NEW ORLEANS MARKETS.

OFFICE OF THE DAILY CRESCENT,
Tuesday Morning, October 21, 1862.

COTTON—There was but little activity in the demand yesterday, the accounts brought by the Arctic having been rather less favorable than usual to have been anticipated, and the sales were limited to 3500 bales. Prices were rather easier, but not sufficiently depressed to require any material alteration of our figures:

COMMERCIAL SUMMARY.

Foreign Markets—per Franklin.

Wright, Gandy & Co.'s Circular.]

LIVERPOOL MARKETS—*Liverpool*, September 26.—At the close of last week there was a stronger Cotton market, which our report per Asia confirmed. On Monday, although offerings were free, there was a good demand and holders exhibited much firmness, rejecting any but extreme rates, which were currently paid. The American arrived early on Tuesday morning, and business opened yesterday with an active inquiry, which continued throughout the day, and in which all classes participated; consequent upon more decided advices as to the injury sustained by the growing crop, and the expectation to indulge in excessive figures for the coming season's yield; prices advanced 1-16@⅛ ₱ lb. at which, however, the demand was freely supplied. Speculators operating to a fair extent, more particularly in the early part of the day. The market closes to-day with fresh life, and an animated call for qualities ranging from low middling to good middling Orleans and Mobile, with staple, while the better and lower grades, particularly of boweds, are comparatively neglected, and upon which no change in prices can be noticed.

The sales are estimated at—

On Saturday 5000 bales; 300 speculation and export—5300 American.

On Monday 12,000 bales; 5000 speculation and export—7000 American.

On Tuesday 8000 bales; 3000 speculation and export—5000 American.

Import for same time is about 35,000 bales.

PRICES TO-DAY.	Fair.	Middling.	Ordinary.
New Orleans	6¾ to 6¾	6¾ to 6¾	4¾ to 5½
Mobile	6 to 6¾	5¾ to 5¾	4¾ to 5½
Atlantic	6 to —	5¾ to 5¾	4¾ to 5½

The Manchester market presents a very firm appearance, and the hardening tendency of the Cotton market has caused producers to ask advanced rates for Goods and Yarns, especially those suitable for India, which, however, has checked operations.

Domestics still continue depressed, and manufacturers contemplate reducing supply by short working of their mills.

A liberal import of Breadstuffs has tended to check operations in our Grain market, and recent arrivals of American Wheat have been in more moderate request, at a decline of 1d per 70 lb.

Flour continues to command full prices for first qualities, but inferior parcels ex ship, have been sold at less money.

Indian Corn in limited request, but holders show no desire to accept lower rates for stock on hand—parcels to arrive continue in request at late quotations.

From A. F. & R. Maxwell's Circular.]

Liverpool, September 23—Corn Trade—The arrivals from Ireland and coastwise during the past week have been small, but from foreign ports we have received 21,454 qrs. of Wheat, 2270 qrs. of Oats, 6532 qrs. of Beans, 3710 qrs. of Indian Corn, and 2955 sacks, and 2441 barrels of Flour.

The exports in the same time comprise 2657 qrs. of Wheat, 2261 qrs. of Indian Corn, 1103 sacks and 14,005 barrels of Flour. The trade has been quiet for Wheat, and prices a shade easier. Flour, however, has met with a fair comparative demand, and maintained its value. Notwithstanding the large arrivals of Indian Corn off the coast, this article, being in very good request, has rather improved in value than otherwise, 27s3d to 28s ₱ qr. being obtainable for Ibrails, and 29s2½s 6d ₱ qr. for Galatz, arrived off the coast.

Several parcels of Egyptian Beans have come forward, and the value has been well maintained. In other articles no material change has taken place.

GRAIN—At this day's market there was a moderate attendance of the trade, who, however, showed little disposition to buy, and nearly arrived American Wheat in Flour were offered from 24s to 25s, spy at a decline of 1d to 2d ₱ 70 lb, and 3d to 6d ₱ bbl on the prices of this day week, without much effect. Parcels in store, however, were not obtainable on materially lower terms

New Oats and Oatmeal were without change; but old mealing Oats being scarce, were saleable for rather more money.

