Loving Brothers. The Journal says that JEFF, Davis is an Abolitionist. If so, the rebel chieftain has out heroded Herod. He has stolen the Republican thunder, the very object for which the party in power has urged the "vigorous prosecution of the war." Hence, to use the language of the court ergan, the Republican "dog is dead. His bark is silent hepreforth for evermore." JEFF DAVIS has killed the (abolition) beast and stopped his yelp. Rebel papers say that he and his Cabinet have agreed to "call out 50,000 slave soldiers. and give them their freedom for a bounty and 500 acres of land for pay." This goes far ahead of Lincoln's proclamation, which only proposes to give freedom to the slave, but no bounty. I slavery is the cause of the war, as Republicans insist it is, JEFF. DAVIS & Co., representing the slave interests of the rebel States, offer far better terms to the pegroes in bondage than the most ultia Abo litionist. It is not only freedom, but : homestead in the bargain. The radicals have said remove the cause of the war, which they averred was slavery, and then there would be no occasion for further strife. But JEFF. DAVIS says to the negroes, "fight for Southern independence, and not only freedom but a large bounty shall be your reward." So the Southern niggers are now invited to fight the white men of the North not only to secure freedom but "free homes," and to protect the property and families of their masters. The Northern Abolitionists have made emancipation the condition of acknowledging the independence of the Confederate States, and the Journal gave "Japp. Davis and his Cabinet" have become "Abolitioniste." The cause being removed, as a matter of course Lincoln will declare a cessation of hostilities. If the party in power is consistent, peace must ensue. There is no longer cause for war. To repeat the language of the Journal, "The (abolition) dog is dead. His bark is silent henceforth and forevermore."

We understand he was formerly a stage driver and in that capacity exrned sufficient money to purchase a small farm in Western Missouri. In the border difficulties between that State and Kansas his farm was desolated, and a brother who occupied it was wantonly murdered These difficulties probably occasioned the recent terrible tragedy in Lawrence and in the raid he was undoubtedly assisted by Missourians who had been subject to similar grievences and all arising from the partizan border warfare which has grown out of the so-called Kansas troubles. From the Richmond Enquirer, Aug. 24 Exchange of Prisoners-Little Hope that a Satisfactory Conclusion can be Reached.

This day Mr. Commissioner Ould meets for the first ame the new General Commissioner, a cer tain Gen. Johnson and Wilson, and that the fact be comunnicated to the authorities at Richmond. Very respectfully, your obedient servant.

> The Hon Gideon Welles, Secretary of the Navy: Thus issue is joined. We take it to be quite mpossible that our Government will vield one ot on this vital point; but the first demand of the new Federal Commissioner will be that we at once consent to put the negroes on the footing of our own troops, and value them against each ther, man for man, and grade for grade. That being refused, as it must be, the conference, no doubt, will be broken off; and there is an end of

This attempted outrage by the Yankee Gov. ernment is the first fruit of their temporary luck in holding an excess of prisoners. It was sorely against their will at first that they consented to astitut ons, and ought not to be encouraged, because any cartel at all and regarde ! Confederate prisoners in any other light than that of captured malefactors due to the penitentiary or the gallows. With spiteful rage they found themselves com pelled to provide for the safety of their own great multitude of prisoners in our hands, by an ar been sure would have been observed only so long as they thought they would suffer more than we for want of such an arrangement. They avail whey from the public treasury without authority of law, themselves of the first opportunity to assert their on the side of what they call "the law;" they are suppressing an insurrection, they say, in their they not only adopt the utterly barbarous expedient of exciting servile insurrection, but they in form us that if the erevolted negroes are restored to their masters, they will put an equal number of Confederate citizens to hard labor. It is not merely the insolent pretension of a regular gov eroment affecting to deal with "rebels," but it is deadly stab which they are aiming at our in stitutions themselves, because they know, if we

were insane enough to yield this point, to treat

black men as the equals of white, and insurgent very houndation of slavery would

erents, but as maje actors-to deal with us pot by the usages of civilized warfare, bot by the rules of criminal jurisprudence, is a fact which we have now to look full in the face, and to meet as best we can. The theory is very well expounded by a passage which we find in the old letter of an Ohio correspondent to the New York Tribane, describing the unmanly outrages perpetra-ted upon our gollant Gen. Morgan and his officers. The writer says:

"-hove and wash and clothe a General II - a general convict! If you explain that it is John' due, af a horsethi-f they are so sugry that they tell you it a just what the Fed ra. Government has been doing at through. When you point out that a Government of a do some things which private bodies can't—as a shirt can take lawfully what a burglar can not-they tell you there who a Government as it e other; that one is a Government and the other is not, and so on."

Just so-here is the principle stripped naked.

The enemy has a right to take horses and everything else in our country; we, if we retaliate, are horse thieves. Milroy, and Butler, and Banks are agents of the lawful Government, but Lee is a private person, merely stealing. They are the con-tituted authorities; we are labeless per sons evading or resisting the sheriff's officers Their prisoners in our hands are entitled to respectful usage; ours captured by them are entitled to nothing but condign punishment for their crimes. If they yielded for a time to our supe rior force, and agreed to exchange on equal terms, it was still under protest, and with the firm resolution to make as suffer for & ten-fold the moment they should have the advantage On the same principle, also, the forbe-rance of Gen. Lee in Pennsylvania was received as a matter of right; for the criminal at large had no title to retaliate upon the officers of justices and the with sincere pleasure, not so much because their people were spared as because ours were degreed by it. Our retraining from retaliating the desolation which they had visited upon our country, had at least the appearance of accepting, on our part, the character of criminals which & is their

policy to mpose upon us. Under these circumstances, what hope is there of the arrangement of the cartel upon a footing of equali v? Will Lincoln's government renounce that audacious pretension to treat us as criminals? Or will it, after deliberatel enlisting our runaway negroes into its militart service. consent to give them up to be dealt with by our State laws as insurgents? We know serv well what these questions all tend to. We have long perceived that the time is at hand whee no more prisoners will be taken. Our peops and our troops are entitled, at the hands of the government, to such protection as a gover-ment can afford them. Our soldiers entered the Donfederate service as the soldiers of a regular government, and they cannot afford to meet me enemy in the character of maletactors. If there is to be

no exchange on equal terms, better there should be no exchange at all-better that the enemy should understand there will be no quarter asked nor given; and then at last there will be equality.
