HELD UP BY SIX MEN

DETAILS OF THE ROBBERY OF THE C., B. & Q. TRAIN IN ILLINOIS.

About \$2,000 Secured from the Express Safe, Which Was Dynamited by the Bandits.

ONE OF THE ROBBERS KILLED

SHOT BY THE EXPRESS MESSENGER AFTER CAR HAD BEEN LOOTED.

Story of the Engineer, Who Obeyed the Masked Men's Commands While Six Guns Were Trained on Him.

CHICAGO, Aug. 6 .- Details of the train robbery near Savannah, Ill., last night, show that it was one of the most daring "hold ups" of recent years. One of the robbers was killed. Following is the ofcial account of the robbery, issued by the | sisted in the murder. "Train No. 47 was held up last night about 11:30 at South Switch, Marcus, about ten miles north of Savannah, Ill. The switch was turned for passing track and the train cut off and taken to the north switch, where the safe in the express car was blown open with dynamite and contents taken, after which the engine was cut off by the robbers and started north. As the robbers left the express messenger fired at them. One robber was found dead about one mile north of Marcus and his body was given over to the coroner. At least six men were concerned in the robbery. So far as is known only \$2,000 in silver was secured. None of the crew was hurt and none of the passengers molested. The express end of the rifled car was badly dam- sentence of Capua to imprisonment at aged." Official announcement was made by the officials of both the Burlington road and the Adams Express Company that a purse of \$1,000 would be made up by the two companies and given to Express Mes-

senger Byl for his bravery. Dispatches from Mount Carroll, Ill., say the train was one of the finest in the world, consisting of eleven vestibule coaches. After the robbery a special train of citizens and several policemen at once proceeded to the scene, but as the track runs along the Mississippi river and the country is well adapted to a successful flight, the robbers easily escaped. The dead robber was a middle-aged man and well dressed. In his pocket was found an Iowa Central mileage credential from Grinnell to Gilman, Ia., issued in the name of Al Jacobs. Four explosions were required to complete the destruction of the safe, and the car | troops of the division.' was badly wrecked. The robbers were six in number, all masked. They evidently were railroad men, one being a good engineer. Messenger William Byl fired five Slouchiness, unsoldierly walk, bearing, shots at the robbers, but without avail, and an attempt was made to blow him out of superiors must receive the careful attenhis car. The bandits had arranged to ditch | tion of all officers. He also directs that the entire train of heavily-laden coaches, had not the signal to stop been heeded. Several passengers in the buffet car, including the porter, were held prisoners during the struggle to open the safe.

Guns Stared Him in the Face. LA CROSSE, Wis., Aug. 3 .- The Burlingten train which was held up near Savannah arrived here at 10 o'clock a m., and a twenty minutes' stop was made for breakfast. Engineer John E. Mooney, of Minneapolis,

told a vivid story of the hold-up. He said: "The robbers stopped the train by swinging a white light. As soon as it stopped two men jumped into the cab and covered us with revolvers. One of them told the fireman to cut off the engine. After this was done the man who was pointing a gun at my head told me to pull the engine up | Philippines. a ways, and I ran her up half a mile. A few feet from the train they told me to jump off and run, which I most assuredly did. They ran the engine up seven miles and left her dead." Mr. Mooney said he had been running on the Burlington for fifteen years, and this was his first experience and he sincerely topes it will be the last with robbers. Six guns staring one in the face is none too pleasant a sensation to experience. Mr. Mooney believes the robbers killed one of their own number, either purposely or acby the robebrs and the rest by the express 10,000 Jefferson County, lad holding a gun in his face the handkerchief which concealed his entire face except 12,000 Martin County, lud 41/28 | sandy complexion, was about five feet eight

COWES YACHT RACES.

Meteor III Defeated Sybareta and Cecily Won the Emperor's Cup.

COWES, Aug. 6 .- The weather was gloomy to-day for the royal yacht squadron's squadron. Emperor William's Meteor and Miles B. Kennedy's Sybareta sailed over the queen's course in a match race. The Meteor won. The chief race of the day was for the Emperor's cup, in which the Meteor was not entered. The contestants were Leander, Cetonia, Glory, Cecily, Brynhild, Navahoe, Lygia, Columbine, Fionia, Leander II, Fionia II, Clara, Palmosa Irex, Namara, Creole and Bona. The Emperor's cup is a massive piece of polished silver with three handles, inscribed, "Royal yacht squadron regatta, 1902." Emperor William personally supervised the execution of the design. The Cecily finished first and the Navahoe second, but after deducting time allowance the Irex was declared the winner, with the Cetonia second and the Fioma third.

AFRAID A REIGN OF TERROR WILL BE INAUGURATED.

