IS OF EFFECT

LAW PROVIDING A GENERAL STAFF FOR THE ARMY.

Secretary Root Will Promulgate the Orders Putting its Provisions Into Full Operation.

DUTIES OF CHIEF OF STAFF

FULLY PRESCRIBED IN THE DOCUMENT FROM THE SECRETARY.

His Relation to the President and the Head of the War Department—Other New Features.

WASHINGTON, Aug. 14.—Secretary Root to-morrow will promulgate a rule defining the duties of the general staff of the army, which, under the law, goes into effect on Aug. 15. The most important feature is that in relation to the selection and duty of the chief of staff. On this point the secretary says:

"Under the act of Feb. 14, 1903, the command of the army of the United States rests with the constitutional commander-in-chief, the President. The President will place parts of the army and separate armies whenever constituted under commanders subordinate to his general command; and, in case of exigency seeming to him to require that he may place the war army under a single commander subordinate to him; but in time of peace and under ordinary conditions the administration and control of the army are effected without any second in command."

"The President's command is exercised through the secretary of war and the chief of staff. The secretary of war is charged with carrying out the policies of the President in the army, and the chief of staff represents the President, and is bound always to act in conformity to the President's instructions. Under the law and the decisions of the Supreme Court his acts are the President's acts and his directions and orders are the President's directions and orders. The chief of staff reports to the secretary of war, acts as his military adviser, receives from him the directions and orders given in behalf of the President, and gives effect thereto in the manner herein provided."

"Exceptions to this ordinary course of administration may, however, be made at any time upon the order of the President if he sees fit to call upon the chief of staff to give information or advice or receive instructions directly from the President. The chief of staff is detailed by the President from officers of the army at any time before the grade of brigadier general. The successful performance of the duties of the position requires what the President expects of the chief of staff and the secretary of war. For this reason, without any reflection whatever upon any officer detailed to the position, it is in every case, unless sooner terminated, on the day following the expiration of the term of office of the chief of staff, that detail is made, and if at any time the chief of staff considers that he can no longer sustain to the President and the secretary of war the relations above described, it will be his duty to apply to be relieved. The chief of staff is charged with the duty of supervising, under the direction of the secretary of war, all troops of the line, the adjutant general, the quartermaster, judge advocate general, quartermasters, subsistence, medical, pay and ordnance departments, and all other departments and signal corps. He performs such other military duties not otherwise assigned by law as may be assigned to him by the President."

This paragraph and subsequent paragraphs in the document define the duties of the chief of staff under the direction of the secretary of war. The duties of other members of the general staff and gives the provisions of the law relating to the mobilization of the army, collect information and make preparation for plans of campaigns, etc. The duties of the chief of staff are defined in Washington will be divided into decisions such as may be directed by the chief of staff. Officers of the general staff assigned to divisions, departments and separate brigades will serve under the immediate orders of the commanding general and separate divisions and departments. Another general order has been issued amending the regulations of the army to meet the changed conditions which the general-staff law makes necessary.

NEW ARMY ORDERS.

Young Will Issue Them When He Becomes Chief of Staff.

WASHINGTON, Aug. 14.—Two general orders will be issued by General Young to-morrow as chief of staff of the army under the new law. The first states that, in compliance with the instructions of the President, he (General Young) relinquishes the duties of chief of staff.

The second order announces the assignment of officers of the general staff, as follows: Heretofore detailed, the detail will be in accordance with the instructions of the President, he (General Young) relinquishes the duties of chief of staff. The second order announces the assignment of officers of the general staff, as follows: Heretofore detailed, the detail will be in accordance with the instructions of the President, he (General Young) relinquishes the duties of chief of staff.

LAFAYETTE TO BE GOOD

HEREAFTER NICHOLSON LAW WILL BE STRICTLY ENFORCED.

Senator Beverage Felicitates the Republican Editors—W. J. Bryan Visits Salem—General Indiana News.

Special to the Indianapolis Journal. LAFAYETTE, Ind., Aug. 14.—The police commissioners to-day declared that hereafter the Nicholson law, which they were sworn to enforce, would be enforced in this city, and that under no consideration whatever would gambling be tolerated. The hurried call for a meeting came after a night of wild excitement, during which a riot between the gambling and the law was looked for. The police commissioners practically sanctioned gambling on one street by letting it go unmolested, while on another street the games were broken up and the paraphernalia removed. This incensed the Main-street gamblers, who had been thrown out of business while their fraternal brothers in Columbia street gambled with a freedom born of a disregard of the law. Last night there was a meeting shortly after midnight at the saloon of M. G. Ricks on Main street. Luke H. Balfe, who owns the building in which the saloon is located, and one of the most influential men in the city, signed his name alongside that of Mike Ricks to a telegram to the Governor, calling his attention to the fact that gambling was being carried on one street and not on another. After sending the message a committee waited on the Governor, and Mr. Meyer promised to take immediate action and see that the Nicholson law was strictly enforced. The law, the police assert that the saloons in the Main-street building, which were the mainstay of the gambling, will be closed, and the Nicholson law will be strictly enforced.

KICK CAUSES HIS DEATH

WABASH MAN DIES FROM INJURY SUSTAINED IN A FIGHT.

Cassius Burnsworth, Held for Manslaughter, Claims He Was Acting as a Peacemaker.

WABASH, Ind., Aug. 14.—As a result of a kick in the stomach during a fight, George Garner, forman of the bars of the Wabash Paper Company, died at his home in this city this afternoon. Cassius Burnsworth, a driver, who has always borne a good reputation, was arrested and was in the mayor's office undergoing a preliminary hearing for assault and battery with intent to commit murder when Garner died. The charge was immediately changed to manslaughter and as Burnsworth was unable to give bond in the sum of \$2,000, he was returned to jail.

Burnsworth is of a good family. He claims that Garner and a son were fighting another man when he attempted to separate them. Garner attacked him, and the fight resulted in the kick which killed Garner. Before his death, told another story. As Burnsworth was taken to jail his wife and two children clung to him and the officers created a scene. Garner too, before the trial, was general. The successful performance of the duties of the position requires what the President expects of the chief of staff and the secretary of war. For this reason, without any reflection whatever upon any officer detailed to the position, it is in every case, unless sooner terminated, on the day following the expiration of the term of office of the chief of staff, that detail is made, and if at any time the chief of staff considers that he can no longer sustain to the President and the secretary of war the relations above described, it will be his duty to apply to be relieved. The chief of staff is charged with the duty of supervising, under the direction of the secretary of war, all troops of the line, the adjutant general, the quartermaster, judge advocate general, quartermasters, subsistence, medical, pay and ordnance departments, and all other departments and signal corps. He performs such other military duties not otherwise assigned by law as may be assigned to him by the President."
