The autocrat of fashion in this metropolis is Stoworthy, North Meridian street. His artistic cutter is posted tri-weekly direct from Paris, and Stoworthy's importations of foreign fabrics, and his dandified goods, are of the most beautiful styles and elegant texture.

The Major, yesterday, had before him some gay, inevitable and perfidious personages, upon whom he adjudicated for getting drunk. His honor is an honest man—the noblest work of God. No further business was transacted.

We understand that with regard to houses of doubtful reputation within the corporate limits, our unimpeachable police are preparing to become more active and retroactive than ever. Every good citizen will encourage them in their good work.

THE U. S. Commission, trying last to convene, yesterday at 2 o'clock P. M., took another recess, on account of the absence of Major Burnett, the Judge Advocate, this afternoon at the same hour, in the court room of the federal building on the southeast corner of Pennsylvania and Market streets.

A new book by Bassett Taylor has just been received at Bowen, Stewart & Co.'s. John Godfrey's Fortune is its title. The Albany Evening Journal says:

"It is worthy of the genius of its author. The story is full of character. Its depiction of life is graphic and truthful. Hannah Thurston will be eagerly read."

Magnificent fish, eels, fresh mackerel, halibut, salmon, cod, oysters, lobsters, crabs, and every delicacy ever yielded from fresh or salt water, are to be found in the well-stocked grocery of friend Thompson, at Houghtaling & Co.'s renowned family grocery, West Washington street, south side, east of the Palmer House. Call upon Thompson for fish.

Yesterday there were seven thousand hogs in the pens at the pork house of Ferguson & Mansur, on White river, and more hours arriving. The soft weather had put an entire stop to slaughtering. What is stated with regard to the cattle market at Messrs. Ferguson & Mansur, is true of every hog here living in the city, precisely and vicinity. So soon as the thermometer indicates the kick of time, then simultaneously will the murderous work begin. No snares yesterday for hogs at any price, owing to the stringency of the money market as well as other causes.

SINGULAR OCCURRENCE.—Yesterday, at one of the cemeteries in this vicinity, the mortal remains of a brave soldier from the front, where he fell gloriously in the cause of his country, arrived, attended by those who sincerely mourned his loss. Solemn was the procession of sorrowing friends, and paid to the last the sad rites of the deceased. Until the arrival of the sacred remains of the dead were reached, it was found that no grave had been dug and no preparations made for the mournful ceremony. Thereupon a dispute arose between the sexton and friends, which resulted in the shooting of a gentleman seriously in the thigh. Dr. Jameson and Punkhouser dressed his wounds.

## A Peep into Marriage.

In the Flynn, Ohio, Democrat, of last week, we find the following marriage notice:

November 5th, 1864, "posthally," Rev. H. T. Delano, Will B. Durand, of Henrietta, Ohio, to Miss Emma Beckbridge, of Rawsonville, Ohio. No cards.

The Cleveland Herald, commenting on this "posthally" marriage, suggests that perhaps the person was a widow and the happy pair were married in "short measure" after the following fashion:

This woman I will take,  
That stands beside me now;  
I'll find her board and clothes,  
And have no other wife!

MINISTER.  
And for your husband will  
You take a nice young man;  
And when I see him come,  
And love has all you can!

HIRE.  
I'll love him all I can,  
Obey him all I can,  
If when I ask for him,  
He never does refuse.

MINISTER.  
Then you are mad and wife,  
And how do you get by?  
Are you for four years,  
As dollars may be fee?

SUPREME COURT OF INDIANA.

MONDAY, NOVEMBER 28, FIRST DAY.

Present, Hon. James M. Hanna, Chief Justice, and Hons. Samuel E. Perkins, Andrew Davidson and James J. Warden, Judges.

HAMS Cured with Dry Sugar.

A correspondent sends the New York Observer the following interesting advice on this subject:

The meat must not be allowed to freeze under any circumstances—freezing destroys the property of the juices, which prevents any application of sugar, molasses, or salt from uniting with and forming the chemical combination which gives them their taste. Separate the fat and lean, and season them on the outside of the steaks, the thick part, with the butt elevated three inches more than the shanks, bearing in mind through the whole process that the retention of the juices is the chief object of the cure.

The Greylhound was almost entirely enveloped in flames, and notwithstanding every effort to save her, she was burned to the water's edge.

Two horses belonging to Gen. Butler and staff were burned to death.

Shortly before the accident, the Greylhound had received from the steamer Cossack the army horses of Gen. Butler's department, which left Washington yesterday morning, and it is supposed to be lost.

The Webster brought up 59 rebel prisoners.

One or more of to-day's morning papers erroneously attribute to the Washington reporter of the associated press a telegram saying the pirate Florida and crew are to be returned to Brazil, and purporting to give an account of the action of the government on the subject. It is sufficient at present to say, on authority, that the statements are without foundation.

WASHINGTON, November 28.—Judge Bates' resignation as Attorney General will effect on Wednesday.

The trial of Col. North and Jones in law, with whom he is connected, so that the smoke升from near a dry floor, the smoke升sets on the most after being cooled. Hot smoke should never touch meat. Smoke very slowly, using green hickory smothered with green saw dust from white or bark oak timber, if you can get it. I have never used anything else, and therefore cannot speak of the merits of corn cobs or sausages; but as a rule use timber that smokes red, not black; during the last six hours smoking red peppers on the fire; it keeps off the skelepers.

You may know what are the advantages gained by curing hams by this expensive process. Well, they are weight and superior quality; as to their keeping, I never had a chance to ascertain it. Hams cured in this way, being "gobbled up" immediately when placed in market, their keeping qualities don't get a chance to develop. Each recruit who preserves his arms to the end of his term may retain them as their own upon being honorably discharged.

The original order for the Wachusett, to Boston, was to proceed to Hampton Roads, was to proceed to Boston for repairs, taking with her the prisoners captured on the Florida, to be consigned to Fort Warren.

Before the order reached the vessel the prisoners had been sent to Point Lookout, and in a day or two were transferred by the army authorities to the Old Capitol. They were immediately ordered back to Point Lookout to be returned to the Wachusett, which at once sailed for Boston.