General Gobin on Conditions at Shenandoah-Foreigners Said to Be Secretly Drilling.

WILKESBARRE, Pa., Aug. 6.-Daniel Sweeney, a watchman in the employ of the Delaware, Lackawanna & Western Company at their Bliss colliery, in Hanover township, was found dead in a field in Hanover township this morning. He quit work at midnight and was followed by a score of men. The men were making threats and Sweeney was afraid of them. He took refuge in a saloon and waited there for his home. This was the last seen of him of the course and a good whole sail south- alive. The supposition is that the men who followed him from the mine were lying in wait for him and when he approached the spot where they were hiding they assaulted him with pick handles and beat his brains out. The body lay in a pool John Jacob Astor. The \$1,000 Astor cup of blood. One of the arms was also broken, was won by F. F. Brewster's seventy-foot | apparently by a blow from a club. The murderers were determined to make sure of their work. The murdered man told the superintendent of the mine where he was empolved that several strikers had spoken to him last week and advised him that it did not look right to see him going to work and that if he was wise he would quit at once. Sweeney said he needed employment as his family was in The next another delegation of men met him on the way to work and told him if he did not quit work he would be sorry. Sweeney said these warnings worried him, but he resolved to continue at work. There is much indignation over the

cold-blooded murder, as the dead watchman was well liked. At strike headquarters in this city a statement was given out to the effect that an investigation had been made of the killing of Watchman Sweeney at the Bliss mine, but there was no evidence to show that strikers had committed the crime. It is said the dead watchman, who was at one time foreman of a mine at Nanticoke, had discharged some employes, who made threats at that time that they would get even with him. The strike leaders think revenge upon the part of the discharged employes led to the murder. The local coal operators say they now fear a reign of terror will spread over the coal region and that the State militia will be kept busy in many parts of the strike territory.

Michael Yisko, John Smith and Ignaz Shukie, all foreigners, who were last seen in Sweeney's company, were arrested tonight charged with being implicated in the murder. They were given a hearing before Magistrate Khiski, of Manover township, after which the prisoners were brought to Wilkesbarre and lodged in the

Have Reached Him.

SHENANDOAH, Pa., Aug. 6.-General Gobin, in speaking of the conditions in this region, said to-day that Shenandoah for a town of its size is more thickly populated than the worst tenement district in New York. He thought the sanitary conditions in the foreign quarters of the place were extremely bad because of the lack of sewerage. In reply to a query, he said he had been advised that foreigners in this vicinity were being drilled, but he would not say whether the information he had received was correct. He believed, however, there are many smart men among the foreigners here who have been officers in European armies and have taken refuge in this country. A large percentage of the foreigners, he added, no doubt have had military trainmen and the presence aboard the May- ing in their native lands, where a term of years in the army is compulsory. The ex-officers, the general said, have considerable influence over the others and they were not to be trusted. He characterized prove this important branch of the work | the ex-officers as "adventurers and degenerate heirs of noble scions.'

> Paul Pulaski, national organizer of the United Mine Workers and vice president of district No. 9, who looks after the foreign members of the union, came here to-day. He denied all the stories of secret drilling by the Polanders and others. AMBUSHED AT NIGHT AND HIS This condition of affairs, the mine inspec tor said, is a serious matter, not only with the companies, but also with the men After the strike shall have been ended most of the workmen will have to remain in idleness for another period of time until the collieries are placed in working condition. In the coal fields south of here Mr. Stein said the situation is about as bad. But in the Wyoming and Lackawanna region the mines are in much better condition. The mine inspector's statement cre ated considerable interest here, as it confirmed the belief of some of the coal company officials that a full resumption of coal mining will not take place this year and, in consequence, the tendency of coal prices will be upward rather than downward.

Merchant Ships in Gay Dress and a Line of War Vessels Belch Salutes -General Foreign News.

REVAL, Russia, Aug. 6 .- Emperor William of Germany arrived in the roadsted to-day. The shipping in the harbor was brilliantly decorated with bunting and garlands and a spacious reception hall, lavishly furnished, had been erected on the quay. The Russian merchant squadron anchored in the harbor was dressed with flags. The Czar on the imperial yacht Standart sailed early to meet the Hohenzollern, and the German Emperor was trans-shiped to the Standart, which returned to port with the two Emperors aboard, followed by the Hohenzollern and the German cruisers Prinz Heinrich and Nymphe. The Standart passed down a line of Russian warships which fired salutes and manned sides.

The meeting of the Emperor and the Czar on the gangway of the Standart was most cordial. They embraced and retired to a cabin for a private conference. The Hohenzollern anchored among the Russian warships in the harbor and Emperor William went on board her again to receive formal visits from the Czar and the Grand Duke Alexis.
