WALKER-STUBBINS. A beautiful wedding was celebrated at the Meridian-street Church yesterday afternoon, when Miss Cora Stubbins, daughter of Mr. and Mrs. A. A. Stubbins, was married to Layton Chambers Walker, son of Col. and Mrs. I. N. Walker. The church, which was decorated with green plants and palms, was filled with friends and relatives. The chancel was set with tall palms, and pink roses marked the pews for the families. Charles F. Hansen presided at the organ and played the wedding march from "Lohengrin" as the bridal party entered. The bride entered the church on the arm of her father, and was attended by Miss Percy Walker as maid of honor and Miss Lucy Matter, of Marion, and Miss daughter, Miss Carol L., and Mr. Edwin Susan Thompson, of this city, as brides. Williams, both of Marion, were married maids. The best man was Harry Ham-Dr. Albert E. Sterne and Blake Stone ushered. The bride was met at the Goshen in the presence of about seventy altar by Mr. Walker, and the ritual of the Methodist Church was read, the Rev. Joshua Stansfield, pastor of the church, officiating. The bride's gown was an exquisite robe of Cluny lace, made over chiffon and taffeta to harmonize. podice had the yoke outlined with lace butterflies and was embellished with medallions of turquoise and brilliants, set to Marion the latter part of this week to with embroidered chiffon roses of tur- reside quoise blue. Her picture hat was of the same shade of chiffon, with long tips to match, and a touch of blue on the bandau and crown. A shower bouquet of Bride roses added the finishing note to her costume. Miss Walker's gown was of plaited white silk mull, fashioned with plaited panels set with lace. She wore a picture hat of white chiffon and carried white roses. The two maids were in pink. Their gowns were alike dainty creations of lace and pink silk mull. Their big picture hats were of pink chiffon trimmed with clusters of pink June roses. Each carried a bouquet of Bride roses. After the ceremony at the church a wedding breakfast was served at the family apartments at the Meridian. Here ferns and palms were used in the decorations, combined with quantities of pink roses, all of which carried out the plan of a pink June rose wedding. Assisting Mr. and Mrs. Stubbins were Col. and Mrs. I. N. Walker, Mr. and Mrs. William Eckert Sharpe, Mr. and Mrs. William Smock Allen, Mr. and Mrs. Ross Hamilton Wallace. KIPP-STROTHER. One of the prettiest of the June weddings was that which was celebrated last night in the Central-avenue Church. The bride was Miss Vivian Olga Strother and the groom Alfred Ristine Kipp, formerly of friends of the bride and groom. Green palms, which set off to advantage the white gowns of the bride and her maids, filled the chancel. Throughout white and green were used in all the nuptial appointments. Miss Catherine Strother, of Louisville, a cousin of the bride, sang the wedding march from "Lohengrin" for the entrance of the bridal party. The ushers, two abreast, entered first-Shelby Strother and Eugene Strother, of Louisville; Mr. Gaspar, of Fond du Lac; Robert Warren, of Terre Haute, and Cleo Hunt and William Hall, of this city. Folall of whom except the maid of honor wore rying a shower of white sweet peas, came first. Following was Miss Mabel Bryce, of Columbus, O., who wore a white silk mull gown over green taffeta. Miss Carrie Graham, of Chattanooga, and Miss Minnetta gowned alike in green slik mull. Each maid carried white sweet pea blossoms. The maid of honor. Miss Gladys Wynn, came in alone. Miss Wynn was gowned in a lace striped taffeta robe over green silk, with the bodice cut low. She carried a shower of delicate maiden hair fern. The ring bearer, Master Dudley Britney, preceded the man, with the minister, Rev. Mr. Kellogg. and the Rev. J. Pierce Strother, of Wil-Hamsport, Ky., met the party at the altar. The full Episcopal ceremony was used, and during the service Mrs. Barry, at the orleria Rusticana" and "Oh, Thou Sublime, Sweet Evening Star." Mendelssohn's march was played as the party left the church. After the ceremony a reception for the relatives and the bridal party was held at the home of Mr. and Mrs. Strother on Park avenue. Assisting in the hospitalities here were Mrs. J. Richard Francis, Mr. and Mrs. Hugh Richards, Miss Sally Hall, Miss Van Winkle, Miss Mabel Norris, Miss Anna Lena Byrd. Mr. and Mrs. Kipp left last live. Mrs. Kipp's going away gown was a

#### The Cape Collar. New York Evening Sun.

Gowns of every description are so elaborate that detailed description is almost impossible and yet they suggest many pretty ideas for the simpler frocks. One item of dress which can be relied on for the season is the cape collar, so commonly used on all kinds of both simple and elegant

The only difference is in the elegance of the collar. The style is almost universal for any sort of bodice or blouse, even the simplest blouse for morning wear. The latest reports from Paris confirm this statement, so you can go in for the deep collars with perfect assurance that are getting the fashionable thing. The shoulder seams are lengthening accordingly and anything which can give the appearance of breadth is in order. This fact in Itself indicates the return of shoulder capes for street wear and a few are already in sight.

