The New York Times regards the letter of the anti-imperialist committee as "the most important communication ever addressed to a President of the United States."

The Journal hopes that Representative Bartholdi's prediction of gains of Republican representatives and of a senator in Missouri is well founded, but it is a herculean task to beat a Nesbit election law which makes all the election officers the appointees of a Democratic commission in St. Louis.

The fact that the Republican convention in Wisconsin declared for nominating primaries for every elective office in the State, and made adherence to the proposition the test of party loyalty, is sure to direct more attention to that important proposition than has hitherto been given it.

THE LATER CITY OFFICIALS. The larger cities in Minnesota have had a primary election law three or four years. The Minneapolis Tribune, which was an early advocate of such elections, is not now so entirely confident that the best results can be derived from voting directly for candidates as it was before the experiment.

THE LATE JOHN W. MACKAY was generally understood to be a man of clean life and good morals, and it has not been anticipated that any "common law wive" would come forward to claim his estates, as has been the case with most of the California millionaires.
