1/2. Receipts were 123 cars, of 100,000 bushels of wheat, 100,000 bushels of corn, and 100,000 bushels of oats.

Provisions were 5/8 to 2/8 depressed. The market was quiet, with a few receipts being 16-18, compared with 16-18. Receipts remained favorable, but were reported 27 cars, against 41 last week and 50 1/2 a year. Local receipts were 33 cars, with 100,000 bushels of wheat, 100,000 bushels of corn, and 100,000 bushels of oats.

LIVE STOCK QUOTATIONS

CATTLE WERE FAIRLY ACTIVE AT QUOTABLE STEADY PRICES.

Hogs in Moderate Demand and Slightly Higher—Sheep Steady—Condition of Markets Elsewhere.

UNION STOCKYARDS, INDIANAPOLIS, March 14.—Cattle—Receipts, 200, shipments small. There was an average Thursday turn of cattle, and the usual varieties were represented, but no prime steers were in the arrivals. The market opened with the demand steady, especially for extra heavy cuts, with rather active competition the supply of fat stock was exhausted in good season at steady prices. Steers were principally in odd bunches, including 1,700-lb. kinds that sold at \$4.15, and loads averaging 1,000 to 1,200 lbs. sold at \$3.85. Heifers sold as high as \$4.30, and cows as high as \$4.15. Quotations:

Good to prime steers, 1,200 lbs and up, 4.50-5.00. Fair to medium steers, 1,200 lbs and up, 4.00-4.50. Good to choice heifers, 1,200 lbs and up, 4.00-4.50.
