

THE NEW ORLEANS DAILY CRESCENT, OFFICE NO. 123, CHURCH STREET.

TEMPORARY, OR MAY BE FORGOTTEN, THAT these very bonds, concerning which so much disturbance is being made, were advertised for sale in the papers of this city, and were finally disposed of to the highest bidder to meet the rapidly maturing liabilities of the road.

ALDERMANIC STUPIDITY. THE ASSISTANT ATTORNEY DENOUNCED BY THE BOARD OF ASSISTANT ALDERMEN.

We have seen, without surprise, the proceedings of the Board of Assistant Aldermen of the municipality of the Assistant Attorney for course in calling on the tax payers for the settlement of their accounts.

LABOR AND WAIT. Longfellow is a most pleasant and agreeable author. His stories have a quaint peculiarity that is charming, and his poems a substance as well as spirit that renders them very readable.

THE EFFECT OF THE POETRY, OR OF THE THOUGHT which it gave rise, was that of an over-coming opiate. Instead of sending us into the domain of sleep accompanied with the melodious measures, the bright fancies and pleasant dreams of rhyme, it troubled our sleeping hours with wakefulness and hunted our memory with an iteration that could not be overcome.

IT IS UNDOUBTLY TRUE THAT LABOR IS THE inevitable inheritance of us all. Labor, sometimes pleasant, sometimes painful, sometimes profitable and sometimes unproductive; depending just as much upon the disposition of the individual for his character as upon the individual's common sense for its results.

THE ASSISTANT BOARD HAS MISTAKEN THE meaning of the act of the Legislature amending the 35th section of the City Charter. The amendment does not extend the time for the payment of taxes, but limits it to the 1st of July, after which date the Assistant Attorney has a right to charge a commission of five per cent. on all amounts remaining unpaid.

IT IS NOT IN THE POWER OF THE CITY COUNCIL to vary or control an act of the State Legislature, neither can they, by assuming judicial powers, vary its meaning or construe its intent. The law of the State requiring the Treasurer to issue on the 1st day of July of every year, an order to the Assistant Attorney a list of the defaulting tax payers, by him to be put in suit, is a fixed fact upon the statute book, and nothing but a repeal can change it.

THE BOARD OF ASSISTANT ALDERMEN, at its sitting last evening, passed a resolution instructing the City Treasurer to withhold from the Northern Railroad Company all moneys collected as taxes for this railroad, until an investigation should have been had into the action of the directors in selling bonds at a low rate; and to appoint a committee to call a rate; and to report to the Board at its next meeting.

WE KNOW SOMETHING ABOUT THE SALE OF BONDS to which the resolution of the City Fathers, referred to above, makes allusion, and something also concerning the circumstances under which they were sold; and our knowledge leads us to a belief that there is full as much arrogance and insolent presumption in the conduct of the Board of Assistant Aldermen as there could possibly have been in any action of the Northern Railroad Company.

Letter from Wheeling. DEAR CRESCENT—Thinking that a few lines from this region might interest you somewhat, I have determined to write you.

THE DIFFICULTY BETWEEN THE EXECUTIVE COUNCIL and the Legislative Assembly remained as at last night. The Executive Council, however, has been unable to meet again on the 25th.

THE INSPECTOR GENERAL OF POLICE, Alexander MacLean, died on the 24th. A case of yellow fever had been reported at Spanish Springs, and the Inspector General of Police, Alexander MacLean, died on the 24th.
