never will. He knows too well what a curse freedom is to the slave ever to entail it upon one of his own. There must be a death of news when such paragraphs are manufactured, and the Commercial, like Mrs. Stowe, in the absence of facts has resorted to fancy.

We have received a pamphlet of 16 pages entitled "Biographical Remarks and Reflections on Prof. Carl Lewis's Organic and Physiological Chemistry," by Bennett Dowler, M.D., etc., etc. It comes to us with an author's compliment. The "remarks and reflections" are a reprint from the N. O. Medical and Surgical Journal—in which our paper now bears originally appeared. The Doctor is undoubtedly a man of ability and considerable scientific knowledge.

Dr. Leonard at the Varieties. It will be seen from the correspondence in another column that a number of influential citizens and members of the dramatic corps at the Museum, have tendered Dr. W. T. Leonard a complimentary benefit at the Varieties Theatre. The intended compliment is well deserved, and we hope, yield handsomely. The pieces selected are popular and will no doubt be properly and faithfully produced. The benefit takes place to-morrow, Thursday evening.

Thanks to the John Simonds for the latest St. Louis papers received.

We have received the following forcible communication, justly complaining of the negligence of the present City Council with regard to the payment of some of the most pressing debts of the city. We alluded, a few days since, to the same cause of complaint, and made some remarks with regard to it. The plain and practical inference at which "A Laborer" arrives would seem to be inevitable, and ought to be adopted by the ambitious aspirants of some of our officials, in such a way as to secure the speedy correction of a wrong that is neither just nor politic. It is perfectly evident that the fault lies; certainly the Comptroller cannot complain, nor the Treasurer pay, until the democratic city government has performed its duty. [Eds. Crescent.]

NEW ORLEANS, July 2, 1858. To the Editors of the Crescent. GENTLEMEN—Will you be so kind as to furnish the laborers now working in the Corporation with information as to the cause of so much delay in receiving their money. Many of us have been employed on which the Corporation has not yet paid us. We do not receive our money for a month or six weeks after it is due. We have been called upon by several gentlemen who have called upon members of the Council, and they have said that the officer who makes out the pay-roll, or the Finance Committee, or that there may be some fault in publishing the ordinance authorizing the Treasurer to pay the roll. We are extremely desirous of knowing who is in fault, and appeal to you for information. The officers receive their monthly salary a few days after it is due. The Police, also, and the School Teachers, have their salaries paid to them in full, and appear to you for information. The officers receive their monthly salary a few days after it is due.

At Bahia the yellow fever was very prevalent, and the shipping were getting almost disabled by the disease. The United States Consul, Mr. R. N. Her Majesty's ship Express, departed after a short illness on the 14th of May. At Bahia, for several days, there was a rumor that a general rising of the black population would take place on the 15th of May. The troops under arms all night, but nothing of the sort occurred.

At Bahia, for several days, there was a rumor that a general rising of the black population would take place on the 15th of May. The troops under arms all night, but nothing of the sort occurred.

Weather and Crops.

ALABAMA.—The following is from the Green-boro' Boats of the 21st instant: It is upwards of three months since we have had, in this place or vicinity, a plentiful rain. During the month of April we had only a few light showers, scarcely sufficient for thoroughly laying the dust. In some neighborhoods east and south-east of the city we had only a few pretty good seasons within the last few weeks, and we understand the crops in those neighborhoods are nothing like as promising as in this section generally. The corn crop, except on the bottom lands, is in most cases, too far gone to be benefited by future rains. Many fields will not produce a bushel to the acre. Cotton has also been doing badly for the last two or three weeks.

A Grove Hill Herald, of the 29th ult., says: We regret to state that the upper and lower portions of this county are suffering very much for want of rain, not having had a "season" for more than two months. We had thought and hoped that the fine rains, which have fallen in this section within the last three weeks, were of a general character. In some places, we are informed, a bushel of corn will not be made to the acre.

The Dutcher County Alabamian, of the 21st ult., says: Our exchanges from all parts of the country agree in the above paragraphs, and they are all in a short crop this season seems inevitable. The crops in this section are pretty nearly burnt up, and nothing short of a good old fashioned rain will revive exhausted nature. We have seen corn so far gone as almost to be beyond hope.

MISSISSIPPI.—The Lauderdale Republican, of the 28th ult., says: The showers for two or three days previous have relieved the brows of our farmers of some enormous wrinkles, and their faces of a very decided long suffering expression. There is no prospect for an abundance of rain.

For six weeks previous we have not had rain enough to lay the dust. Our condition began to be deplorable indeed. We understand that the drought has been especially severe in the eastern part of the State. The farmers began to talk of sending north for corn. But if the seasons have been general there will be plenty of corn made for all necessary purposes.

INTERESTING FROM SOUTH AMERICA.—By advices from Rio, to the 17th ult., we learn that money was in extreme request there, and for several days the banks refused all applications for discounts. The rate of exchange for gold was very high, and the rate for silver was also high. The rate for gold was estimated at \$34,000,000, and the expenditures at \$30,471,000. The Minister of Finance had laid before the Chambers a bill for the establishment of a bank of issue, the capital of which is to be \$30,000,000.

Correspondence.

NEW ORLEANS, July 2, 1858. The total value of India rubber goods manufactured in the United States is estimated at ten millions annually, and nearly the whole trade has sprung up since 1841.

The new railroad law passed by the Legislature of Connecticut, which essentially modified the provisions of the act of 1841, is a most important measure. It is a most important measure, and is a most important measure.

The Montgomery (Ala.) Journal, in noticing the vote of Montgomery in favor of the subscription of \$50,000 to the Montgomery and Pensacola Railroad, says the arrangements of the Directors are such as will enable them to prosecute the work with great rapidity, and in the course of sixteen months the road will be completed and in operation.
