FOR SCHOOL IMPROVEMENT. REPORT MADE BY JOINT COMMITTEE AT BOARD OF TRADE.

At the meeting of the Board of Trade governors held last night the report of the joint committee composed of representatives from the Commercial Club, School Board, Merchants' Association, Manufacturers' Association and the Board of Trade by President John Appel, on the need of legislation for the Indianapolis public schools, was indorsed.

The Los Angeles Board of Trade, in a letter asked to be supplied with a directory of the city of Indianapolis, and Secretary Smith was instructed to forward one to it without delay.

PERSONAL AND SOCIETY. Mr. and Mrs. J. M. Brunner left last night for Florida for a three months' trip. Bennett Gates will leave today for Concord, N. H., to resume his school work.

HOME DRESSMAKING HINTS. BY MAY MANTON. Sleeping suits that provide protection combined with perfect freedom are essential to both the health and comfort of restless children.

Robert, Sir Henry and Lady Stanley and Mr. White, the United States charge d'affaires. Public interest in the event was marked by the crowd outside, which was so great that people broke through the police lines and almost mobbed the carriage containing Justice Deane and the bride in their anxiety to see the latter.

CORN GROWERS OF STATE. H. F. M. MAHAN ELECTED PRESIDENT AT ANNUAL MEETING. Resolution Favoring Experimental Work in Corn Growing Adopted—Papers Read at the Session.

The first of a series of meetings of Indiana industrial associations was held yesterday when the Indiana Corn Growers Association held its annual session in Room 12 at the Statehouse.

RECEIPTS AT POSTOFFICE. Financial Clerk Elliott Estimates Year's Total at \$600,000. Financial Clerk David K. Elliott, of the Indianapolis postoffice, is estimating that the receipts for stamps and revenues of the postoffice will reach \$450,000 for the last three-quarters of the fiscal year.

Growing Beef Cattle. Indiana Farmer. A few weeks ago we published the address of Professor Curtis, of the Iowa Agricultural College, advised recently at Bloomington, Ind. It produced a decided sensation among beef cattle growers at the time, when he stated that with present advance price of good land, it was no longer possible for the farmer of the corn belt to profitably keep the average cow for the calf she raised alone, and that the profit on such land was one calf, and not only that, but the calf was in addition to produce thirty or forty pounds of butter fat; that we must begin to breed and grow milking strains of beef cattle, as they are doing in England and other countries.

Better Plant Trees. Washington Letter in Kansas City Journal. Professor B. E. Fernow, of the Agricultural Department, discussing the timber supply outlook in the United States before the American Association for the Advancement of Science, held at Chicago, discussed the present state of virgin timber in the United States, ready to supply the demand for lumber, showed the improbability, if not impossibility, of the United States meeting the increasing demand for lumber another thirty years, under present methods of utilization.

Profit in Cornstalks. Washington Letter in Chicago Post. The Agricultural Department is interested in the plans of capitalists to manufacture high-grade paper from cornstalks. The high-grade paper from cornstalks, it is asserted, is the most profitable of the new process. Reports to the department show that experiments have been carried on at Kankakee, Ill., for some time, and information was received recently from the market that by the time this year's crop of stalks is ripe that men using the process will be ready to begin the manufacture of paper from cornstalks.

Money in Fruit Growing. Philadelphia Record. Tropical countries excel in the number of varieties of fruit, but with its delicacy of flavor, the pineapple is inferior in point of excellence to the peach of the temperate zone. The Bartlett (the favorite) and the climatic has no equal in the tropics for a combination of desirable qualities. We import large quantities of fruit, as we desire some kinds that we cannot get within our own limits, but really because we do not properly cultivate our own native fruit.

Pruning Grapevines. Rural New Yorker. Much prefer to prune grapevines in the fall or early winter, when the wood is not frozen. I have an arbor through the grape, and enough vines in other rows to make about forty in all. Most of these have been planted for ten years. The soil is a clay loam, and the vines are trained on a trellis of iron pipes. The method of pruning is the same as that which I practiced in my own vineyard work. I aim to grow my next season crop of grapes on about three or four canes of the parent vine during the next season. I have found this method a partial preventive of the grape rot, owing in part, no doubt, to the principle that a vigorous vine is less liable to disease than an older and more feeble one. The main trunk of the vine, other than those grown from the short stub at the ground, consisted in shortening back two or three buds next to the old wood of the parent vine. I also cut out a considerable portion of the old canes and roots to the action of dry winds. As many insects and diseases may be distributed from nurseries, all trees should be very carefully examined, no matter how young they may be, when setting them out, to see if they are infested with worms. Peas may be seeded in the open ground quite early, if the ground is warm.

THE JOURNAL'S Art Calendars for 1903. Two three-sheet calendars, each sheet specially painted by Miss Maud Stumm, THE FAMOUS WATER-COLORIST, of New York City. Calendar No. 1. ALICE NEILSON, ANNE RITCHIE, EDNA MAY. Calendar No. 2. ANNA HELL, LULU GLASER, VIRGINIA EARLE. Each sheet devoted to an actress and executed in Maud Stumm's most pleasing style. The calendars are beautifully lithographed, from the original water-color paintings, in twelve colors, on heavy paper, plain, 12 1/2 inches high by 10 inches wide. Each three-sheet is tied with a silk ribbon. You could not buy this Calendar at an art or book store for less than 50 cents. We bought 5,000 and can sell them at 15 cents each—mailed to any address. When ordering state which Calendar you want and how many of each. A more beautiful CHRISTMAS or NEW YEAR'S GREETING would be hard to find. This is not a gaudy Calendar, but is an unusually beautiful work of art. When you see one you will want several. For the convenience of INDIANAPOLIS SUBSCRIBERS who have not 15 cents to spare to send us, we will fill telephone or mail orders and add the amount to the regular subscription bill. Now ready for delivery. Address CALENDAR CLERK. Both Phones. Indianapolis Journal. Ask for the Journal.
