The McDonogh Will Case.

We publish with pleasure the statement which follows, from the executors of John McDonogh, relative to their willingness and desire to surrender the estate of the deceased into the hands of the duly appointed commissioners. This statement is full and satisfactory on a point in regard to which the public needed and had a right to expect information. It will be seen, by reference to the question from our remarks, that we do not, as the executors intimate, charge them with any reluctance to deliver over the estate, but simply state the fact that the estate has not been surrendered, and that there are parties whose interest is opposed to such surrender, but the executors, who, being paid out of the proceeds of the personal property, have rather an interest to be relieved of the charge.

We further learn, by reference to the records of the courts, that in May last the executors filed their final account and petitioned to be discharged, which was opposed by Messrs. Durant and Horner, attorneys for absent heirs, upon the ground that Baltimore not having appointed its agents, the property in such case would be without any one to take care of it. Baltimore has, since then, appointed its representatives, and there is no longer any reason or excuse upon the part of the executors for withholding the property.

With not the slightest desire to do injustice to any parties, we are pleased to have afforded an opportunity of eliciting information upon a subject of so much interest to our community.

TO THE EDITORS OF THE NEW ORLEANS CRESCENT:

Gentlemen: The undersigned have read with regret an article in your paper of the 27th inst., under the head of "The McDonogh Legacy," which, among other things you observe, in speaking of the legatees under the will of the testator "Intended legatees." In the first place you have not put out of the hands of the executors the property, &c. It is true the United States Supreme Court has decided in your favor against the heirs at law, but the executors still hold on—their lawyers still receive their handsome salaries, and the property remains in the identical condition it was in for the last few years. The statement is without the least foundation in fact, so far as it intimates, or rather asserts, that the executors will throw any obstacle in the way of the legatees to obtain the possession of the estate. The undersigned are, and have always been, ready and willing, to deliver the property to the order of New Orleans and Baltimore, and they have been compelled to administer the estate, but on account of the protracted litigation which were carried on against us by the heirs at law of McDonogh in Maryland, in the State tribunals, and of the legal heirs in the Federal Courts, and secondly, because since the termination of these suits in favor of the Will, the appointment of the agents for the city of Baltimore has been delayed until recently, and now from the reason which we offer for withholding the property from those to whom it belongs, for a single hour; and we beg leave, Sirs, to assure you, that neither the executors nor their lawyers feel any unkind feeling or sentiment whatever, but, on the contrary, are desirous of a speedy settlement, to perform the office of a trust, and to be relieved of the charge. We are willing to wait a little longer, if necessary, for the young men to get through college, the sheriff to get through with the proceeding of Pauline Pitters. Of course, the question of inheritance tax will be settled, and the estate will be ready to be delivered over to the legatees. The estate of John McDonogh is not in the hands of the executors, but in the hands of the Court, and is in charge of the Sheriff, who has been appointed receiver, and who has given bond and security for the faithful performance of his duties. We are willing to take the property, and will be glad to get rid of the responsibility, and will be ready to deliver it over to the commissioners appointed by the Governor of Maryland, and the Mayor and Council of Baltimore, whenever they may call upon us for that purpose.

We are, very respectfully, your obedient servants,

C. ROSELIUS,
A. D. CROSSMAN,
WM. B. LEVERICH.

"Peace to the Waters."

It is with much satisfaction we announce that the great water trouble is over; the *oscillaria* and all other *infusoria* have disappeared, and now the hydrants emit a very respectable (for water) sort of liquid, which has neither offensive taste nor smell. Our own private microscope has failed to expose any animalcule floating in this rather murky element. It has the genuine old Mississippi taste and hue. There is no flavor of dead pigs, mules or sheep, which disposes of the nuisance-boat theory, as our unequaled microscope has already refuted the *oscillaria* theory. Citizens may now take their baths with impunity, or a shower, just as they prefer. Tipplers will have no excuse for taking brandy straight all the time. The great and glorious cause of tetotalism will be again on its feet, and the rates of cisterns will decline. This is glorious news for a free people and for young ducks.

Reviving Business.

