DR. DAVIS'S SYRUP OF WILD CHERRY AND TAR.—In offering to the public this new and valuable remedy for CONSUMPTION, BRONCHITIS, ASTHMA, COUGHS, COLDS, etc., we expend a few sentences of the commendatory opinions of the medical faculty, and others, who have used it, and testified to its efficacy in the most unequivocal manner, which we flatter ourselves will be perused with interest, as they are from the highest authority, and are the result of a fair and impartial trial of its virtues.

FROM Mr. JOHN D. MORGAN, Druggist.

Pittsburgh, Pa., September 15, 1847.

The Syrup of Wild Cherry and Tar has given great satisfaction to those who have used it. I know of one instance of a person taking one bottle as a preventive of Ohio. I think I shall be able to sell almost six gross a year.

FROM THE WESTERN EMPIRE.

Dayton, Ohio, July 31, 1847.

Mr. J. P. HOOPER—Sir: It affords me much pleasure to say to you that my cough was entirely relieved by the use of one bottle of Dr. Davis's Syrup of Wild Cherry and Tar, which you obtained and sent to me. You can safely recommend the use of the above named Syrup for Coughs and Colds, as a most excellent remedy.

Yours respectfully, W. W. PHILLIPS.

FROM Mr. EDWARD HOSMER, Druggist.

Hammondsport, N. Y., Sept. 8, 1847.

We have taken some wrath in relation to Dr. Davis's Syrup of Wild Cherry and Tar here, and have sold about one gross. Mr. J. H. Cook has used it in his practice; he thinks highly of the Medicine. Dr. Cook is one of the most eminent Physicians in this part of the country, and was the attending physician of Joseph Bonaparte on his visit to this country. Dr. Cook has prescribed this medicine in his practice, and it has given perfect satisfaction in all cases. We are fully satisfied this medicine is valuable, and it exhibits expectorant properties of a superior character, and will be found very beneficial for the relief of Consumptive patients. We consider it a valuable medicine, and one that should be in every family.

The following was forwarded us by a respectable Druggist, Mr. HOWARD, of Dayton, Ohio:

[Extract from a Letter from S. F. STONE, Merchant of Hartford, Trumbull county, Pennsylvania.]

Hartford, Ohio, 10th July, 1846.

A young man of my acquaintance has taken your Syrup and has been entirely cured. He informed me that he had taken one bottle more than three gross of Medicine, and would be much pleased to have you send him another supply as soon as the means of transportation will be open.

Messrs. SCOFIELD, COLLINS & CO.—I am happy to inform you that I think Dr. Davis's Syrup of Wild Cherry and Tar will take the lead of any Medicine in our part of the country. I have taken the liberty of writing for an agency for the above Medicine, if agreeable to you. Please write me what you will send me two gross of each, with your prices. Respectfully yours, SAML. B. KENNEDY.

DAVIS'S SYRUP OF WILD CHERRY AND TAR.—We would call attention to the advertisement of this valuable medicine in another column of this paper. We have used it in our families for some time, and can say that it has been constantly recommended to us by friends. Mr. J. Wright's agency for the above Syrup, (Proviso's Pen, 6, 183 Market street, Philadelphia,) may be addressed.

FROM Mr. S. C. HATCH, of the Firm of Stevens, Hatch & Co., collectors and Stationers, No. 118 Market street, Philadelphia.

Philadelphia, 1845.

Your Syrup of Wild Cherry and Tar is an invaluable article for the want of which with me. If you want a certificate I will cheerfully give one. S. C. HATCH.

FROM S. S. GIVENS.

Pittsburg, Pa., June 6, 1845.

My stock of Cherry and Tar Syrup is now reduced to six bottles, and of course is daily increasing. You would do well to send me one or two gross.

Messrs. Rossmore, Collins & Co., Pittsburg, Pa., October 1, 1846.

Gentlemen—I have used Dr. Davis's Syrup of Wild Cherry and Tar, and I have found it a most excellent medicine for the cure of Coughs, Colds, Asthma, Consumption, and all diseases of the Throat and Lungs. I have sold a great many bottles of it, and have had but one bottle returned. The people of the town, where I live, think it will do all that is said of it. I have been afflicted with a cough for the last two years, and have used a great many remedies, but found no relief until I used Dr. Davis's Syrup of Wild Cherry and Tar, which has entirely relieved me. I would not be without it for twice its cost. Yours, &c. JOHN THORNLEY.

