

This Store Will Be Open Evenings Until Christmas.

# WASSON'S

Santa Claus Greet the Little Ones Every Day in the Big Toy Store. A Wonderland of Novelty.

## But Ten More Days for Holiday Shopping!

The month has crept on until it can no longer be a question of waiting. Christmas buying must be done at once—to-morrow—this week—or comfort and careful selection lost sight of. Early buyers have never been so numerous, so lavish in expenditure as this year; but there are still thousands who are but partially through or not even started. As usual, this store has made ample preparations to take care of these belated buyers. Freshened stocks are as attractive as ever. The small army of extra salespeople has been augmented by additional forces. Store service and delivery system perfected for rapid action, so the public may find at least one Metropolitan Establishment with all that the term implies.

The Wonderful Variety and Great Size of the Stocks Are the Potent Magnets.

### Fine Jewelry and Silverware

Two of the most attractive sections of the store, complete stores in themselves in fact; showing a remarkably varied line of novelties—the very late ideas, gathered from a double score of reliable makers and popularly priced. One may find many a clever suggestion in these departments.