After some months of inactivity, it is highly gratifying to observe the evidences of returning business that begin to shew themselves in our city on every side. So many days and so many weeks of half-filled streets, closed stores, dissatisfaction and a deserted levee, prepare one to recognize and welcome the first evidences of a better state of things. A great many well-known faces, for some time unseen, show themselves now daily on the banquettes. Hotels, stores and coffee-houses, that have been closed, begin to be reopened. Ships arrive more and more plentifully every day, and steamers are beginning to crowd one another along the levee, as heretofore in the busiest seasons of the year. Cotton bales are coming to town in a steadily increasing number, and the products of all the country now navigable are being piled up higher and higher each day. It is impossible not to recognize the new life that is beginning to pulse in every department of commerce, and encourage our merchants and improve our markets.

Much of the success of any season here is doubtless dependent upon the state of the rivers and the health of the city. Last year both operated adversely to our interests, but this year it is to be believed that both will favor us. As the latest accounts the Ohio was rapidly rising, and big boats expected to be able to get out in a very short time from Louisville. The largest St. Louis packets come down with ease, and every thing engaged in the coast trade is able to keep its time and appointments. The city health is not yet wholly what might be desired, but cold weather is rapidly approaching, which will bear from us all traces of disease. It is, therefore, to be believed—as it is certainly sincerely hoped—that the middle of October will find New Orleans as prosperous and active as in 1852; and that the present year will be notable for the amount of business transacted here.

A great deal has been written and said concerning the failure of the crops, consequent upon the recent severe drouth, and the lessened receipts that would necessarily follow. These troubles are shown to be less and less, daily, and each succeeding mail proves that an average supply will be obtained. What some sections lose, others will gain, and, taken together, the yield throughout the country will not fall short, in any material degree, of the last year. Such being the case, it cannot be doubted that an early season will prove to us a profitable season, and that 1854 will stand as well, in comparison with other seasons, as 1852. This conviction is very general among our merchants and business men, as may be seen by the heavy stocks they have laid in and the general activity displayed by them in every department.

We, ourselves, feel all confidence that we are now entering upon one of the most busy and profitable seasons the city has ever known; one that will keep our wave-houses filled and our

...Loose covered, and call for increased means of ...transportation in every direction. The signs are markedly of the general belief in it, and the result will doubtless be so. There is a comparison in business as in other matters, and this season requires that next year reader prophet. We believe that the present will be equally as much in every respect.

FLAG PRESENTATION.—Company C, of the National Guards, were yesterday honored by the receipt of a very beautiful flag, presented by a number of ladies of this city. The presentation took place in front of the City Hall. Six companies of the battalion were in attendance, under the command of Col. Forno and Major Sicot. The usual preliminaries having been gone through, Miss T——a, of Camp street, advanced and in a very neat, chaste and appropriate speech, well and properly expressed, presented to Capt. Drenx the colors of his company. Capt. Drenx—doubtless somewhat inspired by the beauty of the fair donor—returned the thanks of the company for the honor done them, and gave utterance to sundry patriotic remarks we are unable to quote.

After some marching and counter-marching, the battalion proceeded up St. Charles to Julia street, up Julia to Camp, down Camp to Canal, through several other public thoroughfares, and thus to their armories. We have no doubt the flag so beautifully wrought and so gracefully presented will be carefully preserved; and if ever danger or public difficulty should require it to be unfurled against the foe, there is no doubt it would be readily rallied under, and borne as far into the enemy's ranks as any other. Long may it wave!

SALE OF DRY GOODS.—The particular attention of buyers is called to the extensive sale of Foreign and American Dry Goods, this day, by Vincent & Co., at their auction rooms, No. 43 Bienville street.

We are indebted to the clerk of the steamer Grand Tower for late St. Louis papers.

STEAMSHIP NAUTILUS.—The steamship Nautilus, Capt. Thompson, advertised to leave for Galveston and Brazos Santiago this morning, will not depart until to-morrow at 8 o'clock, A. M. Passengers will bear the fact in mind.

GERBER'S CONCERT.—The grand concert to be given to Victor Gerber, the Creole violinist and leader of the German theatre orchestra, will come off this evening at the old American Theatre. The benefiaiary will be assisted by considerable talent, and is himself an artist of no mean rank. We acknowledge the receipt of tickets.

TROTTING OVER THE METAIRIE.—A match trot comes off over the Metairie at 4 o'clock this evening, between S. Rice's g. m. *Maria* and J. Clark's b. m. *May Flower*, for a purse of $400, two mile heats and repeat. *May Flower* comes down from Nashville and *Maria* is pretty well known in the trotting world here. Some sport "as is sport" may be confidently expected. Those who desire to turn up the shells cannot do better than visit the Metairie after dinner and see the sport.

