World's Safe Company.

THE attention of the public is called to the safety and superiority of these Safes over all others. Our Safes are made on an entirely new principle. The first form a case or crust strongly made from wrought iron plates or bars, around which is compressed the materials to resist fire, such as plaster of Paris, and other substances, impervious to heat, not liable to the chisel or drill, and capable of resisting the blows of the sledge. To the materials, it is only necessary to say, "Nature" has furnished them, large and small, in boiler stone, rivets, screws, &c., and they are not liable to burglar to remove, with perhaps less effort than was required to put them together. Neither can the burning element make an impression on the solid mass, there is its with a free powerful will.

Also, Safes with LILLIE'S EMPIRE DRILL AND POWDER PROOF COMBINATION SAFE LOCKS, are the only really secure depositories for money or other valuables, which may further, there is in this security in any of the Safes, Bank Safes or Bank Vaultswork in use. They are to the work of mechanism, often broken into, and opened without the use of powder.

This Company is now prepared to furnish at short notice SAFES and BANK VAULTS, of qualities, for banking institutions, Mercantile Firms and individuals. All of which will be warranted Fire and Burglar Proof, when secured with Lillie's Bank Locks.

A Safe which unites above Safes and Locks, together with Day & Newell's Patent Spole Bank Lock, can be seen at the office of W. W. Warren, No. 15 Camp street.

B. ANTOGNINI, Manufacturer of BILLIARD TABLES and PATENT INDIA RUBBER CUSHIONS OF THE UNITED STATES.

34 Canal street, between Chartres and Levee streets.—B. ANTOGNINI

solves his numerous customers and gentlemen assembling, billiard saloons generally, that diligent research and extraordinary success in the manufacture of billiard Cushions. These Cushions are made of India Rubber; they are entirely different from those made with Gutta Percha, and are the only ones ever made in this country, built on account of their duration and the precision of the ball. Mr. Antognini will be pleased to receive orders here at 34 Canal street, in the city of New Orleans, and to give satisfactory warranting for the time fixed by the purchaser, on the durability of his Tables and Cushions. Mr. Antognini avails himself of this opportunity to inform the public that he has completed and put up in his Tables with Peach Courchouc Cushions, that he is ready to receive orders for the same, which will be executed with promptness.

He has on hand a large assortment of new Billiard Tables made of the best Mahogany, Rosewood and Cuba. These are also to be found in the establishment all kinds of Billiard Balls, Cues, Maces, Rests, complete sets of Long and Tapper Alley Balls and rules.

Gentlemen wishing to purchase Tables, or to purchase some of the above named articles, are requested to forward their orders to B. Antognini, who will attend to them promptly and to the satisfaction of purchasers.

N. B. Persons who wish to judge of the excellence of the above mentioned Cushions are invited to call at the Billiard Saloon, No. 72 Common street, New Orleans. The prices are moderate. oct1

I. STRAUS. D. HAZLETT.

ISAAC STRAUB & CO., MILL FACTORY, Corner of Front and John streets, Cincinnati, Ohio.

☞ The above is a West Cut of a single grained "Queen of the South" Corn Milland Crusher.

We present this as the leader of great strength and durability and ease of operation.

We also call this useful convivence on all sizes of Mills, by which means we convert a Corn Mill into a Stock Feed Mill; but a few minutes work to put it on or take it off.

We have also Portable Mills, single and double geared, (best quality of French burrs,) to grind Wheat, Corn and Stock Feeds, calculated for steam, water or horse power. These Mills have been used by steam and horse power, in competition against the other makes of Mills of our city, at our State Fairs, and have never failed to take the first premium over any competitor on every occasion they were exhibited for trial. We also took two first premiums, at the last State Mills, at two Annual Fairs of our Mechanics Institute.

Also.—Portable SAW MILLS, to be run by steam, water or horse power. This Mill was exhibited in operation by horse power, at the Ohio State Fair, in 1850, and received the premium as the best portable saw mill tested.

Also.—Different kinds of portable HORSE POWERS AND STEAM ENGINES. All our articles, for ease of operation, simplicity, strength and durability, are surpassed by none now in use.

All our articles are warranted as represented—or no sale—at expense of transportation and the money refunded.

For a full description and testimonials of merit and confidence we refer those wishing to purchase, to the Ohio State Fair Reports, where we take pleasure to explain such article. ISAAC STRAUB & CO.

BATTS, CARTER & CO., at the Ball Inanufactory of J. H. Burrows, while exhibiting a Burrows Mill at our State Fair, last Fall, was awarded a silver medal by the Committee, and immediately entered into a verbal agreement with me to manufacture and sell their patent Mills, and appointed me their agent in this county, and to be the only one for such mills, at cash and every time.

Stand to run as represented, cash mill

Burrows & Co., corn & cobs, weekly cash mill,

SECOND TRIAL.

Stand to run a twenty inch mill,

Burrows & Co. to run a twenty inch mill,

Stand to run a thirty inch mill,

Burrows & Co. to run a thirty inch mill,

Stand to run a forty inch mill,

Burrows & Co. to run a forty inch mill,

Stand to run a forty inch mill,

Burrows & Co. to run a forty inch mill,

Stand to run a forty inch mill,

Burrows & Co. to run a forty inch mill,

When the pinch came, that long name company jumped out.

To the above, I now append a challenge to grind on fixed out of whole sets of corn.

I will run my eighteen inch QUEEN OF THE SOUTH, with a cut-bolting apparatus, to the BANK ANTICLE THAT TOOK THE PRE-MIUM AT THE OHIO STATE FAIR, but which was rejected by Batts, Carter and Burrows' Mill, and Wm. Stewart's 30 and Kentucky Stock Feed Mill, and run them on the same corn, and by the same power, and by the same person, and on the same day, and I will agree to forfeit to the Committee, one hundred dollars, if I do not grind more meal and feed than either of the above named Mills, and more than any other Mill that has ever been offered for sale in this vicinity.

I will also run my Mill against any other Mill that has ever been offered for sale in this vicinity, and will agree to forfeit to the Committee, one hundred dollars, if I do not grind more meal and feed
