Fifteen thousand people from Ohio, Kentucky, Illinois and other states and towns in Indiana spent Sunday in Indianapolis.

With the exception of one or two Sundays early in the season yesterday was the biggest Sunday excursion day of the summer.

Officials of the Union Railway Company say that fully 30,000 people passed through the gates of the Union Station, including the people who came to the city and left on the dozens of regular trains.

"We would have had the biggest Sunday excursion of the season to-day if the usual number of excursions had been run out of Indianapolis," said the station master at the Union Station yesterday afternoon.

"But for some reason or other the railroads ran fewer excursion trains out of here today. That is the only thing that kept the day from being a record-breaker of the summer."

The largest number of excursionists came from Louisville and the Indiana cities and towns along the Pennsylvania line between Indianapolis and Louisville.

Several thousand people came in from Cincinnati on the two C., H. & D. excursions. The Monon brought a big crowd from Chicago and Hammond.

Following were the excursions to Indianapolis: Pennsylvania line from Louisville, three trains; Vanalaha from Terre Haute and Greensburg; and four from Michigan City and Rochester, Big Four from Champaign, Ill., C. H. & D. from Cincinnati, and the Monon from Hammond.

The excursions out of the city were Big Four to Cincinnati, Big Four to Greensburg and Terre Haute, C. H. & D. to Rochester and Michigan City, and C. H. & D. to Decatur and Springfield.

SEASON STILL RUNNING.

The Sunday excursion season of the summer is not yet over, as one might be led to believe by the immense crowds that come to Indianapolis each August Sunday.

Railroad companies have a theory about excursions, the substance of which is, "When there are trains there are plenty of people who want to go places."

One might think that the coming of the thousands of people to Indianapolis this summer and since almost every town and city in the State has sent its Sunday crowd here, there would be no more people to patronize the Sunday excursions.

Every year Sunday excursions from Indianapolis from early in the summer until late in the fall, and railroads from the country to the city and back toward the end of the season are usually just as busy as those in June, and are larger than a crowd of 15,000 people.

Twenty thousand people are handled by the officials of the railroad with a little delay and almost as easily as the ordinary busy week-day crowds. The immense crowds in the parks and on the ways to the parks Sunday afternoon and evening.

THE CROWDS AT FAIRVIEW AND BROAD RIPLE yesterday were estimated at July 25,000 people. There were also several thousand people at Riverside Park to listen to the concert by Mayer's Military Band. Miller's City Band gave a concert at Brookside Park in the afternoon which furnished an attraction for hundreds of people from the northern part of the city.

At Spades Park, one of the popular small pleasure resorts, Herman Arndt's band gave a concert.

Many of the folk from the small towns who come to the city for the day are bringing large baskets of lunch with them, and are eating at the tables and benches which are set up for their use.

It happens to be in any of the parks at noon one is sure to see many of these family parties from the country with the tablecloths spread on the grass in shady spots for lunching al fresco.

When speaking of what the people from the rural districts do when they come to Indianapolis the Statehouse must not be overlooked. It is one of the "sights" for these people. They usually have a sort of programme of what they are going to do in the city. The Statehouse is often one of the first things on their programme.

None of the offices or museums in the city are open to the public to walk about the immense building is always a treat to people who have not been in the Statehouse before.

FINE RECORD FOR INDIANAPOLIS

Gain in Building Permits Over July, 1932, Was 251 Per Cent.

Indianapolis made the largest gain in building operations in July, over the same month last year, of any city in the country.

The gain in Indianapolis last month over July, 1932, according to statistics in the Construction News, was 251 per cent. Two hundred and forty-eight building permits were issued here in July, representing a total expenditure of \$2,000,000.

The second largest gain is Atlanta, Ga., with 64 per cent. Cleveland is third in the list with 50 per cent. The gain in Brooklyn and Cincinnati amounted to 23 per cent. Philadelphia, Washington, Seattle, Minneapolis and Memphis, all showing gains in building operations in July, were in the next rank. East and West, amounted to 5,800 buildings, representing an expenditure of \$2,232,851.

ACCIDENT RESULTS FATALITY.

Clinton Jones, Indianapolis Railroad Man, Succumbs to Injuries.

Clinton Jones, superintendent of construction for the Big Four Railroad at Guilford and a resident of Indianapolis, died at Lawrenceburg yesterday from the effects of injuries received last Thursday, when he was accidentally knocked off an abutment to the ground, a distance of fifty feet, by a body which fell from the bridge.

ELECTION WAS EXCITING

GARMENT WORKERS HAD A WARM TIME NAMING OFFICERS.

President and Secretary Re-Elected Easily, but There Was a Hot Fight for the Other Places.

The twelfth annual convention of the United Garment Workers of America, which has been in session at the Claypool since last Monday, adjourned yesterday afternoon at 5 o'clock.

