FOR BENEFIT OF ORPHANS ANNUAL PICNIC AT GERMAN EVANGELICAL LUTHERAN HOME.

The Attendance Was Large, Numbering About Three Thousand—Reports of Officials.

The annual picnic for the benefit of the German Evangelical Lutheran Orphans' Home, located at 230 East Washington street, was held yesterday on the institution lawn.

The services consisted of the reading of the annual reports of Rev. E. Senel, president, and the other officers, and sermons by the Rev. G. A. Fisher, of Columbus, Ind., in the forenoon, and by the Rev. J. W. Miller, of Fort Wayne, in the afternoon.

At the gate two men sat on stools, holding small sacks, into which most of those entering the grounds dropped silver pieces for the benefit of the home.

The address of the president dealt mainly with the work of the picnic and included commendation of the efforts of the other officers and attendants.

The subscriptions during the year, according to Treasurer W. F. Del, were: Contributions and collections, \$24,975; total last year, \$1,623; bequest by Frederick Ostermeyer, \$200.

THOUSANDS OF VISITORS IT IS ESTIMATED THAT SIX THOUSAND STRANGERS WERE HERE. Enormous Crowds at Broad Ripple and Other Parks—A Fine Day's Outing.

The city was full of excursionists yesterday from different parts of the State. It was estimated at the Union Station that the different railroads running into the city brought to town in the neighborhood of six thousand people.

Of the crowds which came to the city the L. & V. division of the Pennsylvania brought about five hundred people from Vincennes and intermediate points. The Louisville division of the Pennsylvania brought in the neighborhood of eight hundred people to the city, and the E. & W. brought 1,700 from Fort Wayne, Michigan City and other points.

CROWDS AT THE PARKS. In the streets the wheelmen were out in considerable numbers, and the automobile was much in evidence. The street-railway company found itself very busy getting people to the parks and into the city again.

At Broad Ripple Park the crowd was larger than on last Sunday, and were variously estimated at from 4,000 to 5,000. Some of the cars running to both Fairview and Broad Ripple were literally packed.

At Broad Ripple there were three attractions to amuse the children—diving horses, Lionel Legare and the dog show. Legare, the high spiral tower equilibrist, took a large globe to the top of a forty-foot tower and descends on it, besides performing feats of juggling and balancing.

At Fairview Park all of this week performances will be given at 3:30 in the afternoon and 7:30 in the evening. At Broad Ripple the crowd yesterday afternoon John Morand made a trial trip of his new double-keel steam launch, the "Sunshine."

All of the city parks, including Garfield and the new one, also well attended. The parks are especially beautiful just at this time, when the foliage is green and the flowers are in full bloom.

BLESSINGS IN TRUSTS. REV. R. H. MOORE BELIEVES THERE ARE SOME TO BE FOUND.

He Says that All Social Evils Are the Result of Bad Industrial Conditions.

The Rev. R. H. Moore, pastor of the Madison-avenue M. E. Church, delivered a discourse last night on "The Gospel Remedy for the Social Evil." The text was "Whosoever will be great among you, let him be your minister, and whosoever will be chief among you, let him be your servant."

Mr. Moore said in part: "From the text we gather that there had been a dispute among the disciples of Christ about leadership among them. They were all under the impression that Christ intended to establish an earthly kingdom, and each was ambitious to hold the chief place of honor among his fellows."

WHY SOCIAL EVILS EXIST. "The social evils of which we are all cognizant exist because society has not the true conception of leadership. The evil in society is not that it is organized—it is inevitable that big combinations should be formed. I believe to the aggregation of money, to the trusts, we are indebted for many of our chief blessings."

MEN MAY STRIKE TO-DAY TROUBLE AT THE STANDARD WHEEL COMPANY PLANT.

If the Owners Do Not Make Concessions To-Day a Strike Will Be Ordered—Labor Day Committee.

The discharge of fourteen men employed by the Standard Wheel Company Saturday, upon short notice, has plunged the labor organizations of the city into a fever of excitement, and State Labor Commissioner McCormack and the executive committee of Central Labor Union will call upon the firm this morning and ask for the reinstatement of the men. If they are not reinstated it is a general strike will be ordered at the plant. A union was organized at the factory last Tuesday under the Carriage and Wagon Makers' Union of America, and it is charged by the labor men that the employees were discharged for joining the union. Some of the men discharged have been employed by the firm for twenty-five years. The reorganization of the union was brought about by boys being employed to take the places of men.

The reason the firm gave for discharging the men was that they wanted to reduce the force on account of slack work. About 2 o'clock Saturday afternoon the officials of the company paid off the men, even to the hour, without any notice, and said they would no longer be needed. The men say they have been working eleven hours a day for three months, and that the work on hand for this week would have been completed by Saturday. Heretofore it has been the custom to shorten the hours instead of laying off men, and the men say that when the work was organized twenty-eight men joined, twelve were taken in during the week, and twenty were taken in yesterday. Two meetings were held yesterday with the executive committee of Central Labor Union, Labor Union Hall, and the proposed action of to-day was decided upon.

The men say that an employe of the firm, William Murray, is now soliciting boys and men to work. They take as evidence that the old employes were not discharged in good faith and that the company is not desirous of laying off men because of slack work. Besides the sixty-five men now in the union there are 140 skilled workmen employed at the plant. Should the men be reinstated, the organization committee and organizers of Central Labor Union will have several years to organize the Standard Wheel Company, and this is the best effort that has been made. The firm was placed on the unfair list by the central body for its attitude towards organized labor and all the labor unions of the city.

Organizer J. B. Blue yesterday had a talk with Superintendent Bosler, of the plant, but he was not in a position to make any statement. Mr. Bosler is the principal owner of the factory, lives in Terre Haute, and was not in the city yesterday to meet the labor leaders.