The Ben Franklin steamer which sailed so suddenly from New York to Vera Cruz, after being released from the clutches of the U. S. Marshal, is under bonds for $20,000 with Chas. O'Connor, Esq., as surety to embark in no unlawful enterprise.

Police officer Hamel was stabbed by an Irishman, named Patrick Cunningham, at Chicago, on Monday afternoon, the 18th. The former arrested the latter, when he struck the fatal blow, causing immediate death. Cunningham is in jail.

A monument is to be erected in some of the public grounds at Washington to the memory of the late A. J. Downing, landscape gardener. During the session of Friday last of the American Pomological Society, at Boston, it was reported by a committee that $1800 had been subscribed for that purpose.

The proprietors of four of the Cincinnati dailies, namely, the Enquirer, Times, Commercial and Columbian, have changed the price of their respective papers from ten to twelve cents per week. Reasons assigned, the increased expenses of labor, material and the necessaries of life.

The cholera has almost entirely disappeared from the town of Columbia, Pa.

At Bridgewater, on the Fall River Railroad a few days ago, the train came in contact with a team containing two Irishmen, staving the chaise to pieces, and instantly killing one of the men.

In Canton, Mass., on the night of the 19th, the pattern shop of Lyman Kinsley was destroyed by fire, with the shop of E. Sherman, hat manufacturer. Mr. Kinsley loses $40,000, for which he was insured in Boston and Roxbury.

On the 20th inst., a yacht containing a number of gentlemen was run into by a steam tug on the Harlem river and upset. The gentlemen being excellent swimmers managed to keep up until assistance reached them. Timothy Simmons, pilot of the steam tug, was arrested and one of the ducked individuals testified that he believed the collision to have been the result of a malicious intention on the part of Simmons. He was accordingly placed under bail of $1000 to await the action of the Grand Jury.

On the morning of the 20th, a watchman in Baltimore detected a man coming from the front door of a residence on Lombard street with a bundle in his possession. The watchman pursued the burglar into a yard and collared him, when the latter turned and shot his captor in the abdomen, and then beat him senseless with his own club. Assistance came, but the villain escaped. It was thought that the unfortunate watchman would not recover.

The packet ship Yorktown, from London, is detained at the New York quarantine, having lost twenty-one passengers by cholera. She had 630 when she left London.

The ship St. Petersburg, which arrived at New York from Havre on the 19th, had 45 deaths from cholera on board during the passage.

AN EDITOR KILLED.—Mr. Samuel Nicholls, editor of the New York Sunday Mercury, was run over by one of the Third Avenue cars in New York city, on Monday evening the 18th inst., and so seriously injured that he died at his residence in that city on the following Wednesday. Mr. Nicholls was attempting to jump upon the front platform of car No. 19 of the Third Avenue line, near Ninth street, when his foot slipped and he fell underneath the wheels, the car passing over his limbs. The left leg was crushed below the knee, and the right foot was severely bruised. He was immediately taken to a drug store at the corner of Seventh street, where his wounds were dressed, and he was then conveyed to his residence.

The small stern-wheel steamer Augusta sank at Grand Bayou landing a few days ago. She was built for the purpose of bringing cotton out of the bayou, and was worth about $3500.

PROBABLE LOSS OF A STEAMSHIP.—Much anxiety was felt in Philadelphia for the safety of the steamship Philadelphia, which was then in her 23d day out from Liverpool. The papers of the 21st say nothing of her arrival.

LATEST TELEGRAPHIC NEWS

BY THE NEW ORLEANS DAILY CRESCENT.

Steamer City of Philadelphia Lost.

NEW YORK, Sept. 23.—The steamer City of Philadelphia bound from Liverpool for Philadelphia, has been wrecked off Halifax. All the passengers, officers and crew are saved.

New York Markets.

NEW YORK, Sept. 25.—The demand for Cotton is very limited, but prices are without any material change. The Flour market is dull and drooping, with sales of Ohio to-day at a decline of 60c per bbl. Provisions of all descriptions are dull, and Beef has slightly declined.

Yellow Fever at Charleston.

