PAINTER WANTED.—A Compositor wanted at this Office.

Yesterday was another oppressively hot day.

The City Council meets to night, in regular session.

The Board of County Commissioners meet to-day.

Mr. Long, undertaker, attended the funerals of four children yesterday—two from the country and two from the city.

The street cars were full yesterday all day. Our people are beginning to appreciate the pleasure and convenience of the city railroad.

The number of dogs in the street are gradually diminishing. The Washingtons have been shot, and the owners are trying up and muzzling all they think valuable.

One thousand dollars a foot is the asking price for property in desirable locations in Washington street, with good improvements. The tax assessor had better make a note of this.

The gutters of the city are still in a filthy condition. Some of them have been cleaned, but stagnant water and fish can be found in most of them, breeding disease, if not pestilence.

The One Hundred and Twenty third Regiment, raised in the Fourth and Seventh Congressional Districts, arrived yesterday afternoon, and took quarters at the Soldiers' Hotel. They are a hardy looking set of men, about 350 strong, and have seen service.

We are told the Street Railroad Company have determined to extend the Washington street track to White river. The rails on West street have been taken up to be used in the extension. This will add greatly to the business on this line, and make it one of the best in the city.

Mrs. Senator Chase Sprague, following the example of more common people, has a baby—a boy about five weeks old. Mrs. Sprague's mother-in-law presented her with \$500.00 for her, which she settled \$100.00 on the fortunate little stranger.

The Metropolitan Theatre opens to night, with new faces, new scenery, a new drop curtain, and a variety of new attractions. It is always a favorite in this city, and in the Colleen Bawn, with a strong cast from the company for the other characters. Of course the house will be filled.

ATTEMPTED SUICIDE.—A young lady, of education and refinement, attempted suicide on Friday evening, in the southwestern part of the city, by taking two ounces of laudanum. Disappointment in the Soldier's Hotel. Through the aid of Dr. Carter she will probably recover.

A friend remarked to us on Saturday that he saw nothing very important or connected in the speech of Mr. Martindale, at the Chicago Board of Trade Festival, which we published that morning, but in fact it read to him very much as though it were a sermon, and he was under the influence of Chicago hospitality. Very likely.

OIL FEVER.—Some of our citizens felt very good on the oil question yesterday. News was received Saturday night that a 300 barrel well had been struck, in Kentucky, on the piece of land adjoining the piece on which a company from this city are boring. They now feel sanguine that they will get oil, and have a good thing ahead of them.

THE SUNDAY VARIETIES.—The Sunday variety of amusement and entertainment offered by the Governor Morton yesterday evening was well regulated theatre. First, there was preaching and praying at 10 o'clock; at 4 o'clock an excursion; at 7 1/2 o'clock a temperance lecture, and a dance at night, with good music on hand. Under such a variety of entertainments the Morton will soon pay expenses.

ROTATION IN OFFICE.—President Johnson should continue his good work of displacing the Chase radicals from their snug berths in the Custom House, Post Office, and Internal Revenue Department. In selecting their successors he should bear in mind the claims of our discharged soldiers, who are too deserving to be forced to run errands about the streets for a live lioard.

SOME LOVE.—A friend picked up a love letter in the street, from a gushing virgin to her devoted adorer. The lady didn't spell well, but she has "stew love." We copy part of the letter, as a sample of the kind of love letters that our lovers to take better care of their letters and not drop them in the street. The spelling is just as we give it:

"The ros is red the violet blue the world is lovely and so you and I am the only member mee the far a way I am but still my lov is true to you."

The reader can pronounce to suit himself.

POLICE MATTERS.—Saturday was a quiet day at the Police Court.

John Morrison and John Williams were each sent up ten days for intoxication.

John Trotter paid \$1 as witness fees for depositing \$1 in the gate on Illinois street, between Washington and Market streets.

Henry Geisel was sent up for twenty days, for assault and battery on Henry Cook.

John Morrison was sent up for fifteen days for disturbing the peace.

William Lutz, pleaded guilty for stealing a watch, coat, &c., from Geo. Hetkam, and went to jail in default of \$500 bail.