The court appointing the liquidator invested him 'with the broadest powers, especially to grant or contribute to any new company all or part

of the corporate assets.' "Under the concession from the government of Colombia the old company, be cause of its insolvency and inability to complete the canal, was sure to forfeit valuable concessions. Substantially all of the building materials, works, improvements, and other assets of the canal company would be forfeited and lost, unless some arrangement could be made with a new company to take up and prosecute the unfinished work. "The liquidator secured an extension of its contract with the Colombian government in 1890 for a period of ten years.

OBLIGATIONS FULFILLED. "It was provided in the original extension that the concessionary should transfer the plant of the company in liquidation to a new company, which should undertake to complete the canal. It was further provided that the new company should be organized with sufficient capital for the purpose and should resume the work not later than Feb. 28, 1893. This condition not having gradually liquidated out of the income of been fulfilled, a further extension was secured until Oct. 31, 1894,

by the new company. "Before the new company was organized the Parliament of France passed a special act to control the closing up of the affairs of the old company. The act was passed July 1, 1893. It specially provided that the transfer or contribution of the corporate assets by the liquidator should be subject to confirmation in open court.

"A new company was organized in 1894 and the assets of the old company were duly transferred to it by the liquidator. Opportunity was given the intervenors to interpose objections, objections were made and overruled, and the decree of the court ratifying the action of the liquidator was made final. sale should such sale be effected. "After due consideration the court, Aug. 2, 1901, decreed that the liquidator might enter into a contract with the new company as desired. Acting under this specific authority, the liquidator on Dec. 4, 1901, entered into a contract with the new company whereby it was expressly agreed that 'the price and terms of sale should be left to the new company and that the division of the proceeds between that company and the receiver (liquidator) should be left to arbitrators named in the new contract." Thereupon the new company made its offer of sale to the United States. The proceedings are entirely regular, and will be recognized by the bar as in perfect harmony with the practice that maintains in the courts of the United States.

POWER TO SELL. "The power to sell is sanctioned in the most unequivocal terms. The only matters unsettled are distribution of the proceeds of sale between the liquidator and the new company, and after that is determined the distribution of the proceeds between the creditors of the old company for whose benefit the court administers the fund. But as to these matters we do not have the remotest possible concern. We will hold the property free of all French claims and the creditors will participate in the distribution | forcing the government to the alternative of the funds derived from the sale, agree-"It seems to me that the views of the minority with respect to the power of the new company to convey to the United States a good title are perfectly sound and consis-tent with the practice of the French and

American courts. "The position of the majority is certainly not well founded. It seems to me that they have taken an entirely erroneous view of the subject. Among other objections they urge with confidence is the following: 'Whatever peculiar decisions the French courts might make to throttle the bondholders and stockholders of the old company, as stated in the deposition of M. Lampre, even if those courts should hold \$165,000 a year which is used by these two that the rights of these 500,000 people are about the table as if looking for some- roads. When they appeal to our courts for their rights as against the United States as the holder of the property we have already declared, Kansas City to Newton, Kan., over the through the judgments of our Supreme court and of our state courts in many adjudged cases, that they could compel us to pay the bonds of the old company with 5 termined by the people, and we are left to per cent, interest from the date of issue and also the interest due on the stock subscriptions for at least ninety-nine years or else surrender the property to them or to the company, it not having any lawful authority to sell to the United States. There appears to be no possible escape from this dilemma through any legal proceeding."

"Upon what authority will dissatisfied bondholders and stockholders of the old company obtain admission to our courts after the French courts have duly adjudged their rights? 'We could not close the doors of our courts against such litigants,' say the majority. Why? Are the French courts powerless to pass final decrees and give litigants repose? Is it the rule of our courts to take jurisdiction of foreign liti- lows gants and their causes after they have proceeded to final decrees? "The question has been asked whether the

liquidator can enter into a contract with the new company for a sale to the United States which would radically change the contract of sale to the new company. "I am clearly of opinion that he can do so. He could not do so without the authority of the court having jurisdiction of the company. That court authorized the liquidator to make the contract with the new company, and by a proper decree or order it may authorize him to consent to a modification of the contract or to a sale of the property of the new company, if that deemed at all necessary, on the terms and in the manner now proposed. This is in accordance with universal practice. There is nothing novel or extraordinary about it; it is in consonance with the

