## LOCAL WHOLESALE TRADE

FALL BUSINESS IS OPENING UP IN VERY GOOD FORM.

Crop Prospects Are the Chief Incentive to the Increasing Activity-

Grain Markets Are Weak.

The oldest wholesale merchants in every line of business are unanimous in the expression that in the local market conditions are unexceptionally good and the outlook for a big fall trade daily improving, as a very fair erop of wheat, oats and hay has been harvested and the outlook for a big erop of corn could not be more promising, so much so that farmers are beginning to dispose of their last year's crop at the prices prevailing from day to day. The wholesale grocers are another line of merchants that have no room for complaint. All staple groceries are steady in price and the consumption is unusually large, due to the prosperity the country is enjoying. Druggists are having an excellent trade, and with the hardware and iron merchants there has been a marked increase in business since August came in. On Commission row a good trade was transacted through the week, but prices on fruits and vegetables have been declining. The produce markets are very active for poultry and eggs, but butter is a little slow, and begins to accumulate, with shipments increasing to other markets. Leather and hides are gradually improving and better prices are looked for hides in the near future. Traveling salesmen tell big tales of the promising corn crop.

# WHAT THE POOR SPEND.

Economical About Necessaries-Prodigal with Luxuries of Their Class.

Ainslee's Magazine. About their necessaries the poor are naturally very economical, but there is many a poor sweatshop worker on the East Side of New York who pays his dollar or two every Saturday night to go with his wife to the Yiddish Theater. The poor man will pay his 5 cents for his glass of beer on Saturday night. Sometimes his temperament will get away with him and he spends for too many glasses. If the price of meat went up 5 cents it would be a great misfortune to this same man. He doesn't like to spend a cent too much for anything he has to have, and yet it is a common thing for a poor man to distrib- Porkute pennies among his children quite recklessly. That is a luxury to him, affects his mood and is spread beneficially over his work. The East Side is full of candy shops, to the The poor man who would fight for an hour with a pushcart peddler over the price of a banana gives his child a cent unwisely in this Ribscase, although no doubt it is a temperamental satisfaction to him. Of course, there is a side

to the expenditure of the poor which is wholly Discouragement breeds a recklessness which has no economical value. Apres mol le deluge, eat and drink, for to-morrow ye die, is often the unconscious thought of the very poor. Hopeless of improvement, they take no thought of the morrow, and are sometimes greater spendthrifts than the very rich. But this is the poor man's disease, and is remedied only by better circumstances.

They who can afford to live on a big scale pay less for necessaries than the poor. It is one of the hardest aspects of poverty that it is only the rich, who, in some ways, can afford to be econemical. They pay less, very often, than the very poor for the necessaries of life. This is connellsville coke, \$6.50; lump coke, lic per bu, strikingly true of coal, for instance. The dwellers in tenement houses have no place to store a large quantity of coal, even if they had enough money to buy it by the ton. So they are forced to buy it by the basket, at a much higher rate. thus paying from 40 to 60 cents for a hundred pounds, while the rich man, buying by the ton, pays only from 20 to 25 cents a hundred pounds. The rent, too, of the very poor in the tenement houses is, considering the accommod tions afforded, much higher than the rent of the well-to-do. And the same principle applies to other things. The dealings of the poor are necthat the rate paid is commonly enormously high.

# BREAKS IN PROVISIONS

ENORMOUS SELLING COINCIDENT WITH COVERING IN CORN.

Mixed Changes Result, Wheat, Onts and Provisions Closing Lower, with Corn a Little Up.

CHICAGO, Aug. 9.-Calamity overtook the bulls in the provision pit to-day. The downhill course of all grains during the week, and especially the precipitous dccline in corn, had taken all the faith from holders in all the speculative pits. As further argument against the bulls corn broke again early in the day. This was dered, 4.75c; granulated, 4.65c; cubes, 4.90c. too much for the provision crowd and an avalanche of stop-loss selling orders swamped the pit. Pork made the greatest break, 80c, but other products kept company. While a stampede was working havoc in provisions the grain crowds came to the belief that bottom prices had been reached. Corn shorts covered by the millions. The bearish conditions of weather and crops worked against a rally, but in the end everything on the floor reacted. September corn closed 464c up, wheat a shade lower and oats %c down. Provisions closed 74@15c lower.

