FIRM TONE, HOWEVER, STILL PRE-VAILS IN THE MARKET.

mous Volume-Money Market Conditions-Local Trade Situation.

At New York, yesterday, money on call was steady at 364 per cent.; last loan, 4; ruling rate, 31/2.

Prime mercantlle paper, 4@41/2 per cent. Sterling exchange was firm, with actual business in bankers' bills at \$4.88%@4.8814 for demand and \$4.85@4.85% for sixty days; posted rates, \$4.85\@4.86 and \$4.89; commercial bills, \$4.84% @4.84%.

Silver certificates were 60c; bar silver, 601%c; Mexican dollars, 481/2c Silver bars at London closed at 27%d an ounce.

Friday's stock market was decidedly more quiet and orderly than on any other day during the week. There were a few stocks New York Air-brake which showed positive strength practically North American without interruption all day, and there were no points of acute weakness nor any period of a general disposition to sell except for the opening dip in Amalgamated Copper and American Smelting, due to the legal measures taken to frustrate the absorption of other properties contemplated by those companies. Owing to to-day's Republic Iron and Steel pref..... holiday on account of the removal of the Standard Rope and Twine board room apparatus from the present building to the temporary quarters in the Produce Exchange there was a disposition to curtail speculative ventures and to close | United States Leather up accounts. From the firm tendency of the market it looked as though the bears were | United States Rubber most inclined to cover their contracts. The United States Rubber pref bulls were not aggressive, but their tactics seemed designed rather to protect the market and hold prices firm. There was some confusion about the board room owing to the preparations for the moving, and Accounts of Banks, Bankers, this in itself had the effect of lessening the trading. The principal strength in the market persisted in about the same quarters as for some time past, namely, the grangers and Pacifics. Northern Pacific U. S. threes, coup was largely dealt in and rose 34; Burlington advanced 214 to a record price; Rock U. S. new fours, reg Island rose 2% and Northwestern 4%. U. S. old fours, reg Pennsylvania, selling ex. rights, and Baltimore & Ohio continued strong. Union Pacific was not as active as on previous days of the week, and there was large realizing going on in it all day, but the stock was held above Thursday night during the greater part of the day, although it closed a shade off. Among the specialties Sugar rose 3%. Tobacco 2%, Colorado Fuel 3%. General Electric 3%. New York Air Brake 10 points and a number of other specialties from 1 to 2 points. The Colorado Southof 214 to 314. The confidence that to-day's the depression which ruled in the bank statement will make a strong showing had much to do with sustaining the market. The receipts of cash from the inabsorption by the subtreasury, including and the payments for the gold exported, so that it is expected the banks will not lose more than \$500,000 for the week on all accounts. Next week the money market will have the

benefit of the payment of the May government interest, which amounts to about \$2,-The railroad bond market continued strong, with the Union Pacific convertible bonds still very prominent. Total sales at par value were \$6,740,000. United States refunding twos advanced ¼ on the last call. Sales on the New York Stock Exchange for the five days this week during which the exchange was open for business aggregate 9,960,960 shares, compared with last week's sales of 10,016,400 shares, which broke all previous records for a full week's business. On Monday of this week the sales of shares, exceeding by several hundred thousand shares the previous record for one day's business. On Tuesday there were passed through the New York clearing house checks representing exchanges of \$546,937,155, which is more than \$106,000,000 greater than any previous day's clearings. The statement of these facts gives most competent showing of the unparalleled pro- 3 white mixed, 2; No. 2 yellow, 1; No. 3 yellow, ortions of the present speculation in Amer- 2; No. 2 mixed, 5; No. 3 mixed, 5; total, 45 cars. ompetent showing of the unparalleled pro- | 3 can securities, but it conveys only a slight | Oats: Rejected mixed, 1 car. Hay: No. 1 timidea of the state of feverish excitement othy, I car. among speculators and the overstrained condition among hosts of people whose duty it is to transact, record and adjust all this vast volume of business. The speculation has been decidedly nervous at times, wing to the sharp breaks in prices of some of the most active stocks. The failure of the general market on Wednesday to respond to the phenomenal strength and continued demand for Union Pacific especially caused uneasiness and a dread lest the powerful pools of millionaires, who have been credited with the leadership of the bull market, had been selling their holdings under cover of the movement in Union Pacific to take their profits, but the buying on recessions was so constantly renewed and the market's absorptive power proved so enormous and so confident that the desire to sell was checked and prices lemand helped prices on the rebound.