Barley, Beans and Peas met with a fair retail sale, at full prices.

Indian Corn on the spot was without alteration in value, and floating cargoes brought extreme rates in the sales made.

London, September 28—Sugar—At auction 180 hhds Barbadoes sold at from 33s to 40s; 360 hhds 100 bbls St. Lucia sold at from 29s to 37s; 77 hhds 50 bbls crystallized Demerara sold at from 30s to 38s 6d; 5600 bags Mauritius mostly sold at from 24s to 29s for dark to good brown; 720 bags Bengal, half sold, white Benares at from 34s 6d to 39s; Mauritius kind, at from 32s 6d to 38s; and Manilas, at from 30s to 34s. In the West India market, 1000 hhds sold; the market quiet, but steady. The refined market quiet.

TALLOW—Continues to improve. P. Y. C. now is 41s 6d. The stock is now 24,450 casks against 32,143 last year. The deliveries since the last of June have been 39,893 casks against 35,938 last year. The arrivals were respectively 17,451 and 19,543 casks.

OILS—There has been no alteration in these markets, which are firm and steady.

LONDON MONEY MARKET—*London*, September 28—The quotation of Gold at Paris is about one ⅛ mille premium, (according to the new tariff,) which, at the English Mint price of £3 17s 10½d ₱ ounce for standard Gold, gives an exchange of 25 10½; and, the exchange at Paris on London at short being 25.20. It follows that Gold is about 0.42 ₱ cent. dearer in London than in Paris.

By advices from Hamburgh the price of Gold is about 400 ₱ mark, which, at the English Mint price of £3 17s 10½d ₱ ounce for standard Gold, gives a mint charge of 13.73; and, the exchanges at Hamburgh on London at short being 13.63, it follows that Gold is about 0.35 ₱ cent. dearer in Hamburgh than in London.

The course of exchange at New York on London, for bills at sixty days' sight, is 110¾ ₱ cent., and the par of exchange between England and America being 109 23-40 ₱ cent., it follows that the exchange is nominally 0.80 ₱ cent. in favor of England; after making allowance, however, for charges of transport, the present rate leaves a trifling profit on the importation of Gold from the United States.

The English funds have again been inanimate to-day, but the market has shown a tendency to improvement. Consols opened at 100 to ⅛ for both money and account, and closed at 100⅛ for money, and 100¼ to ⅜ for the account. India Bonds left off at 84s to 87s; and Exchequer bills (March), 70s to 73s (June), 67s to 70s prem.

The Foreign Stock Market was firmer to-day, and business, in several cases, was done at an advance. There were no operations in Turkish scrip marked in the official list, but the quotation was 83¾ to 9 prem.

In the Foreign Exchanges the business transacted was not very extensive, and little alteration occurred in the rates.

The shipments of specie by the Peninsular and Oriental steamer Sultan amounted to £27,300 in gold, of which £4,300 is for Smyrna, and £23,000 for Constantinople.

The accounts from the Paris Bourse show a continuance of active speculation, and a consequent tendency to increase in the rates for money.

At Hamburgh there is a slight demand for gold, which is likely to lead to some remittances from this side.

From Vienna the exchange quotations present no alteration, but the stock market was dull, and the new loan at a discount.

At Amsterdam the impression is generally entertained that it is intended to reduce the Dutch Four per Cents to Three-and-a-half per Cents, but the plans of the Minister have not yet transpired.

PARIS BOURSE—*Paris*, September 27—The Bourse opened feebly to-day, but it became more firm towards the close of business. The Four-and-a-Half per Cents opened at 104f 20c, and closed at 104f 20c for the end of the month; the Threes per Cents closed at 77f 50c; Orleans Railway Shares, 1,040f; Rouen, 820f; Havre, 416f 25c; Great Northern, 711f 25c; Avignon, 535f; Bales, 826 25c; Paris and Strasburg, 740f 25c; Paris and Lyons, 814f; Lyons and Avignon, 525f; Western of France, 655f; St. Dizer to Gray, 545f.