A NICE SPECULATING SCHEME.—Some gentlemen interested in the iron market, who have large stocks on hand, have devised a very handsome scheme to fill their pockets at the expense of the public. They propose to Congress to add largely to the duty on iron. This would immediately raise the price, and they would realize their millions of dollars from the rise of their stocks on hand of the farmer and consumers of iron. It is the old whisky dodge over again. They have printed pamphlets, and are working hard for their cause, and they would have already some newspapers advocating it, and will doubtless be at Washington next winter with a formidable lobby! Look out for them!

We find that the interest in the gas question is not extinguished, but that the gas companies have an eye to the matter, and watch closely every move in the Council on that question. As a new company will require a monopoly of the business for at least fifteen years, the present price of iron, steel, and railroad fare is not so high as it was, and it is not so easy to calculate prices. The price is now over, and prices of everything will soon be back to their former standard. When the present company commenced operations with everything to buy up, and a population of six to eight thousand to supply \$3 75 per thousand feet was considered a good price by them, and was all that was charged until within a few months. At this price the company has not received \$500,000. What cost them \$50,000 they now hold worth \$500,000, all the increase being the earnings of the company, besides three dividends declared. If the company could furnish gas at \$3 75 for the last 14 years, and increase their capital at this rate, it appears to us, with the present population, and the certainty that labor will soon get to a peace level, that \$2 50 a thousand feet would be a large price. This is 25 cents per thousand more than a company in Cincinnati offered to supply that city for. In addition to this, the street lamps should be lit at Cincinnati prices. We are told that the company can to-day declare a dividend of 100 per cent on their invested stock, and they policy to do so. We have a new committee on the gas question in the Council, who, it is believed, will see that the interests of the citizens are protected before a charter is granted, binding for a term of years.

Mastering Out of Staff Officers.—A Correction.—Frederick Neward.

WASHINGTON, Sept. 3.—In obedience to orders from the War Department, the work of reducing the number of staff officers on the staffs of Commanding Generals is still progressing.

General Skinner, United States Treasurer, in a complimentary letter from the Secretary of the Treasury, in which, alluding to the fact that the General has had only a nineteen days absence from the service, and that he has not been absent for four or five weeks, has been granted four weeks' leave of absence.

The statement that Mr. Kennedy had been conditionally offered the Presidency of the U. S. Telegraph Company, was made, a month ago, and was supposed to be good authority, but it now turns out that the election is yet to come off, consequently the announcement was premature. It is probable Mr. K. will await the Presidential and Congressional action on the census affairs before engaging in other pursuits.

Frederick W. Seward, Assistant Secretary of State, has so far recovered his health as to be able to attend to business of a private character, and intends to resume the duties of his office in a few days.

DAVIS' HEALTH.—Arrest of Capt. Winder.

NEW YORK, Sept. 3.—The Herald's Fortness Moore correspondent says: Jeff Davis walked out yesterday, for the first time in four days. He is laboring under another attack of erysipelas, but it is not so violent as the one he had a few days ago. It is now believed his trial will shortly come off.

Gen. Miles, having ascertained that the rebel Capt. Winder, son of the deceased rebel General Winder, had been sent to the military prison at Fort Mifflin, Pa., he immediately issued an order for his arrest. Captain Hitchcock, the Provost Marshal, made the arrest this morning, and the prisoner was taken to Washington, to await such disposition of him as the military authorities may direct. I am told that in his treatment of our prisoners he claims to have acted entirely and solely in accordance with the instructions of his Government.

General Lee Writing a History of the War.

NEW YORK, Sept. 3.—The Herald's Richmond correspondent says: General Lee has within a few days practically set about the task of writing a history of the war. The forthcoming work will be written from a rebel stand point, and this view will constitute an exceedingly reliable contribution to the historical literature of the country.

General Lee is living in great quiet on an obscure, well-shaded farm, the property of a friend in Cumberland county, Virginia. His sons and a nephew, with comparatively slight aid, have raised a magnificent crop of corn on the White House farm.

Wm. Allen, formerly returned from Washington last evening, having with him his pardon papers, granted to him by the President of the United States. Mr. Allen is confessedly the wealthiest man in the State of Virginia, as he was before and during the war.

Improvement in Printing Fractional Currency.

NEW YORK, Sept. 3.—The Herald's Washington special says: The printing of fractional currency notes upon the new membrane copy has been temporarily checked by a slight disagreement between the inventor and the Department of Finance, as to the exact nature of the paper to be used. Evidently when a decision is arrived at by the Secretary, the public will be supplied with a fractional currency, the successful invention of which, will be the skill of the oldest and best of our countrymen.

