MISSOURI BOODLE CASE

LIEUTENANT GOVERNOR LEE SUMMONED AS A WITNESS.

Wanted by Attorney Folk, Who Is Probing the Baking Powder Scandal—Lee in Angry Mood.

ST. LOUIS, April 16.—The grand jury to-day continued the baking powder investigation. One of the most important moves made in the legislative boodle case is the issuance of a subpoena duces tecum by the St. Louis grand jury on the part of the Steelville (Mo.) Bank requiring him to bring books and checks before that body. It was in this bank that funds supplied by the baking powder trust are said to have been kept for disbursement. In this connection Circuit Attorney Folk has wired Attorney General Crow to subpoena State Senator F. H. Harris, who is supposed to know considerable about the funds. Circuit Attorney Folk this afternoon telephoned Roland Hughes, prosecuting attorney of Kansas City, to subpoena Lieutenant Governor Lee and to "hold him until a representative of the St. Louis grand jury could personally subpoena him. Prosecuting attorney Hughes, at once issued a subpoena commanding Lee to appear in the Kansas City Criminal Court to-morrow as a witness in an important matter. "Governor Lee cannot be held as a defendant," said Mr. Folk, "but he can be deposed by subpoena until he reaches here."

A committee of the St. Louis grand jury visited the Lafayette Bank this afternoon to inspect the books relative to the \$7,000 said to have been deposited there by State Senator John P. Collins, who is charged with forgery, or both, if the offenses had been committed within the jurisdiction of the St. Louis grand jury.

Lee Angry When Summoned.

KANSAS CITY, Mo., April 16.—Lieutenant Governor Lee to-night was served with a subpoena just as he was leaving Chicago on a Chicago & Alton train. Mr. Lee, it is said, appeared to be in perfect health. When asked where Mrs. Lee was he said: "Mrs. Lee's transportation is over the Missouri Pacific and she is traveling over that road." The deputy marshal, having learned that Mr. Lee was on the Chicago train, said to him, "If you do not understand that if you disobey this subpoena you will be regarded as a fugitive from justice." Lee answered angrily: "I understand this move. It is one of that fellow Folk's. He is always making a nuisance of himself. I wish you would apologize to Mr. Hughes, your prosecuting attorney, for the trouble he has caused me. I will be glad to testify if he wants me to testify in any case pending here. I will be prompt to obey his summons."

"I do not know the meaning of all this," Mr. Lee, answered the deputy. "I know only this subpoena is served upon me to testify in this Agnew case."

"I know that and I know what it means. They want me to go before the grand jury at St. Louis and that is exactly where I am going."

The subpoena served upon Mr. Lee was in a local case. It was used to prevent his getting beyond the jurisdiction of the Missouri courts before the grand jury could be served upon him. Lee ignored the subpoena.

When Lee learned to-day that a deputy was looking for him with a subpoena he went across the line to Kansas City, Kan., where he remained until the grand jury of the Union Station to board the Chicago train.

It is believed that Orchard was questioned with reference to the alumn bill.

United States Senator Stone, who arrived from St. Louis to-day, was not at the court, but a subpoena was issued for him. Senator Stone later expressed willingness to testify.

Editor I. N. Page, of Bonne Terre, who had been cited to account for the possession of a \$1,000 bill during the last legislative session, arrived to-day in St. Louis and was ordered by Circuit Judge Hazo to pay the cost of the attachment proceedings, amounting to \$10.

Among the passengers who arrived Thursday night from Liverpool were Major Prentiss and the late Edward Prentiss, of Pretoria, and Bishop J. M. Thoburn.

D. M. PARRY ELECTED

GIVEN ANOTHER TERM AS PRESIDENT OF MANUFACTURERS.

Pittsburg Chosen as the Place for Holding the Next Convention of the Association.

REPLY FROM A LABOR LEADER

MR. PARRY SEVERELY SCORED BY SAMUEL GOMPERS.

Who Says the Indianapolis Man is Demented—Elevated Railway Employees Vote to Strike.

NEW ORLEANS, April 16.—The National Association of Manufacturers this afternoon elected the following officers: President, David M. Parry, Indianapolis; secretary, Marshall Cushing, New York; treasurer, F. H. Still, New York. J. H. Neumacher, of Kentucky, urged the association to present a united opposition to what he termed the anarchistic and socialistic element which controls many of the labor unions, but declaring that the association must admit the right and justice of organized labor properly conducted. "Let this be our motto," he said, "Fair play to the workingman and America for us all, employer and employee." The sentiment was vigorously applauded.

The convention was addressed by Senator De La Portella. When the delegates took up in detail questions of change in by-laws and fees and dues Secretary John Maxwell, of Indianapolis, made a strong fight for a graded instead of a flat fee. The matter was referred to a committee.

A resolution favoring tariff revision, a resolution was adopted recommending the use of the pneumatic tubes for the distribution of United States mails in large cities. Charles Fay, of Chicago, addressed the delegates in support of his resolution urging the national administration through the Department of Commerce and Labor to prepare for general tariff revision. The resolution was also supported by J. B. Farquhar, of York, Pa. S. O. Bigley, of Massachusetts, opposed action, declaring that the association "had no business with tariff tinkering." A lengthy debate was in prospect when John Kirby, of Ohio, moved that the resolution be laid on the table, and it prevailed.

An effort was made to secure the adoption of a resolution favoring tariff revision, but it was tabled after somewhat lengthy debate. Pittsburg was chosen as the place of next meeting after a spirited contest, in which Toledo, Buffalo and Milwaukee took part. This afternoon the delegates and visitors were given a river trip on the St. Louis. An elaborate menu was served.

GOMPERS REPLIES TO PARRY.

Labor Leader Thinks the Manufacturer Has Gone Daff.

WASHINGTON, April 16.—President Gompers, of the American Federation of Labor, to-day gave out a statement in reply to the annual report of President Parry, of the Manufacturers' Association, which was read before that body in New Orleans. "If there were any doubt that Mr. Parry had taken leave of his reason, the report (or rather harangue) which he has made in New Orleans would remove any doubt. If the Manufacturers' Association in convention at New Orleans endorsed Mr. Parry's unjustified and unproductive denunciation of the effort of the workers to secure material and moral improvement, they have thereby demonstrated their low level and stand committed with him for all the injury which must follow from their strike would be wild and foolish," said Gompers.

"I cannot help coming to the conclusion that the concentration in few hands of so large a number of the industrial concerns through the country must have an effect like that of a ship, to steady the situation; that the evolution which has gone on in placing the management of these large concerns in the hands of men of the highest experience and of great financial strength, is not a fact that the iron and steel industry, that the sugar industry, that the combinations producing various articles of necessity will be enabled by their financial strength, as well as by their able management, to adjust the affairs of the country as far back as 1877? If I am right in this hypothesis, there is much that is advantageous to the business interests of the country in this regard; that the aggregations of capital engaged in manufacturing productivity will result in adjusting supply and demand and in avoiding the great cry which comes up from the Socialist that the capitalist makes slaves of his workmen whenever the day of industrial panic comes."
