IT IS A FACT, established beyond the shadow of doubt, by the experience and testimony of the most eminent physicians, more than three-fourths of the diseases to which children are afflicted are caused by Worms, and thousands of children die annually from this cause, which might be saved if the nature and symptoms were attributed to something else. Various anthelmintic preparations which have been recommended as remedies for Worms, but experience has proved them all more or less ineffectual, this remedy alone has established itself established, and a remedy found which the worst failed to destroy Worms, wherever they have existed. This statement is supported by the testimony of the most eminent physicians and respectable individuals in the country. The remedy is

which is PERFECTLY AND PURELY VEGETABLE.
It is safe in its operations, and more easily administered than any other. Some of the symptoms which indicate the existence of the Worms in the bowels are as follows: Variable appetite, sometimes it is full, at others quite, and suffused with occasional flushes; the urine are brassy and thick, breath fetid, the upper lip swollen, itching in the nostrils, which causes the patient often to pick the nose; the sleep is disturbed, the patient often awakening in great fright, and is liable to starting and grinning the teeth; the appetite sometimes irregular, being sometimes voracious, at others feeble, and in some instances entirely gone.
To the following certificates numerous might be added, but it is believed that these are sufficient to establish the fact that WINER'S CANADIAN VERMIFUGE IS A SUPERIOR REMEDY FOR WORMS.