Madrid, September 22—Three per Cents, 47 ₱ cent. after Bolsa, 47 ₱. Active Deferred, 34¾; after Bolsa, 34¾; National Debt (1st class), 13¾; after Bolsa, 13¾; ditto (2d class), 6¾; after Bolsa, 6 3-16. Bank of St. Ferdinand, 104 ₱. Shares, 99 99 ₱.

Vienna, September 26—Five per Cent. Metalliques, 97½; New Loans (Series A), 85¾; ditto (Series B), 105¾; Lombardo Venetian, 101¾; Bank Shares, 1,350; Exchanges on London, 11.23.

Berlin, September 23—Voluntary Loan, 103⅜; New Loan, 4 per cent. Stock (1850), 104; ditto (1852), 104; National Debt, 96⅜. Commercial Marine Society's Premium, 129⅛. Bank Shares, 197.

HAVRE MARKETS—*Havre*, September 20—The sales in our Cotton market, for the last week, amounted to 7800 bales, against 23 hhds Tobacco. The stock was 50,000 in all descriptions, against 57,300 last year, and 38,000 in 1856.

Since the commencement of the present week there has been an increasing demand for Cotton, and 2000 bales have been taken for consumption each day, say 6000 bales on the whole, at an advance of about ½f in prices. New Orleans, tree ordinaire, is now worth 87f; Mobile 86, and Uplands 86. The latest intelligence from NewYork is of the 14th inst., by the Arcadia.

Potash remains quoted at 32f in boxe, and Rice at 23 to 26f.

Wholebone is offered at 3f 75; the demand is restricted to small lots for consumption.... The weather has become boisterous.

The Globe sailed for NewOrleans; the Helvetia and Leonidas, for NewYork, are ready for sea. The Howard, Tennessee and Grande are loading for NewYork; the Auvergnat and Corinthian for NewOrleans.

THE MANCHESTER TRADE—*Manchester*, September 23—We have had an improved demand, consequent upon the advices of a firmer Cotton market on the other side of the Atlantic. These advices have induced buyers holding orders unexecuted to be more anxious to place them satisfactorily, and in a extra inquiry and business than thrown on the market here have had a tendency to harden quotations. For cop yarns, which are still in great request by home manufacturers, an advance is reported in some cases of ½d ₱ lb, and these kinds of twists are generally rather firmer in sales. In other descriptions of yarn generally prices, which were reduced last week, have been more easily obtained.

Trade has been more inquiry for Cloth, especially for India Shirtings and Madapollams; but, though firm, there is a difficulty in obtaining rates adequate to remunerate producers for the increased cost of production.

New York, October 11—COTTON—The market is steady, with sales of 700 bales. The advices in relation to crop, received by mail, are unfavorable; but the quotations advised several days later by telegraph, quoting a decline on both NewOrleans and Mobile, are considered as the test of "the prospects of the growing crop."

PHILADELPHIA MARKETS—*Philadelphia*, October 11—The foreign advices by the Franklin have had no effect upon the market. There is but little business doing. The merchants generally been engaged in the discussion of political affairs.

The Flour market is very quiet, and the only sales reported are 5 to 700 bbls fair and good brands for city consumption at $4 37½@4 50, and extra at $4 62½@4 75. In Rye Flour and Corn Meal no sales have come under our notice.

GRAIN—There is more inquiry for Wheat, and but little stock here to operate in. Small sales of good and prime red at 85@86c, and 1000 bushels inferior white at 96@97c bushel. The market is bare of Rye. Corn continues to arrive slowly, but there is less inquiry for it, and prices are drooping. Sales of 2000 bbls Southern Yellow at 75@76c afloat.... Oats are in good demand at our former quotations.

WHISKY—The demand is limited. Sales of bbls at 24½c ₱ gallon, and in small lots at the same price.

Baltimore, October 11—FLOUR—The news by the steamer Franklin this morning made a little stir in the Howard street Flour market, and sales of 400 bbls choice brands were made at $4 37½. Subsequently this rate was demanded and refused, and sales of 700 bbls were made at $4 31½. We noticed sales to-day of 700 bbls City Mills Flour at $4 31½.

