

Campaign Sentinel.

The Weekly Indiana State Sentinel will be furnished for Three Months, during the Campaign, at the rate of \$25 CENTS A COPY.

Send in the names. The DAILY STATE SENTINEL is sent by all the early morning express and freight trains, and delivered to subscribers in adjacent towns about the same time it is distributed in this city.

A Mistake. The impression appears to prevail among many Democrats that we have no job office connected with the SENTINEL. This is a mistake. There is no office in the city that will print for us all kinds of BOOKS AND JOB PRINTING as we have (except large bill posters), and we will feel under obligations to all Democrats, not only in the city, but in the State, for any work they can send to our office.

Valuable Documents. We have for sale the following valuable documents, and ask Democrats in every County and Township in Indiana to ask together and send for them, for distribution: 1. Speeches of Hon. D. C. Voorhees upon the financial policy and frauds of the Administration party, and his vindication of his statements in that respect in reply to the comments of Mr. Dawes, of Massachusetts. These speeches show, from Republican record, the expenditures of the Administration; the amount of the public indebtedness, and the gross frauds that have been committed in the purchase of public lands, and the sale of public lands, and will be furnished at \$1 per hundred, and \$10 per thousand.

Speech of Richardson, and Address to the Democracy of the United States. The speech of Hon. W. A. Richardson, of Illinois, exposing the abolition schemes of negro equality, and what the tax-payers are paying for the experiment. In the same pamphlet (of eight pages) is the Address of the Democratic members of Congress to the Democracy of the United States, prepared by the Hon. W. A. Richardson, the most intimate friend of Senator Douglas. Price ten cents per dozen, fifty cents per hundred, and four dollars per thousand.

Calculate the Documents. These documents should be placed in the hands of every voter in Indiana, and of every citizen in a majority matter subject which has a deep interest for every citizen who desires to preserve constitutional liberty and to perpetuate the Union as framed by the Fathers of the Republic. Speeches should be ordered by Express, if possible, as the postage is a cent per copy, and as this must be prepaid, it is taken out of the money sent. All orders accompanied with the cash, will be promptly attended to.

Meeting of Council.—A called meeting of the Council was held last night to consider the remonstrance from the Ward in reference to the amended slaughter house ordinance. The meeting called to order and the object of it stated, and as the members from the Ward most interested—Messrs. Mc Nab and Kuhlman—were not present, it adjourned without action in the matter.

Armed Bark.—Yesterday a son of Mr. Fellers, the watchmaker, fell through the hatchway from the second story of Geisendorfer's store, in Blake's Block, and broke his arm between the front and back windows. The boy was playing with another lad of the same size, in the room above, and attempted to jump into a basket which hung on the hatchway rope. He either missed the rope or the basket turned, and he fell to the floor below. The trunk was a full house when the boy protruding through the skin.

Proclamation of the Governor, calling for eleven more regiments from Indiana, will be responded to by the people. Already there is a stir among that class of men upon whom the labor of raising recruits devolves—those who aspire to command. The bountiful harvest will soon be laid by, and when the wheat is in the barn, and the last plowing given to the corn, thousands will rush forward to fill the quota and keep the name of Indiana foremost among the loyal States of the Union.

Complimentary Benefit.—The complimentary benefit to the Sisters Webb comes to a close tonight at Metropolitan Hall. The correspondence of the subject will be given in this morning's paper. The plays selected for the occasion are such as will illustrate the peculiar talents of the young actresses—talents that have been the subject of such enthusiastic commendation here and elsewhere. We anticipate a full house when we advise those who wish to secure good seats to go early or secure them at the box office this morning.

THE RECENT EXCURSION FROM INDIANAPOLIS TO CINCINNATI VIA MARIETTA.—This trip on the Fourth of July last, was one of the most agreeable of the season. A splendid band accompanied the party, engaged expressly for the occasion. The magnificent grand as the music discoursed on board the Jacob Struler, all borne in the stillness of the night, air over the waters of the beautiful Ohio. To one and all of the officers managing this excursion, the thanks of the public are due. Conducting Mr. Wolf and Captain Charles David each exerted themselves, and succeeded in winning new laurels in the effort to make the trip agreeable to those they had in charge. On the next excursion of the kind by this popular route, undoubtedly all will go who desire pleasure and healthful recreation.

SLEEPY.—Sunday was warm—we have mentioned that fact before—and after the sweating heat of the day, the night was a most refreshing one. People stand more sleep in hot weather than in cold, anyhow. Get in the draft, put out the lights to keep the bugs out, and then with nothing but a light sheet over you, if you have the means, you can sleep like a top. Sunday night was eminently a sleepy one. At an early hour the streets were as quiet as the grave. The whole city was wrapped in repose, and all, we should say, but a few noisy spirits, who amused themselves in the line moonlight by transferring the signs in one end of the city door to door. In the morning the most laughable jumble of names, and the most intricate confusion of business was found on the streets. The city was in a most comfortable and refreshing condition.

