KINGS AND QUEENS PART
THEIR BRITISH AND ITALIAN MAJESTIES
TID BIE EACH OTHER GOOD-BYE.

Affectionate Farewells at the Windsor Station—Royal Salutes and Dressing of Ships at Portsmouth.

LONDON, Nov. 21.—Much ceremonial attended the departure to-day from Windsor of King Victor Emmanuel and Queen Helena of Italy. The royal procession to the railway station was similar to the one witnessed on the occasion of their arrival. The crowds gave the visitors a most cordial send-off.

The first farewells of the members of the royal families took place in King Edward's waiting room. The two kings, arm in arm, then inspected the guard of honor, and the two queens followed. Subsequently King Edward and King Victor Emmanuel escorted Queen Helena and Queen Alexandra respectively to the saloon train, where the queens bid each other an affectionate good-bye. As the train was moving away from the station, King Edward stepped forward, stretched out both hands and clasped the hands of King Victor Emmanuel, who leaned out of the window. The band then played the Italian national hymn and King Edward stood at salute until the train was out of sight.

Royal salutes from the warships, which were dressed in rainbow fashion, greeted the Italian King and queen as they departed from Portsmouth. They immediately embarked on the royal yacht Victoria and Albert, which shortly afterwards departed for Cherbourg, attended by the torpedo boat destroyer flotilla amid the strains of "Auld Lang Syne" and a final salute of twenty-one guns.

As the royal yacht was leaving Portsmouth harbor, a message was sent from King Victor Emmanuel to King Edward, which was shouted aboard, but it was inaccurate, and Admiral Fisher, who was in command, dispatched a torpedo boat to the Victoria and Albert to catch the yacht and fetch the message.

Another incident of the departure of the Italian sovereigns which created some excitement was a collision between the torpedo boat destroyer Violet, one of the escorting flotilla, with a gunboat. The Violet bows were somewhat damaged.

Reception at Cherbourg.

CHERBOURG, Nov. 21.—The entry of the English royal yacht, bearing King Victor Emmanuel and Queen Helena, and the escorting squadron into French waters was greeted with a salute of 30 guns from the forts. The French squadron in the harbor picked up the British vessel and the British vessel picked up the French vessel. The maritime prefect at once boarded the Victoria and Albert and the king and queen. This evening the French fleet was brilliantly illuminated.

Their majesties landed at the arsenal and were received with military honors by the general staff. The king and queen, in a train, which steamed from the station amid enthusiastic cheering by a large crowd which had assembled to witness their departure.

"Information Concerning Common Goats" is the title of a bulletin just issued at the Department of Agriculture. The scientists who prepared the document states that the means by which the goat is bred is a "common goat." He says: "It is not by the use of the term 'common goat' to convey the impression that they are a distinctive breed. On the contrary, it is generally accepted as including all sorts of mongrel goats, whatever their size, conformation, or character of hair. They are usually referred to as common in order to distinguish them from Angora goats, which are a specific breed. The goat population of the United States aggregates 1,240,000. Of this number 78,253 are on the green in the cities and villages of the country. It is a matter to be regretted," says the scientist, "that the census returns made no distinction between the goats of the United States and those of the United Kingdom. The value of the goats in the United States is fixed at \$2,300,000. Indiana has 4,518 goats valued at \$8,500.

BOGOTA, Colombia, Nov. 21.—President Marroquin has made the following statement in response to queries as to the present situation in Colombia: "United States Minister Beaureppe and all Americans here are surrounded with every guarantee for their safety. My communications to the United States Senate and to the people of the United States make manifest the attitude of my government on the Panama question. The situation in the interior of the Colombian republic is quiet."

COLOMBIA'S BONDS.
British Government Making Inquiries in Behalf of Holders.
WASHINGTON, Nov. 21.—The British government is showing an interest in the fate of the bonds issued by Colombia and taken up by foreigners mostly British and Dutch holders. Mr. Raikes, the British charge here, had a half-hour talk to-day with Secretary Hay at the State Department, and it is believed this subject was touched upon. Baron Givers, the Dutch minister here, also has had a talk with Secretary Hay during the past two days.

THE PANAMA QUESTION.
The position of the department is that it cannot dictate to the new republic of Panama, which disposition has been made of the money which is to be paid over by the United States in consideration of canal rights, but it certainly holds that it is only right and just that Panama, in concluding a treaty with Colombia, shall make provision for the assumption of a fair share of the national debt. So it is expected that the more the United States Department has not yet been informed officially of the new republic of Panama, but there is no apprehension on the part of the United States that the principal purpose of the visit of General Reyes to the United States is to effect the adjustment of Colombia's troubles by securing for the Colombian government some share of the national debt. It is stated that the new treaty, which will be signed at Bogota, will pay to Panama. It was stated positively at the State and Navy departments yesterday in writing to the Netherlands government.

FRANCE'S RECOGNITION.
Vice Consul Bonhenry's Address to the Governor of Colon.
COLON, Nov. 21.—During his official visit to Governor Melendez Thursday the French vice consul here, M. Bonhenry, said: "As I have had the honor to inform you before, France has decided to recognize the republic of Panama as a sovereign state. My credentials will be presented later. In the meantime the government desires to see established forthwith cordial relations between the administrations of the two republics. It is both a great honor and an intense pleasure to inform you of my government's decision to recognize the republic of Panama as a sovereign state. I offer you, Mr. Governor, the old republic's most sincere wishes for the happiness and prosperity of the new-born republic."

EXCHANGE OF NOTES.
The following are extracts of the recently exchanged notes between United States Minister Beaureppe and Foreign Minister Rico: Mr. Beaureppe wrote: "I have received cable message saying that the people of Panama are desiring a popular movement, have broken the political treaties with Colombia, have resumed their independence by the force of their own government, which has been recognized by the President of the United States, who desires that the people of Colombia and Panama arrive at a peaceful and equitable settlement of the questions in dispute. He declares the United States is bound by treaties and by the interests of civilization to insist that free traffic across the isthmus be uninterrupted by constant civil wars."

COLOMBIA ASKS VENEZUELA'S AID.
CARACAS, Venezuela, Nov. 21.—The official press here to-day published the text of a letter from the United States minister to Colombia, to President Castro, notifying the latter of the recent events in Panama and asking that he would use the sacred cause of sovereignty and the integrity of all the republics of Latin America to suppress the rebellion in Colombia. Colombia hopes that all her sisters of Spanish-America will co-operate with proofs of sympathy. Panama is ready to associate with her. Colombia is ready to perish sooner than abandon the principle of her integrity.