It will be a paper of an exceeding fine texture, and the paper under the treasury building, and from its texture and finish the least expert in money will be able to distinguish the genuine notes.

Not the least, among the many excellencies of the new currency, is the fact that it will wash.

Southern Emigration to Brazil.

NEW YORK, Sept. 3.—A correspondent of the Herald writes from Rio Janeiro, on the 12th ult., to make an examination of Don Pedro's Southern States, and will return a report on their advantages for the settlement of Southerners.

Our correspondent estimates that upwards of 50,000 of our Southern emigrants are now ready to emigrate thither, and should the reports of the agents be favorable, he gives it as his belief that this number will be greatly increased.

From San Domingo.

NEW YORK, Sept. 3.—Advices from the Republic of San Domingo, to the 8th of August, were to the effect that the French had completed their evacuation, and that the Dominicans are now in the undisputed possession of all their territory.

The previous announcement of the deposition of General Cabral, as President of Haiti, and the appointment of General Cabral, as Protector, is confirmed.

A National Convention was to be convened, for the purpose of taking measures to form a permanent government.

The forthcoming Indian Council.

St. Louis, Sept. 3.—A Commission consisting of Newton Edmunds, Governor and ex-officio Superintendent of Indian Affairs of Des Moines Territory, Edward B. Taylor, Superintendent of Affairs for the Northern Superintendency, Major General Curtis, Brigadier General Sibley, and Henry H. Keed, of Iowa, and Owen Guernsey, of Wisconsin, have been appointed by the President to negotiate, under instructions of the Secretary of the Interior, for treaties of peace with the several tribes of Sioux and Cheyenne Indians of upper Missouri, and any other tribes in that region who recently have been engaged in hostilities against the United States. The Commission will meet at Council Bluffs on the 10th inst., and proceed to Fort Rice, where a council will be held on the 15th of October. Quarters have been taken for the different tribes of the Sioux, and they are to meet them at that time. Owen Guernsey, Capt. Ruth, Secretary, and R. B. Hill, Reporter of the Commission, are now in this city.

Clashing Between the Military and Civil Authority in Mississippi.—Large fire at Shreveport.

CAIRO, Sept. 3.—A Jackson, Mississippi, dispatch to the Memphis Bulletin says: The action of General Osterhaus in taking the prisoner from the court-room while on trial for an offense against the civil authority created much excitement among the people, but considerable credit is given to the President who sustained Gov. Sharkey.

New Orleans dates say 300 bales of cotton are burned at Natchez, Alabama, on the 22d ult.

It is reported that the greater part of Shreveport, La., including a considerable amount of cotton, is burned.

Thomas W. Conway, Assistant Commissioner of the Freedmen's Bureau, reports only 400 negro vagrants in Savannah.

The Trial of Wertz.

WASHINGTON, Sept. 2.—The Wertz Military Commission assembled to-day, Mr. O. S. Bledsoe testified that he had been in the Sixth Illinois Cavalry, and was a prisoner at Andersonville, from the 8th of March until September 18, 1864; he thought Captain Wertz assumed command on or about the 1st of April; on one occasion Wertz came into the camp, and a cripple on crutches approached and asked to go outside, the request was refused and the cripple said he would rather be shot than stay there; witness soon heard Wertz hold to a sentinel, "tell that man if he don't go back he will shoot him;" the man did not return, when the sentinel fired at him and shot the cripple in the jaw, the cripple was known by the name of Chickamauga; Wertz afterward threatened to shoot the others if they did not go back; witness saw the prisoners being divided into squads of a hundred in each squad, one of the men, owing to sickness, did not fall in, Wertz threatened to shoot him and did shoot at him, the ball passing through the chest; witness saw the man shot in the sun all day and not allowed to procure water if he did not give a satisfactory account of any one of their number missing, they were deprived of their rations; this was the case for the whole term, in July there was not sufficient rations in the prison for the men to stand up; the limits were enlarged on the north side; there were 42,000 prisoners there at one time; Captain Wertz says he is willing to bet \$10,000 that he did not give a satisfactory account of any one of their number missing, they were deprived of their rations;