Murphy, a merchant of Milford, Ohio, writes that Dr. Dewey and the circumstances in his case. Mr. T. [illegible] years of age [illegible] Dr. Dewey's Cherry and Tar, and [illegible] Syrup, which relieved him in a few days. Dr. Dewey's Syrup is [illegible] and [illegible] Dr. Dewey's Cherry and Tar will relieve [illegible] Sold by J. WRIGHT & CO., 121 Chartres street.

ANOTHER CURE.

Palpitation of the Heart and Consumption of the Lungs relieved by Dr. Davis's Compound Syrup of Wild Cherry and Tar.

Pittsburgh, Pa., April 19, 1846.

For five or five weeks of last winter I was troubled with a severe cough, attended with great tightness and pain in the breast, and for a violent palpitation of the heart. I was induced to try Dr. Davis's Syrup of Wild Cherry and Tar, which I used to my entire satisfaction. It relieved me from sleeping a great deal of the night, and weakened me so much that I was scarcely able to walk across the room. I am now able to work as usual. My palpitation has entirely left me, and I am in good health. I feel happy in contributing my humble testimony in favor of this valuable medicine, and would not part with it for twice its cost. At this time, Dr. Davis's Syrup of Wild Cherry and Tar was recommended to me. In two or three days' use of it, the oppressive pain in the breast was entirely relieved, and in less than two weeks I was restored to health. Two bottles (the second was entirely cured, and my general health and strength greatly improved. I am now in the enjoyment of health, which I have not enjoyed for ten years, it seems, since I first began to use tobacco. I consider it a most valuable medicine, and recommend it to every one afflicted with a cough, cold, or pain in the breast. I have also used it in the case of Rheumatism, pains in the limbs, &c., and have found it a most excellent remedy. JOHN THORNLEY.

Pittsburgh, Pa., June 10, 1846.

I feel free to recommend Dr. Davis's Syrup of Wild Cherry and Tar from my experience of its beneficial effects in my own case. I have been for some weeks past subject to attacks of spitting blood, accompanied with soreness of the breast and an incessant cough, which was much increased with dyspeptic symptoms. Last spring, having an attack of it, I was recommended by an acquaintance, who had been cured by Dr. Davis's Syrup, to try it. I did so, and was relieved by the use of about one bottle. Its apparent good effects were immediate.

Sold by JOHN F. GRAHAM, Shoemaker, 70 Race st.

Merchants from different sections of the country are loud in their testimony concerning the unrivaled popularity and efficacy of Dr. Davis's Syrup, under their notice. A number of others, whose names have regularly sold it on condition that if it did not give satisfaction, the money should be returned, and no one of them has had any application for the money. This speaks volumes in favor of the medicine. We append a few extracts from orders, as samples of those warm-hearted receipts of, as well as of various favorable testimony heard:

FROM Drs. VAUGHAN and RUSH.

South Providence Plantation, as well as Brooklyn.

Mount Meridian, Ind., July 1, 1847.

Dr. Davis's Syrup of Wild Cherry and Tar goes off like hot cakes. We think that if you choose to put us a Wholesale Agency for that medicine, we can dispose of almost any amount in Northern Indiana.

FROM HARBAUGH & McGWAN.

Lebanon, Ohio, July 28, 1847.

Your Wild Cherry and Tar Syrups gives general satisfaction. We have used one of it by some time, and thought we would not order any more, but let it almost daily happened that we would get, perhaps, it would be best to order some.

FROM Dr. W. B. MACKINTOSH.

Wheatland, Ohio, January 29, 1847.

The article of Wild Cherry and Tar I find to be a valuable one, and has become already in my practice. I have sold and used more than you have forwarded, I would be pleased to have you send another supply as soon as the means of transportation will be open.

Messrs. ROSSMORE, COLLINS & CO.—I am happy to inform you that I have sold a great many bottles of Dr. Davis's Compound Syrup of Wild Cherry and Tar, and have never had a bottle returned to me. In fact, the Medicine has given universal satisfaction. I would not part with it for twice its cost. Yours, &c. JOHN THORNLEY.

Pittsburgh, Pa., March 20, 1846.

Dr. Davis's Compound Syrup of Wild Cherry and Tar, which I purchased of you, has given me great relief in a severe cough, which has been very distressing to me for the last two months. I have used two bottles of it, and am now entirely relieved. The expectoration has ceased, and I am free from pain. I am now ready to go to the Eastern cities to purchase my spring stock of goods, and intend to call on you before I leave the city. I would not part with it for twice its cost. Yours, &c. S. WADLOW, 79 Wood street.

Philadelphia,