COLUMBIA, S. C., Sept. 27.—The deaths from yellow fever at Charleston during the past week have been 118.

Yellow Fever at Savannah.

COLUMBIA, S. C.,—September 27.—The yellow fever continues to abate at Savannah. The deaths on Sunday were sixteen.

Yellow Fever at Montgomery.

MONTGOMERY, Ala.,—September 27.—The yellow fever has made its appearance at this place, and there have been five cases and one death here from the disease since the 25th inst. Much excitement and alarm prevails among the citizens, on the subject.

MAINE ELECTION.—So far as heard from, one hundred and four towns and plantations in the Sixth Maine Congressional District give Milliken, Fusion, 4197; Fuller, Democrat, 2870; Smith, Whig, 1463.

No choice for Governor has been made.

A NEW BOAT.—The Jefferson Herald has a letter from Capt. Sid. Smith, who is building a Red River boat. He says:

She is now progressing finely, and will be in running order by the 15th of October. I am building her new out and out. She will be perfectly plain, but well built; cabin small but very neat. She will carry 750 or 800 bales of cotton, and be very light draught, having only four feet hold. I want to leave here (Louisville) by the 20th of October, and I will be in the lake as soon as the water will permit.

ARRIVAL OF PICTOU COAL.—Three cargoes of coal from Nova Scotia, consigned to Mr. Arthur Leary, have reached New York since the publication of the reciprocity treaty. He claimed to enter the whole free of duty, but the collector refused to let him do so, on the ground that he had received no instructions from Washington, and supposed that none would be given until the treaty was ratified by the Canadian and Nova Scotia authorities. Mr. Leary, however, took a different view of the subject, and paid the duty under protest.

THE WEATHER AND CROPS.—On Tuesday and Wednesday, says the Alexandria Republican of the 19th instant, we had the most disagreeable weather we have experienced for a very long time. On Tuesday night, Wednesday and Wednesday night particularly, the rain poured down in torrents, almost without a moment's cessation, accompanied with high and boisterous winds. The whole country has been flooded with it, and the damage to the crops from it in this parish alone, can not fall short of $10,000, if it does not exceed it.

DESTRUCTIVE FIRE IN NEW YORK.—On the night of the 19th a fire broke out in New York at No. 598 Broadway, a four-story building, running through to Crosby street. The establishment on Broadway was entirely destroyed and several adjoining buildings were much injured. Two firemen were badly hurt by falling from the third floor of one of the buildings. The loss of property was estimated at $70,000.

LARGE BABY.—As they are to have a Baby Convention at Springfield, Ohio, it is well to forewarn ambitious mothers of what they will have to contend with. The St. Louis Republican has been shown a specimen three years and two months old, which weighs 135 pounds. He is too old to contest for the prize, but it shows what can be done in the Western Valley. If there are any in that region of one or two years, and of proportionate weight, it will be of no use for people this way to attend the assemblage of juveniles with the view to securing a prize.

MORE PUBLIC SPIRIT.—We are indebted to H. A. Judd, of "Judd's Saloon," for an agreeable notification that St. Charles street has still another attraction. The house formerly occupied by Flanagan has been re-let, re-occupied, re-furnished and re-opened. The bar is even now available, and the eating department will be ready for the public in a few days. Our bonvivants, epicures and lovers of good living will do well to take notice.

A MAGNIFICENT SIGHT.—Upwards of 400 vessels on the Atlantic Ocean, ninety miles distant, were counted from the summit House on Mount Washington, (White Mountains) on the 11th inst., when the best view since the house was erected was enjoyed.

BALLOONING.—Mr. Paulin ascended in a balloon at Bordentown, N. J., on Monday, the 18th, and descended near Trenton. Mr. Steiner ascended at Camden, N. J., and descended within five miles of Trenton, having traveled thirty miles in an hour and a half.

SERIOUS ACCIDENT.—A collision occurred on the Georgia Railroad, near Camak, on Thursday night last, by which two men were killed and several wounded.

WHIG NOMINATIONS IN NEW YORK.—The New York Whig State Convention, held at Syracuse on the 20th inst., nominated Myron H. Clark for Governor, Henry J. Raymond for Lieutenant Governor, Henry Fitzhugh for Canal Commissioner, and Norwood Browne for State Prison Inspector.