PERSONAL.—Colonel Gavin, of the 7th Indiana, was in the city yesterday. The Colonel is looking well after the severe trials which he has been subjected with his gallant command in the mountains. The 7th is now at Alexandria, Virginia, where there is a prospect of their having a rest of a few weeks. The regiment numbers about 350 effective men, and they may well be called battle-worn veterans.

Col. Carr, late of the 28th, is also in the city. The Colonel is a gallant officer and a whole-souled gentleman. He may probably be induced to resign his command in the near future, and under the late call, and if so, we have no doubt but he could speedily fill it.

Lieut. Col. Spooner, late of the 51st, is at the Palmer House. The short rest since his return from Mexico, and his complete recovery, has completely restored his failing health, and he feels like responding to the call of the Executive, now that the country needs troops. Col. Spooner is an old soldier, although not an old man. He served in Mexico, in the three months' campaign in Western Virginia, and again in Kentucky and Tennessee, leaving there after the fall of Corinth, and when it was presumed the active campaign was over.

ENTERTAINING MEETING LAST NIGHT.—An impromptu meeting was held last night at the Bates House corner. The band of the 19th Regulars were in the evening proceeded to the Bates House to entertain the Hon. R. W. Thompson of Terre Haute, who was stopping there, and as the sweet music swelled on the air, a crowd began to collect around it. It was soon whispered that Mr. Thompson would make a speech, and somehow the whisper spread to the rest of the city, and by the time two or three times were played the crowd was very large. Mr. Thompson was called for and appeared on the balcony. He spoke with his usual eloquence. His theme was the situation of the country, and the duty of the citizen in the present crisis. He pledged the Terre Haute district to be the first to raise the quota assigned by the call to her. We have not space to follow his remarks. It was a strong appeal to the pride and patriotism of Indiana, and the effort called forth the loudest enthusiasm.

Governor Morton was called for. He first read the dispatch announcing the advance of McClellan, which called forth deafening cheers. He then spoke about the recent call for troops from this State, and appealed to the people to know if it should not be responded to. He spoke hopefully of the future, earnestly and well, and his remarks were well received and made a good impression. This is the first war meeting, and no one can complain of a lack of spirit or of fervor at the Capital on the subject. Indiana will furnish her quota.

EXCHANGE TROTTERING COURSE.—There was an exciting and interesting trotting race on this track on the 4th of July, which was largely attended by those interested in many sports. A purse of \$50 was offered for double teams to end with the fastest time, and the best time was made by the various Trotting associations which speakers and singers are liable. 6th-11-47-62

School Examination. INDIANAPOLIS, July 7, 1862. EDITOR SENTINEL: It has been my happy lot to present at the examination of the pupils of the Sisters of Providence, held at their institute in our city, on the 4th of July, and although they do not seek public praise, yet justice says that notwithstanding the division of their work, (many of them ministering now to our sick soldiers in military hospitals,) there is enough left, at least in the academic of our city, to conduct their school with credit to themselves and their pupils, as fully demonstrated by the recent examination.

My chief object, however, in this notice is less to praise the past than to inform your readers that on next Friday, the 10th inst., they may judge for themselves of the progress of many of the pupils in several branches by visiting the academy, when the Sisters will take pleasure to show to visitors among other things, a great amount of tapestry work done by their pupils during the year unsurpassed or even equaled by anything of the kind in any institution of our city. They will also equal above all recommendation of the industry of the pupils, the number of citizens, is the solicitude with which the good Sisters watch over the morals of the children committed to their charge. This, in fact, has been largely attended, although their buildings are spacious, they will be under the necessity of enlarging them if the patronage extended to their academy, and for which they are grateful to the public, continues to increase.

We are confident that the Sisters will always patronize schools where they know their children's morals will be properly guarded. Yours, respectfully, TESTIS.

MARKET. The market this week was unsatisfactory to both buyers and sellers. The butchers were deceived in the quality of the beef, which is largely grass-fed, and did not dress to suit them in either quality or weight, and the drovers found an inferior market than they had anticipated. Prices were lower, and in several instances their droves paid a pretty "smart loss."

SWINE. The market is so irregular that it is difficult to make quotations; prices are lower, and generally run in favor of the buyer, with slow sales at the decline. We noticed a good deal of business as they were last week, but they are more or less nominal.

ARE 25c lower. The receipts have been very large, and a considerable number were held over from last week. Tuesday night found nearly all sold, but the market has been a very slow one at the decline. We noticed a good deal of business, some of which sold at \$2 50 per bushel.

There has been too much stock offering, and prices are lower. The demand this week has been quite moderate, and there is a considerable number remaining unsold.