CONCESSIONS FROM COLOMBIA. Under the concessions of the Colombian government to the French companies the new Panama Canal Company cannot sell to the United States without the consent of that government. Such consent has been obtained from that government, and it stands ready to grant the necessary concessions to the United States to enable it to construct and forever maintain and operate the canal. Our right to construct the canal will not be derived from the new | wife were guests. Elkin was easily the bigcanal company, but must come from a

"The Republic of Colombia will give to the United States all necessary jurisdiction over the canal and territory requisite for its construction and operation. The United States will pay to it a reasonable annual compensation, to be fixed by the two governments every hundred years, except the amount to be fixed for the first term at the end of fourteen years. The sum of \$7,000,000 shall be paid by the United States upon ratification of a treaty, but it is to be accounted for in subsequently fixing the anthe Republic of Colombia but is subject to the further action of the two governments. It is evidence of the disposition of the Republic of Columbia to grant to the United States necessary concessions, and I have no doubt that a fair treaty will be effected be-

tween the two governments. "The pending bill appropriates so much money as may be needed to secure control of the necessary territory belonging to Costa Rica and Nicaragua for canal purposes, and in addition the sum of \$10,-000,000 for carrying forward the work of construction. The Spooner amendment appropriates such sum as may be required to acquire the necessary rights from the Republic of Colombia (\$7,000,000 must be paid upon the ratification of the treaty), and also \$10,000,000 for forwarding construction, and in addition \$40,000,000 for the purchase of the property of the Panama Canal Com-These various sums, amounting to \$57,000,000, are to be paid from the funds now in the treasury.

"According to the commission, the cost of acquiring and constructing the Panama canal, not including the cost of obtaining new rights and concessions from the Republic of Colombia, will be \$184,222,358. The amount remaining to be expended upon the route after the appropriation of the \$57,000 -000 contemplated by the Spooner amendment will be, in round numbers, \$134,000,000. "Shall that sum be paid from the treasury from time to time as the work progresses, or shall its payment be made in whole or in part from the proceeds of bonds maturing in the future?

"I do not believe that the current receipts of the treasury should bear the entire burden of the cost of the canal. The canal is to be built not only for the present, but for future generations. If the canal shall yield in tolls upon the commerce of the world such sums as those who are competent to ated for the gradual retirement of the bonds issued for construction without becoming a burden upon the taxpayers of the

commerce of all nations when the work is completed. "May we not, in equity and good conscience, defer payment of a part of the cost of construction by an issue of low interest-bearing bonds from time to time, as may be necessary, and then pay the bonds as they shall mature, in whole or in part, from the tribute which will flow from the commerce of the world when the canal is completed?

"I would rather see the canal paid for out of the treasury as the work progresses and without issuing a solitary bond therefor, but there are so many urgent and proper drafts upon the treasury that I fear it could not be done without imposing an undue burden upon it. Our expanding commerce demands larger appropriations for the improvement and protection of rivers and harbors; our navy makes increasingly large drafts upon the revenues; the pension roll must be faithfully and punctually discharged-there can be no default in the payment of this sacred obligation of the country; the extension of the rural free delivery service is no longer an experiment-it has become an obvious and urgent necessity; the erection of public buildings is demanded in the prompt and proper discharge of the public business, and is necessary to avoid large expenditures in the way of rent for inadequate service.

"These and many other demands are pressing upon the current revenues of the government, and will continue to do so during the progress of the construction of the canal and thereafter. So that it is the part of conservatism that we should make ample provision for the prosecution of the great isthmian enterprise, which is to benefit the future as well as ourselves, without of increasing the tax rate or of abridging

the work to which I have alluded. "I do not believe in a policy of putting undue burdens upon posterity, but I believe that we may fairly provide that a just and equitable portion of the cost of the present work shall be paid in the futura "Provision may be made now for an adequate issue of bonds to prosecute this great national undertaking, or we may provide therefor in the future by appropriate legis-

"There are considerations, as the commission says, more important than revenue. It may be deemed wise, in the exercise of a broad policy, to reduce the tolls so that they will cover merely the cost of operation and maintenance. If this should be done the redemption of the bonds would be provided for from the general treasury as readily as payments could be made from that source during the progress of construc-

To those who know the honorable senator this statement was wholly unnecsary, for no one would impute to him the impeachment of the motives of those who might differ with him upon any question

before the Senate. "It is unnecessary, it seems to me, that the question of personal motive should be raised, for there certainly is no difference whatever among us with respect to the ultimate object to be attained.
