Hitchcock, and Fitz John was placed in our hands how a procession was to be organized. We thought it was like our immense armies in the field, too big to be manuevered with advantage in any reasonable limits. But such did not prove to be the case. The President of the day, Lafe, Develin, Esq., assisted by an active corps of Marshals soon brought order out of any confusion that may have existed and formed a line that any field marshal might be proud to review. Conspicuous within that line were hundreds of the fair daughters of Indiana, who had come up with their husbands fathers and brothers to offer up their grateful thanks for the prospective restoration of law and order by the breaking of the shackles that had bound in chains the right arm of their native State. And here let us say that we never saw women more enthusiastic than were the ladies at the Cam bridge City festival. In the contest just closed, while the sky was dark and the storm was gathering, when the old Democratic ship was struggling with the billows. men who had professed to be leaders, who had been pets when the sky was bright, and the wind blew fair, had deserted their posts. It was always so. Some were terrified and fled, others. ambitious men who would secure power dishonorably, fled; but the people, always true to themselves, retired to their homes, to their farms and their workshops and their offices, in the hour of trial, to commune with sober thought, and they came forth at the appointed time and righted the floundering ship. They achieved a victory surprising even to themselves, and perfectly astounding to the Abolitionists.

He noticed the numerous influences brought to bear upon the elections to override and overawe the people. There were thousands of officers, civil and military, with pockets filled with money made by steam as fast as Mr. Chase could manufacture it. If a man was purchaseable he had only to name his price! Shinplasters were plenty. It was often asked what the initials S. P. meant before the surname Chase. It must mean Shin Plaster, and the S. P. C. must mean Shin Plaster Currency!

The cry of disloyal practices was raised and men were imprisoned on the most frivolous pretenses. He could tell these men who were peeping through key holes and smelling around after better and more loval men than themselves where they could find disloyal practices that would astouish them. Let them go to the ballot boxes. They would find 135,000 here in Indiana alone. If it was disloyal practice to rebuke those who administered the government they would find in all the great States he had named the ballot boxes filled with disloyal practices.

The railroads, the banks, the telegraph lines, the express companies, and another element that had of late defiled itself in the land-the Churches-were all arrayed against the people. The pure altars of Christianity were defiled, and the Disciples had huckstered in the markets The Churches had departed from the doctrines of Christ and him crucified, and taken up the Nigger and him glorified! There will be no Union, no peace, no hope, no country, until you drive out those who have defiled the Temple of the Savior of mankind, and restore the gospel in its purity. It is time to abandon the Abolition and the insane policy generally of the Congress Churches. Refuse them support. It is time to

they are." Mr. Vallandigham said that at one time he had almost despaired of the people, was almost forced to believe that the spirit of freedom had expired. Indeed, every American so loves his country that he would willingly have his rights suspended for a short time if he could be assured that the Government could be restored thereby, and the precious boon of personal liberty and constitutional rights remain uninjured. For thirty, or sixty, or even ninety days, the suspension of the forms of law might be endured. But there seemed no end This was to be a breakfast spell. It was the longest breakfast spell the world ever heard Breakfast was not over yet. The Secretary of State had assured us, time and again, and had sent the same word abroad, that the rebellion would be crushed out in ninety days. But it is not yet. A proclamation for the freedom of the nigger went forth, and a few days after, one for the servitude of the white man The authorities at Washington then found that there was a terri-

ble slave insurrection at the North. Mr. Vallandigham said that the campaign had only just begun. It must be kept up. We have a wily and unscrupulous antagonism to contend with. The man who could speak and write was no Democrat if he could not do both. The good old times will return. > SPEECH OF HON. GEORGE H. PENDLETON. Mr. Develin then introduced Mr. Pendleton as one of the ablest champions of Democracy in Ohio. He was greeted with vociferous cheering. Mr. Pendleton said that it gave him great pleasure to meet the gallant Democracy of Indiana and to rejoice with them, but he had desired rather to be a spectator than an actor. He wanted to see the Democratic traitors of Indiana-to see how they felt since the elections, and how the Abolitioists treated them. In Ohio they were treated rather civily now-indeed with consideration in some instances. The great circle of States that bound the Atlantic to the Mississippi had spoken. They were to be one, and what God had joined together let not Abolitionism dare to sunder. We did not come together to rejoice that this man or that was elected. It mattered not with the people, if he read their hearts aright, what man held this or that office, but the triumph was one that vindicated the principles upon which our Government was founded. The men we have defeated when they wished to be funny call us Butternuts, Copperheads, Vallandighammers, &c. They can't see how all this came about

> They abused Abraham Lincoln, but thought it cruel to be too severe upon a brother in affliction; then they abused each other, and finally set out by hunting up the causes of defeat. The Central Committee of Ind ana intend to publish on Monday twenty-two good reasons for the present state of things. The essence of all these twenty-two reasons is, that the county of Union failed to give its usual majority! There was a certain King of France once took a journey through his dominions The select men of one of the towns he was approaching got up an address giving fifty two reasons for not saluting him with artillery. They began to read. The first reason was they "could not get a cannon!" "Stop," said the King, "that is reason enough!" Now why was it they could not get their usual majority in Union county, why not here and in other places? It was because the party in power have violated the Constitution and sought to enslave the people.

Mr. Pendleton then presented the issues as made up by the parties in the late contest. He dwelt eloquently upon the arbitrary arrests, the violations of the Constitution, the iniquities of the tariff, to which the people of the West could not be blind, the proclamations freeing the ne groes and declaring martial law, the startling frauds on every hand in the public expenditure, and the Administration. These were the reasons why Union county did not give its usual major

And now, said Mr. P., the Abolitionists ask us what we intend to do. We intend to go on s curing Democratic victories until we get the pow er, and then we will maintain the Constitution as it is, and restore the Union as it was. We will compel the Abolitionists of the North to submit to it, and we will compel the Secessionists of the The Sunday schools were used as a lever to South to obey it also!

Mr Pendleton closed with a strong appeal to the people to be above party-to be in these times of tempest and of storm for the country and its sheet anchor, the Constitution, which alone could save it. His speech produced a profound impression, and we regret that we have not space to present at least its leading points.