surplus. There was, in fact, some calling of loans by the banks early in the week, which was offset by large offerings on account of interior banking institutions. These offerings might either be the cause or the effect of the calling of loans by New York banks. The higher money rate is the attraction for interior banks to lend money on the Stock Exchange, but they draw on their New York deposits for the funds. The loans thus placed may be redeposited in a New York bank, but the effect is to necessitate a shifting of loans, which has a dis-turbing effect. The falling off in the offerings of bonds for redemption at the subtreasury and in the payments by that institution on account of pensions resulted in renewed absorption by it of money from the market and was an additional factor in the disposition of caution. The call money rate eased off in the course of the week, lowever, and quieted any apprehension on

The demand for railroad bonds has been most marked in securities of the same companies whose stocks have been prominent in the dealings, notably Union Pacific low last week's closing price.

GENERAL TRADE IS GOOD,

But Bad Weather Operates as a Check

in Sorre Sections. NEW YORK, April 26.-Bradstreet's, tomorrow, will say: While adversely affected | Porkby unfavorable weather conditions, general trade manifests a strong underlying tone which, seemingly, lacks only the advent of better weather to become buoyant. Cold weather undoubtedly has affected planting and germinating in some sections, but the orders. The backward spring has worked to the disadvantage of dry goods, but the trade is looking up somewhat, with the promise of improved weather conditions. Heavy clearings continue to reflect large speculative movement. Rallway gross earnings continue to show substantial gains, the current receipts of the Southwestern lines being the best in their history, and Western and Southern roads are doing almost as well. The general price situation is

one of firmness, most commodities being unchanged, though there are a few increases noticed, particularly in coffee, flour, wheat, corn, oats, lard and tin, while butter, cheese, petroleum and odd sizes of cloths show declines. Speculation in wheat, this week, was active, and the price movement was upward. A stiffening of prices is noted in lumber, with a demand fully up to the supply. From logging camps are taxed to supply orders. The market in cotton has been of a narrow and irregular character, and the general disposition seems to be a waiting one. Receipts continue in goodly proportion, while weather conditions have recently imfeatures of change. Buyers show a disposition to wait until new wools come in Leather shows more activity on well-sus-

last week and 3,683,863 in the corresponding 73%c, closed at 79%c; September, 77%@78%c, week of 1900. Dun & Co.'s Review of Trade, in sumthe floods in many directions which have ! interferred with railroad operations and laterrupted the distribution of merchandise and the weather all over the East has been adverse to an increase of retail trade, Bank clearings, however, show that, while speculation has been heavy, there must have been a well-sustained volume of legiper cent. over 1900, and 84.0 per cent over 1899 at this city. Railroad earnings make similar encouraging gains. Reports from ditions throughout Missouri, Kansas and Much unfavorable comment has appeared regarding the advance in steel rails to \$28 recent increases in prices of pig iron and billets. Nominal quotations for many prodregarded in contracts calling for early delivery, and list prices are generally moving with other products of this industry. Aside from this one operation, there is no new development. Pig iron is more quiet, with little taken for delivery beyond July

largely expanded. Failures for the week numbered 215 in and 25 in Canada, against 22 last year. Building Permits.

