

JUSTUS C. ADAMS DIES AT ONCE Speaker of the House of Representatives.

Well-Known Business Man and Once Speaker of the House of Representatives. Justus C. Adams, a pioneer and one of the best-known business men in Indianapolis, died yesterday afternoon at St. Vincent's infirmary from the effects of organic heart trouble.

Mr. Adams was a native of Pennsylvania and was born in Philadelphia on Nov. 14, 1841. He was the son of Samuel C. Adams, of Philadelphia, who was the first man to invent and put into successful operation a machine for the manufacture of brick.

After his father retired from business Justus C. Adams went into the brick-making business on his own account and for a time operated extensive works at Sheridan.

Mr. Adams was engaged in the manufacture of brick at Marietta, Ga., where he had an extensive business. He was elected speaker of the House of Representatives in 1884 and served six years in the Common Council of the city, and was speaker of the House of Representatives in 1891.

Mr. Adams was considered much improved yesterday morning and was propped up in bed at the hospital, apparently hopeful and confident of recovery, when he suddenly dropped back dead.

Arrangements for the funeral have not been completed.

GEORGE W. MORLEY IS OF UNSOUND MIND A commission consisting of Justice Shepard and Drs. Harry Jacobs and Charles Wright, yesterday adjudged George W. Morley, 583 Fulton street, of unsound mind, and recommended that he be committed to the Central Hospital for the Insane.

A daughter of Morley, Mrs. Ella Fuston, asked the city attorney last week that her father was deranged, and Dr. Carlisle, one of the interested, investigated the case and filed an affidavit of Morley's insanity with Justice Nickerson.

Mr. Adams was considered much improved yesterday morning and was propped up in bed at the hospital, apparently hopeful and confident of recovery, when he suddenly dropped back dead.

EUGENE V. DEBS IS RATHER PESSIMISTIC Socialist Leader has an Audience of Coal Miners at Masonic Hall.

Mr. Debs spoke for more than two hours and did not dwell lightly or briefly on the wrongs of the capitalist or the weakness of the labor unions. It was the second time Mr. Debs has spoken in Indianapolis within the last few months, but the hall was well crowded, especially with miners, who are attending the convention in this city and of whom a great many are Socialists.

According to Mr. Debs, to speak plainly, the fault of the labor unions is that they do not vote the Socialist ticket. No matter how much the unions organize, said he, they can be destroyed, for economic strength is destructible. Only political strength is invincible. "A strike," said Mr. Debs, "is a contest between the human stomach and a steel bank vault."

Mr. Debs is a full-fledged union man unless he goes to the polls and votes the Socialist ticket and aids in destroying all things that stand in the way of the establishment of a regime in which "the working man will own the mine instead of working in it, and will be free in the fullness of the word."

Mr. Debs is a full-fledged union man unless he goes to the polls and votes the Socialist ticket and aids in destroying all things that stand in the way of the establishment of a regime in which "the working man will own the mine instead of working in it, and will be free in the fullness of the word."

WHEN WATER RECEDES REPAIRS WILL BE MADE City Engineer Jepp and Street-Railway Company's Engineer to Make Examination.

As soon as the water in the river subsides sufficiently to permit of a thorough examination of the piers of all the bridges that were damaged by the recent ice jams will be made by City Engineer Jepp and Thomas B. McMath, engineer for the Indianapolis Traction and Terminal Company, to determine the extent of the damage to the structure and what repairs may be required.

When the extent of the damage is ascertained specifications will be made by the city engineer and bids will be advertised for by the Board of Public Works, and the repairs to the bridges might be completed within ten days, but that of the abutments may be found to be more seriously damaged than was supposed at first, especially at the Northwest-avenue bridge.

When the extent of the damage is ascertained specifications will be made by the city engineer and bids will be advertised for by the Board of Public Works, and the repairs to the bridges might be completed within ten days, but that of the abutments may be found to be more seriously damaged than was supposed at first, especially at the Northwest-avenue bridge.

EXPRESS COMPANY WILL REPAIR BRIDGE BEFORE THE COURT Peculiar Damage Suit in the Federal Court.

A peculiar damage suit against the Fort Wayne Gas Company for \$125,000 was filed in the United States Court yesterday. In February, 1902, the house and contents of Mrs. Laura Bass, who lived on a farm near Fort Wayne, were totally destroyed by fire.

The action is that of James C. Fargo, president of the American Express Company, against former State Auditor William H. Hart to enjoin the State from certifying down to the various county auditors for collection an assessment made upon the American Express Company in 1877.

The Sunday Journal's Prize Winners

Following are the winners of the prizes offered for the best solutions of the "Bicycle Rider" and "Hidden City" puzzles in the Sunday Journal's Color Magazine Supplement on January 3.

- Winners Will Always Be Announced Third Week After Appearance of Puzzles. MARIE STONE, 325 W. Michigan street, Indianapolis, Ind. RUTH BOAG, 231 Broadway, Indianapolis, Ind. PAUL GOLDBERG, 221 N. Capitol avenue, Indianapolis, Ind.

The City that is hidden in the Barber's Sentence "Boss, here is a perplexing torsional problem, which is too hard for me to tackle" is "Lexington." The problem of the Bicycle Rider who rides a mile in two minutes with the wind and a mile in three minutes against the wind, bothered almost all the puzzle solvers.

Five Cash Prizes of \$1.00 are Awarded Each Week to the best, clearest, or most concise answers received, and a puzzle book to the other correct answers.

I will always be pleased to hear from the young folks and to receive contributions of original puzzles, mathematical and geometrical curiosities, bright conundrums, etc.

PUZZLE EDITOR, The Journal.
