Dr. D. T. Graham says they are uniformly well treated. Colored Man, He Says, Receives More Consideration Than in the Northern States.

It is not true that the Southern white man knows the negro better than the Northern white man, but in the South the negro is trusted more, said Dr. D. T. Graham in an address on "The South, the North and the Negro" last night at the Bethel A. M. E. Church.

In his discussion of the race problem he said in part: "We, who live in the South, consider the question of great interest; papers discuss it editorially and the question is considered seriously. It is not letting up any in the South, but there is more race prejudice in the North to which the negro has always looked as the land of liberty. My advice to the negro is to stay in the South. However, the North should hear both sides of the question.

The South is better than you think for the negro and our people make a great mistake by leaving. There are more opportunities for earning a living in the South than in the North, because all classes of labor are open to the negro. White and black men work side by side. Northern white men who come to the South to invest in real estate and do so with Southern white men who show them only the worst class of our people; the negroes in the North, however, call the 'Jim Crow' element; the kind that do not work. They see nothing of the negro in his home or in his church or society.

VARIOUS KINDS OF LABOR. "Negroes are trusted in the South, many of them with thousands of dollars' worth of their employer's property. In the South we have colored switchmen, brakemen, section hands and bosses and many colored engineers. We must cultivate this trust of the Southern people. On the other hand the South tolerates the negro's ignorance and rudeness more than they should—our people are given too much latitude. In cities of the South the negro actually takes pride in giving the negro a chance to make a living. The credit system on the plantations in the South is a great trouble, and causes many colored men to go to the cities and to the North, and it is these country negroes that are the most trouble. Continuing he said that the great scare-crow in the South is social equality. "We can be citizens of the South, but we must be separated. If I am a good morally as a white man and as good a representative of my race, why am I not as good a man as any white citizen of the South? We must demand that they have social equality. The old-time darkey is not the standard for us, but the young negro must learn diplomacy from him. Our young men must learn to be gentlemen, to be courteous, to respect themselves and others, and they must learn to respect women. Industrial education for the masses as shown by the printing office at Washington should be learned—that labor is honest and if worth learning at all it is worth learning in the street, but we must remember that mind and not muscle will continue to control the world and the negro must also learn to work with his mind."

Business Affairs of the United Brethren Church Discussed. The fourth and last quarterly meeting of the Indianapolis district of the White River conference of the United Brethren Church, was held last night at the First United Brethren Church, at Central avenue and Twenty-first street. Shannon. It is known as the White River Conference of Indiana and is divided into two districts, each of which is growing rapidly. STOCKHOLDERS' MEETING. Merger of Union and Northern Traction Companies to Be Completed. The meeting of the stockholders of the Union and Northern Traction companies will be held June 30, at Anderson, to decide upon the question of leasing the lines of the Union Traction Company and the Northern Traction Company to the Indiana Union Traction Company for a term of 99 years, which will complete the merger of the companies.

By the terms of the lease the holding company, holding other obligations, agrees to erect new barns at Anderson, build a road from Anderson to New Castle by way of Middletown, from Anderson to Elwood by way of Franklin, and from Muncie to Alexandria.

There will be an authorized issue of \$1,000,000 of bonds, of which \$250,000 will be issued. The entire capital stock is \$5,000,000, of which it was necessary to subscribe \$1,000,000 in order to incorporate, and the balance of \$4,000,000 to be offered. In order to avoid fractions in allotting one \$100 bond and \$500 of stock par value for \$1,000 and the \$1,000 bonds are offered. This gives each Union Traction shareholder, either common or preferred, the right to purchase \$1,000 of bonds and \$500 of stock for \$1,475. Any shareholder who elects to purchase must take both the stock and the bonds in proportion of fifty shares of stock to each bond. Negotiable receipts will be issued to persons holding only parts, with receipts convertible into a bond of fifty shares of stock when they equal that amount. The rates expire on June 23.

STUDENTS OF THE DRAMA. COMMENCEMENT EXERCISES OF MRS. PRUNK'S SCHOOL. Scenes from Shakespeare's and Other Plays Creditably Enacted—Large Audience at Roberts Park Church.

The twenty-second commencement exercises of the Indiana-Boston School of Expression and Dramatic Art, of which Mrs. Harriet Augusta Prunk is principal, was held last night at Roberts Park Church. The class is composed of Carl Jerome Brickner, Lento Rovina Fullwell, Ora Clara Myers, Laura Kathleen Arnold, Edith French Lane, Mabel Conover Mills and Alpha Maxola Vandawalker. After the invocation by the Rev. M. L. Haines, of the First Presbyterian Church, a short address was delivered by the Rev. Lewis Brown, of St. Paul's Episcopal Church. "Othello's Defense" was then given by Mr. Carl J. Brickner, whose prominent part on the programme and exceedingly clever interpretation of various parts was one of the features of the evening. Miss Ora Clara Myers followed with a monologue, "The Confession" by W. W. Story, which was well received. A sketch, "The American Senator in Italy," was cleverly enacted by Miss Alpha M. Vandawalker and Mr. Carl J. Brickner. A second scene from Shakespeare was given by Miss Lane, who created a good impression as Juliet in the "Potion Scene." Miss Sue Smith then contributed a violin solo, "The Flower Song," by E. J. French, by Miss Lento Rovina Fullwell, whose clever interpretations were well received. The closing scene was given by Mrs. Prunk, who played the part of Macbeth, after which "The Harvard Race" was recited by Miss Edith French.