The election, in several cases, was the most exciting the convention has held for many years. There was no opposition to the positions of president and secretary, and E. A. Langer, of Cincinnati, and Henry White, of New York, were re-elected respectively, to those positions by a unanimous vote.

The great battle, however, that lasted almost the entire day, centered around the election of a treasurer, an auditor and a board of trustees. An unexpected candidate, E. L. Carno, of New York, was put forward early in the election against T. J. Crouchley, of Brooklyn, an auditor. Mr. Crouchley has been auditor for the past four or five years, and it was thought that he would not be opposed.

However, although Carno had good backing, what there was of it, his party was in the minority and was defeated by an overwhelming vote.

MEMBERS GOT EXCITED.

In the election of a treasurer, the greatest excitement was manifested. Henry Waxman, of New York, was known to be the candidate of the tailoring branch of the union, and there had been a great deal of canvassing for him during the past week.

A. J. Bromley, of Attica, N. Y., the past treasurer, was supported by a party from the cutters and the overall workers. When the ballot was taken and announced Waxman had won by a narrow margin.

There were a large number of candidates put forward for places on the board of trustees, and about half the day was occupied in the balloting. The board finally elected the following: Treasurer, Henry Waxman, of New York; M. P. Guskatky, of New York; Robert Noren, of Chicago; Charles K. Lipshutz, of Philadelphia; M. L. B. Bickel, of Indianapolis; Miss Ellen Lindstrom, of Chicago, and Samuel Simons, of Boston.

The vote on the place of the convention was also very close. Two cities were named on the ballot, Buffalo and Kansas City, and the convention will be held in that city in August of next year.

Those who were to have been brought up at yesterday's session were referred to the general assembly board to be held at the first meeting.

A great many of the delegates left the city last night, but most of the committee and the largest manufacturing interests of the city that will be in the position of making a report back to the Council, Mr. Mortuary is sure the ordinance would be defeated.

Councilman Moriarty may introduce a new "Standard Oil" ordinance to-night. The ordinance he introduced several weeks ago, which would require the Standard Oil Company to move its plant out of the city limits, met with such an opposition that it was reported back to the Council, Mr. Moriarty is sure the ordinance would be defeated.

COUNCIL'S BUSY NIGHT

CITY FATHERS WILL VOTE ON IMPORTANT ORDINANCES.

Boulevard Bond Ordinance, Appropriating \$100,000 for Pleasure Drives, Expected to Go Through.

FATE OF CHICKEN ORDINANCE

MR. EPPERT PREPARED TO MAKE A FIGHT FOR FOWL MEASURE.

Minority May Renew Eleventh Ward Fight Against Standard Oil Company-Other Ordinances Up.

Council probably will pass the boulevard bond ordinance to-night appropriating \$100,000 for the construction of a boulevard along Fall creek and to make a boulevard of Pleasant run on the South Side.

Seventy thousand dollars of the money will be expended for the Fall creek pleasure drive and the remainder to convert Pleasant run into a boulevard.

Mayor Bowdler stated last night that he understood the ordinance will be reported back to Council to-night by the finance committee and that it is the general opinion that the measure will be adopted.

One hundred thousand dollars of boulevard bonds were issued last spring, and the administration is anxious to have the appropriation ordinance through so the money can be made of use at once.

Now that the Democratic primaries are over it is thought the ordinance can be passed. Before the Democratic primaries the finance committee, in whose hands the ordinance has been, would not report the measure back to Council to-night.

It has been impossible, it was thought, to get support for the measure from the Democratic members. This obstacle is out of the way now, and there is little doubt that the measure will be adopted.

THE BOSWELL OFFER.

Councilman J. H. Billingsley, president of the Council, says he will oppose the ordinance unless the Park Board reports that it will accept the gift of the Boswell estate, by which the city comes into possession of seventeen acres of land along Fall creek, near Central avenue, for a small park in the boulevard system.

The Park Board has not taken any action on the proposition of the Boswell estate to give this land to the city, and Councilman Billingsley says he will not vote for the ordinance unless the gift is accepted.

The tract is in the Second ward, where Councilman Billingsley lives. "The second ward hasn't an acre of park land," said Councilman Billingsley, "and I don't propose to vote for the ordinance unless the Park Board reports that it will accept the gift of the Boswell estate."

If the board reports that it will take the land and use it for a park, then I will vote for the ordinance, of course.

Councilman Moriarty may introduce a new "Standard Oil" ordinance to-night. The ordinance he introduced several weeks ago, which would require the Standard Oil Company to move its plant out of the city limits, met with such an opposition that it was reported back to the Council, Mr. Moriarty is sure the ordinance would be defeated.

