THEY THAT RENTED HORSES.

Creditors of L. A. Nageleisen Fear
They Will Lose.

The bankruptcy petition filed in the
office of the United States clerk a few
days ago by Lawrence A. Nageleisen
proved to have an interesting connection
with the National Guard camp of instruc-
tion held at the fair grounds last week.
Nageleisen and his brother, the latter a
resident of Plaqu, O., have been conduct-
ing a lively battle at 222 East Wabash
street.
When Quartermaster General Foster was
casting about for some one to supply
enough horses to equip the hundred or
more officers of the National Guard dur-
ing the week of the camp, Lawrence A.
Nageleisen submitted a proposition that
he would furnish the horses, and a con-
tract was entered into whereby Nageleisen
was to furnish all the horses used in
the camp. In order to get together
enough animals Mr. Nageleisen was obliged
to visit citizens from Indianapolis and
residents of the surrounding coun-
ty.
Since the camp ended some of the peo-
ple who rented their animals to Nageleisen
have learned of the bankruptcy petition,
and they fear that they will not get the
amount of money agreed upon as a rental
for their horses. Several cases of un-
paid rental have been reported. One of
these is the case of Lew Brennan, a hackman
who stands on North Illinois street, near
Washington. Brennan found that his cab
needed painting about the time the camp
was in session, and he was approached
by Nageleisen with an offer for himself
and team for the week, concluded it would
be to put his horse in the hands of the
paint shop and pass the week in camp.
Nageleisen, in great distress, thinking
that he will be left to hold the horse.
A staff officer said last night that he
did not know the man who had rented the
horses to Nageleisen would lose through
the bankruptcy proceedings. In all prob-
ability the staff officer will pay the money
into court, with a statement of the situation,
and ask the court to order Nageleisen to
pay the money to the persons who rented
their horses for use in the camp.
Comparable complaint is being made
about the alleged loose methods that pre-
valued at the barracks during the week of
the camp. It is stated that Nageleisen
provided his horses with new halters assert-
ing that somebody transferred the halters to
other animals. In the meantime Nageleisen
on one rope. At least one staff officer has
filed a complaint against Nageleisen on
account of the loss of a fine new halter.
Other complaints of the same kind are
expected to be filed.

FAST RAILROAD TRAINS.

Speed Comparisons Between Euro-
pean and American Trains.
New York Journal of Commerce.
Thirteen years ago the rivalry of the
east and west shore lines between London
and Edinburgh, established new records in
long distance railroad runs, which was
surpassed by the Empire State express
between New York and Buffalo, and by the
London and Edinburgh in 1900 and a new re-
cord in long distance railroad runs, which
was afterwards taken off the time of the
Empire State express. There is now a
race of speed racing between London
and Edinburgh, due to the effort of the
Midland road to regain its lost popularity
with the London and Edinburgh.
In 1888 the run from London to Edin-
burgh was made in a little over a half hour,
and was claimed to be the fastest long-
distance run in the world. In 1900 the
run from London to Edinburgh was made
in 47 minutes and 45 seconds, and the
run from London to Edinburgh was made
in 47 minutes and 45 seconds. The runs to
London and Edinburgh were made in 47
minutes and 45 seconds, and the runs to
London and Edinburgh were made in 47
minutes and 45 seconds.
Three years ago the London Times's
special commissioner made the run from
London to Edinburgh in 47 minutes, which
was compared with the run from London
to Edinburgh in 47 minutes, which was
only a minute and a half less than the
run from London to Edinburgh, 47 miles,
and the west coast route, 47 miles.
The run from London to Edinburgh was
made in 47 minutes and 45 seconds. He
returned by the Black Diamond express,
which is a little longer and with more
stops. A handsome allowance for the
extra time was made in fact over two
hours. The London Times's commissioner
said that the fastest regular train
between London and Edinburgh in 1900
was much shorter than those of the Scotch
expresses or the distance between this city
and Buffalo.
The east and west coast lines have been
dispatching trains from London at 10
clock which reach Edinburgh at 8:15.
The Midland put on a train to leave half
an hour earlier and reach its destination
ten minutes earlier. The running time
therefore, was 47 minutes and 15 seconds
for a distance of 47 miles less than the
distance from here to Buffalo, which is
47 miles. The London Times's commissioner
