

FINANCIAL & COMMERCIAL.

INDIANAPOLIS, Saturday Evening, June 24, 1865. Money is easier and the deposits in banks are increasing. The larger amount of currency recently paid out at the point to soldiers is finding its way back to the banks through the channels of trade.

Such is the scarcity of corn that several car loads have been received here from Illinois for sale on commission, to supply the local demand, the first of such consignments that our commission grain dealers have ever received.

The quality is generally fair, with several drives of heavy Illinois steers. The light arrivals and cooler weather enabled holders to advance the rates 1/4 per cent on the average—more than at the opening Monday morning.

Government took 70 very fine steers for shipping to Hillon Head and Key West, on the new contract price of \$3.35 per cwt. The following are the quotations:

Table with columns for 'Buying' and 'Selling' prices for various commodities like Gold, Silver, and Government Bonds.

Revenue stamps are sold in increments of \$20 to \$100 at 2 per cent discount, from \$100 to \$200 at 3 per cent discount, and over \$200 at 4 per cent discount.

DR. JOHN BULL'S COMPOUND CEDRON BITTERS. The Latest and Most Important Discovery OF THE NINETEENTH CENTURY!!!

No man's name is more intimately connected with the history of MATERIA MEDICA of the United States, or more favorably known as a pioneer in Medical Discovery than that of

Dr. John Bull, of Louisville, Kentucky.

His Compound of WILD CHERRY has become a household word throughout the West and South.

As wide spread as the continent of North America. But the crowning glory of his life remains to be attained in his discovery, or rather combination, for he does not claim to have discovered CEDRON BITTERS.

While Dr. Bull is not prepared to endorse this extraordinary preparation, he is nevertheless satisfied from a thorough examination of the evidence relating to its virtues, that as a remedy and preventative of all diseases arising from exposure, either to change of weather or climate, or to miasmatic influences, it stands

without a rival! And justly deserves the reputation it has long enjoyed in Central America and the West Indies.

ADD ITS ATTENDANT TRAIN OF SYMPTOMS, IT ACTS MORE LIKE A CHARM than a medicine. There is nothing in the whole range of Materia Medica that can for a moment bear a comparison with it in this disease.

A full account of this wonderful plant may be found in the 11th edition of the U. S. Dispensary, pages 1387 and 1388.

A series of experiments in which Dr. Bull has been for years engaged, has just been brought to a successful termination, and he is now enabled to offer to the public a combination of CEDRON with other approved tonics the whole preserved in the best quality of copper distilled Bourbon Whisky, which he is confident has a equal in the world.

He might furnish a volume of certificates, but he has long since learned to estimate such things at their true value. The safest plan is for every one to try for himself the virtues of a new medicine.

Without a rival! And justly deserves the reputation it has long enjoyed in Central America and the West Indies.