MANIAC'S AWFUL YELLS

Henry Sultors a Lunatic from Constant Intoxication.

A raving maniac from the effects of constant intoxication, Henry Sultors emitted thousands of unearthly howls from his cell in the county jail last night, and it was necessary to call a physician, who administered an anaesthetic in order to quiet him.

Sultors was declared insane by a commission which sat in Justice Sheppard's court last Saturday, and since that time has been confined to the Insane Hospital.

It was reported that the maniac kept up his ravings until an early hour in the morning, and the inmates of the jail were kept awake by the noise. Crowds gathered around the jail last night, as it was reported that the sheriff was making a raid on the insane prisoners, but the rumor was unfounded.

INDIANAPOLIS MEN WIN

SAMUEL FRENCH AND JOHN BERRY CHOSEN DELEGATES.

Will Represent Indiana Unions at International Convention at Salt Lake City September 14.

A convention of the unions of the International Brotherhood of Electrical Workers of this State was held yesterday in Morrison Hall to elect delegates to the international convention which will be held in Salt Lake City, Sept. 14.

Samuel French and John Berry, both of this city, were elected delegates to represent the various unions of the State.

Forty local unions in Indiana and delegates from thirty of them were present at the meeting yesterday. Further steps in the perfection of the organization were taken and officers for the year were elected.

Samuel French, of Indianapolis, was re-elected president, and S. C. Bostick, of Terre Haute, was chosen secretary and treasurer.

The delegates will be held in this city the first Sunday in November.

PROTEST TO TAX BOARD

MINE OWNERS SAY UNMINED COAL CANNOT BE ASSESSED.

John S. Bays, of Sullivan, Will Appear Before Commissioners To-Day—Contention of Coal Men.

John S. Bays, an attorney of Sullivan, will appear before the State Tax Board today to represent a number of coal companies of Sullivan and Greene counties.

The Board of Review of Greene county assessed the underground veins of coal owned by the companies and the latter took an appeal to the State Tax Board.

In Sullivan county the State Tax Board of Review refused to tax the underground coal and the county assessor took an appeal. Mr. Bays is interested in both cases, representing the appellant in the one and the appellee in the other.

The companies contend that they should be assessed only on their capital stock and such tangible property as they may possess.

"Greene county is the only one in the State, and the only one in the country, so far as I am informed, where an attempt has been made to assess unmined minerals," said Mr. Bays last evening at the Claypool.

He said that the attempt to assess unmined minerals is an attempt to tax the property of the companies on the basis of their potential value, which is not a tangible property.

He said that the attempt to assess unmined minerals is an attempt to tax the property of the companies on the basis of their potential value, which is not a tangible property.

ITS THE REAL ARTICLE

RUSSIAN IMPERIALISM NOT A MATTER TO BE LAUGHED AT.

The Life of Finland is Being Crushed Out and Its People Are Being Reduced to Bondage.

Once in a while there is an attempt on the part of some one to palliate the imperialism of Russia. There are persons who, remembering what the czar did in calling the peace congress of The Hague and advocating the disarmament of the nations, are disposed to think that he is a pretty good sort of ruler, who would do no wilful harm to any people.

There is no room for any general apology for Russian tyranny. It is the most selfish, drastic and bloody of anything in Europe, unless it be that of the Sultan, whom Gen. Lew Wallace thinks to be one of the sweetest gentlemen in the world.

He treated General Wallace with great consideration, and did not show to him the side of his character which the Armenian Christians, for example, have had sad experience. When the czar makes a visit of ceremony to France or Germany he shows himself a polite and agreeable person and makes no exhibition of the darker elements of his character, as oppressor. He is not a swashbuckler and a tyrant all the time and in every relation of life.

The late Cassius M. Clay, whose murderous propensities have been recalled by his death, did not spend all his time fighting. He was as courteous and sweet-tempered a person as one could meet in courts and drawing rooms. It is a foolish and tyrannical to cultivate an amiable manner, and to do, now and then, good works that induce praise.

But nothing is more certain than that no tyrant or oppressor can be a gentleman. He would do another people what the worst class of the people of Finland. This is the case with the czar. He has no character beyond any power of praise or flattery to make it seem white and noble.

THE CASE OF FINLAND.

The Herald has already told the story of the arrogant proceeding of Russia, in violation of sworn compact, in depriving Finland of its ancient constitution and of long-cherished rights and liberties.

Finland had made no war on Russia, but it was an example of a substantially free state that, in its contentions, its privileges and its independence were being crushed out.

For several years the czar had been engaged in a war with the people of Finland. He had been engaged in a war with the people of Finland. He had been engaged in a war with the people of Finland.

He had been engaged in a war with the people of Finland. He had been engaged in a war with the people of Finland. He had been engaged in a war with the people of Finland.