After slumping over 7c in one week, an additional decline in deferred futures of lc frightened the remaining bulls into renewed liquidation. The weather was favorable and crop reports were bearish. Texas was asking for bids for immediate shipment. Altogether it appeared that soon there would be a big movement from the Southwest. The decline, however, soon brought prices to a spot which was considered too profitable to the shorts to last long. Covering had been going on all morning but now grew lively. # THE LIVE STOCK MARKETS

CATTLE SLOW AND QUIET, AND WITHOUT IMPORTANT CHANGE.

Hogs in Fair Demand and Seven to Ten Cents Lower-Sheep Quiet-Condition of Other Markets.

UNION STOCKYARDS, INDIANAPOLIS,

Aug. 9 .- Cattle-Receipts, 225; shipments,

This week's receipts of cattle have been of fair volume, but show a decrease of over 400 compared with last week, and nearly 2,200 compared with the same week a year ago, and an increase of 1,500 over the corresponding week two years ago. Thus far this year the receipts are about 21,500 larger than the same period last year. In a general way the market this week has been about as salesmen anticipated. There has been a continued scarcity of strictly choice stock of all kinds and fully steady to firm prices were maintained for that class, but the less desirable grades which butchers were looking, and for which they were bidding strong prices compared and good medium cattle have been plentiful and a gradual weaker tendency resulted during the fore part of the week, but conin a reduction of at least 25c in values comditions improving toward the end sellers pared with the close of last week. The medium cows and heifers were possibly weaker than most any other kind of cattle, Good to choice steers, 1,350 lbs and but there was also a very dull market for ordinary stockers and feeding cattle. The demand for the good stockers and feeders at the beginning of the week was hardly up to the expectations, but there was some improvement later in the week and Medium feeding steers, 800 to 900 sales were usually on a basis of former prices or rather about equal to those current at the close of last week. The demand from killers has not been liberal and only for the demand for feeding stock the medium class of cattle no doubt would have suffered more than they did. Extreme prices this week were \$7.50 for native steers, \$5.25 for fed Texas, \$6.00 for cows and helfers, \$4.50 for bulls and \$6.75 for calves. It is important to note, however, that comparatively few steers have been good enough to sell above \$7.00, not many heifers kets this one succeeded in holding steady, above \$4.75 and a small proportion of the with most sales made at strong prices comcows sold above \$4.50. There has been a pared with yesterday. As has been the case on the majority of days this week nearly continued limited and slow demand for double the number have been sold. Eastheavy bulls but the lighter grades ern packers took the bulk of the offerings. have fared tolerably well on account of the demand from feeders. There Inloe & Wagner, of Manilla, had a load were very few fresh arrivals this morning averaging 187 lbs that fetched \$7.50, which was the low mark. Thus far this year there is a decrease of nearly 144,000 compared with the same period last year. For the week ending yesterday the leading local packers bought a total of 10,-741, against 12,565 the preceding week and 21,472 the same week a year ago. During the same period the shipments were 7,866, against 8,225 the preceding week and 13,229 the corresponding week a year ago. With one exception there has been a decline in prices every day this week, and at the close of the week, when prices were the lowest, the feeling was decidedly the weakest. The receipts of sheep and lambs this week have been comparatively small, showing a decrease of nearly 1,200 compared with last week, almost 2,600 compared with the same week a year ago and over 500 compared Thus far this year the receipts are less than 2,000 larger than the same period last year, while the first of July the increase was nearly 13,000. There was very little change in prices at the beginning of the week, but later on account of quite a falling off in the requirements from outside extreme close of the week they were sell- stags, etc., \$2.2544.25 ing usually about 50c lower than the close of last week. Good sheep continue scarce and on that account about steady prices were maintained throughout the week. There was very little change to note in the market for stockers and feeding sheep. The market after Tuesday was benefited by more than an ordinary demand from close \$5 was about the top and sheep sold 4.50; choice yeals, \$5.50@6. as high as \$3.60@3.75, although \$3.50 was usually considered the top.