Brown, repairs, 161 Leota street; cost. Mayflower Congregational brick church, southwest corner of Delaware and Sixtenth streets; Carrie M. Hunt, 1538 Lexington avenue, woodshed: cost, \$10. C. T. Whitsett, building addition, 531 North Meridian street; cost, \$6,500, E. A. Cooper, brick flat, 627 North Pennsyl-N. L. Parker, addition to frame house, West Morris street; cost, \$300. L. E. GOOD TRADE IN CEREALS

ADVANCES STRONGLY, HELPED BY FOREIGN BUYING.

Gains, the July Options Leading -Provisions Are Easier.

CHICAGO, April 26.-To-day's grain mar-

kets were moderately active and firm, wheat closing %c, corn %c to %@%c and oats %c higher. Provisions closed easier. May wheat opened %c to %c higher, at 73 @73%c, under a rush of buying orders occasioned by a sharp advance at Liverpool and the good cash business done yesterday. Trade for an hour was well distributed, and prices changed but little. Later the liberality of receipts and slackness of the cash demand created weakness, which was intensified by the unloading of a long line of half a million. May in this wise was forced back to 72%c. Buyers, influenced somewhat by rumors of sales taken by German interests, regained confidence later, and the market reacted, closing firm, with May %e higher, at 73c. Exporters reported 19 loads taken. Seaboard clearances in wheat and flour were equal to 165,000 bu; with 246,000 last year. Minneapolis and Duluth reported 229 cars, against 275 last week and 207 a year ago. Local receipts were 36 cars, none of contract grade. Argentine shipments, according to Board of Trade Corn started without any abatement of

information, were 1,352,000 bu. previous excitement, with buyers and sel!ers for May delivery simultaneously trading, from 48c to 481/2c. These figures covered practically the day's range of this is offered for twelve months' Texas. option, although a moment after the openhigher cables, however, held prices steady. The buil leader was not active in May, but devoted considerable attention to July. OIL CITY, Pa., April 26.—Credit balances, which seems to be working toward the \$1.17; certificates, no bid. Shipments, 106,285 bris; 50,315,936 Inc., 25.8 tween 45%c and 45c, its highest price so far, 27,957,641 Inc., 7.9 and closed %@1/2c over yesterday, at 45%@ WILMINGTON, April 26.—Spirits of turpentine,

The demand for oats was active, owing to a good demand for shipments and to widespread reports of delayed seeding. May sold between 26%c and 26%c, closing %c higher, at 26%c. The demand for July was even better than that for May, at a discount of %c. Receipts were 214 cars. Provisions were dull and a shade easier cn liberal hog receipts. July pork closed 21/2c lower, at \$14.55; July lard a shade down. at \$8.05@8.071/2, and July ribs with a like decline, at \$7.971/2. Estimated receipts for to-morrow: Wheat, \$0 cars; corn, 155 cars; oats, 235 cars; hogs,

Leading futures ranged as follows: Articles. Open- High-- ing. est -- 73 -73¼ 73¾ -- 73½-73¾ 73¾ Wheat-May ... April ... July .. 45%-45% \$14.40 May .. 8.20 7.97% Sept .. 7.9252

LOCAL GRAIN AND PRODUCE.

Trade Fairly Active and Prices Hold-While not specially lively, business on the ern stocks were notably strong at advances | full feeling was manifest everywhere. Despite terior have offset to a large extent the only a question of a few days when fair weather would set matters moving. Though the backwardness of the season interfered largely with the spring trade, there are indications that the summer trade will be more than usually active and the harvest of profit, though delayed, is sure to be reaped in satisfactory measure. Country produce is in good supply and moves freely, and he same may be said of fruits and vegetables. There is nothing new in the grain trade, exadvance of le and 'ac, respectively; but the solume of business continues so small, owing to iness or export orders it is not unreasonlimited receipts, that neither rise nor fall cuts able to make prices for rails on a parity much of a figure. The prices furnished by the secretary of the Board of Trade follow: Wheat-No. 2 red, 74c; No. 2 red, on milling freight, 74c; No. 3 red, 70@72c; wagon wheat, 74c.