GRAIN—The receipts of Wheat are light, and prices much the same as last week, though larger receipts would cause a reduction. Sales of good to prime reds at 90@90c, white at 93@110c. There is a good demand for Corn, and prices have slightly improved. Sales of White to-day at 68c, and Yellow at 69@70c.

PROVISIONS—Small sales have been making at about previous rates.

WHISKY—The demand continues very good, and sales of bbls. are freely making at 23c. We quote bbls. at 24c.

TOBACCO—The market continues firm and active with sales at full prices of Saturday last.

GROCERIES—Sales of Rio Coffee at 8¾ to 9½c, per lb.... Sugar and Molasses are quiet.... Hides 5 50@5 75 per lb.

Charleston, October 14—COTTON—The transactions yesterday reached upwards of 700 bales, at about previous prices. The sales were at extremes, ranging from 8½ to 10¾c.

RICE—There has been a good demand for Rice for several days past, and upwards of 1000 tierces have been sold at a reduction. For instance, the article on Saturday last was held at $6a5 25, and these prices were also asked at the opening of the market on Monday, without, however, meeting purchasers; but about noon yesterday parcels were sold at $4¾@4¾, and sales have subsequently been made at 4½, 4¾, 4⅞, 4 7-16, and 4 5-16 lbs. The market closed with a fair demand.

SAVANNAH, October 13—Yesterday we could hear of the sale of only 31 bales Cotton. There was, however, a good deal of Cotton on the market, but no demand. The buyers seem determined to hold off for further advices from Europe, or more reliable information in regard to the crops.

Macon, Ga., October 12—The Cotton market has been without most doubt, for the last week, a little pinched in favor of buyers. On Friday the Asia's accounts came to hand, and not being as favorable as expected, buyers refused to operate, unless at a reduction of ⅛c from prices in the early part of the week, to which holders readily submitted in order to make sales. We alter our quotations to conform to present prices, and quote to-day 8¾@9¼, principal sales 9@9¼c.

Augusta, October 13—COTTON—Our market opened on Wednesday very dull, and so continued from day to day, to Saturday afternoon, holders realizing full prices for all offered. On Saturday afternoon we received unfavorable advices from Charleston and NewYork, which, in a measure, caused a suspension of purchases. On Monday the market opened quiet and continued so during the day, and on Tuesday the market remained much in the same state, buyers refusing to give the prices asked by holders. On Wednesday there was an increase, which gave buyers some advantage, and they show but little disposition to operate unless at prices which most holders refuse to accede to. Our quotations below (showing a decline since Wednesday last of ⅛c.) may be considered nominal, but they are the asking rates of sellers generally. Yesterday, some forced sales were made at 9@9¼c. For Fair, and 9¼@9½c for Middling Fair. The receipts of Cotton at all the ports up to the latest dates received are 125,473 bales, against 104,250 last year. Stock on hand 137,500 against 122,806 last year. Middling 9¼@9½; Good Middling 9¾; Middling Fair 9¾@10; Fair 10.

Mobile, October 17—COTTON—The market opened on Saturday with a moderate demand. Factors reluctantly accepted ruling rates, and with sales of only 500 bales, the market closed dull at ⅛c. decline. On Monday, the Franklin was announced, bearing, via Southampton, three days later advices from Liverpool. During that period 28,000 bales were sold, at an improvement of one-eighth of a penny on the better qualities. This news, which produced more business in our market, sales to the extent of 1500 bales being made, Middling closing at 9¾c. On the two following days comparatively a light business was done, holders asking for Middling 9¾c, which, to some extent, they realized, as the rates paid were very full. On Thursday the Asmerica was telegraphed. Advices by her were to the 24 inst. from Liverpool, and for the week ending on that date sales were 80,000 bales; the previous advices only, by the Franklin, being confirmed. These accounts, however, caused a firmer feeling with holders, and they succeeded in disposing of 600 bales at 9¾@9¾c. for Middling. Yesterday the demand was quite general, and sales to a larger amount were made than during any previous day of the season, the market being quite firm at our quotations. The total sales of the week are estimated at 6000 bales, taken for England and our home markets.