WASHINGTON NATIONAL MONUMENT.—The contributions to the monument, from August 4 to September 6, amounted to $2602. The expenditures in the same time amount to $2218.

THE CHOLERA AT PITTSBURGH.—There was no abatement of the cholera at Pittsburgh on the 20th. The number of deaths had increased, and the panic among the population was great.

REPUDIATING THE KNOW-NOTHINGS.—All the Democratic candidates for the October election in the city of Philadelphia have come out in a letter repudiating the Know-Nothings.

EXPLOSION OF A FIREWORK MAGAZINE.—At St. Louis, on the morning of the 18th, between 2 and 3 o'clock, a building temporarily occupied as a magazine for the fireworks, was struck by lightning and a tremendous explosion immediately ensued. The building was entirely destroyed, with all its contents, and two men who were sleeping on the premises were instantly killed. The loss of property is about $2500.

THE RICE CROP.—In regard to this subject the Savannah Georgian of the 23d says:

We are assured, on authority entitled to great confidence, that the loss of the rice crop on the Savannah and Ogeechee rivers, by the storm of the 6th instant, will be fully *three-fourths*; on the Altamaha about *one-third*, and on the Satilla nothing. On the rivers between Savannah and Charleston, the probable loss may be estimated at about half.

Further serious damage may be apprehended to the crop from the storm which is prevailing at the time that we are writing.

Important Army Orders.

The following order has just been issued by the War Department:

WAR DEPARTMENT,
Adjutant General's Office, Washington, Sept. 13, 1854.

GENERAL ORDERS, No. 76.

Inquiries having been made in regard to the construction of the act, approved August 4, 1854, "to increase the pay of the rank and file of the army and to encourage enlistments," the following instructions are published for the information and guidance of all concerned:

1. The act takes effect from its date, and increases the pay of the non-commissioned officers, musicians and privates of the army of the United States, (a description which includes all enlisted men except those of the Ordnance Department,) four dollars per month over the rates to which they were entitled by previous laws. One dollar per month of the pay of the private soldier is, however, still to be retained till the expiration of his term of service, in conformity with the fifth clause of the supplementary act of July 5, 1838.

2. Every enlisted soldier in service at the passage of the act, and subsequently receiving an honorable discharge on the completion of his term of enlistment, who shall, within one month thereafter, re-enlist in the army, shall be entitled to two dollars per month in addition to the ordinary pay of his grade, for the first period of five years after the expiration of his previous enlistment, and a further sum of one dollar per month for each successive period of five years, so long as he shall remain *continuously* in the army.

3. Soldiers honorably discharged before the passage of the act, but who re-entered service within one month after their discharge and the date of the act, are entitled, from the date of such re-entry, to two dollars per month in addition to the ordinary pay of their grade.

4. Soldiers in the army at the date of the act, who have served one or more enlistments and been honorably discharged, are entitled to the two dollars per month in addition to the ordinary pay of their grade, from the date of the passage of the act.

5. Every non-commissioned officer, musican, or private soldier who may re-enlist into his company or regiment, under the conditions expressed in the 2d section of the act of July 5, 1838, viz: "within two months before or one month after the expiration of his term of service," is still entitled to the three months extra pay provided by said act. The "three months' extra pay" (bounty) thus allowed, is the ordinary pay of the grade in which the soldier was serving when discharged.

6. The serving out of each enlistment entered into under the 2d section of the act of July 5, 1838, above cited, is to be counted as five years' service within the meaning of the 2d section of the act of August 4, 1854.

7. If an enlistment or re-enlistment be made at or in the vicinity of the remote military posts, under the conditions of the 3d section of the act of June 17, 1850, the soldier is also entitled to the bounty provided by that act, the amount to be paid to him in unequal installments at the end of each year's service, and in the proportions fixed by the regulation of June 22, 1800.

8. Soldiers who received a Certificate of Merit for distinguished services in the war with Mexico, as well as those now in the army as those that may hereafter enlist, are allowed the two dollars per month to which that certificate would have entitled them had they remained continuously in the service. Where the service has been continuous, the pay commences from the date of the engagement in which the certificate was won; where the soldier has been out of service, but was in the army at the passage of the law, he is entitled to the extra pay from August 4, 1854, the date of the act; in all other cases, the pay will commence from the date of enlistment.

9. The rule recited in the foregoing paragraph is applicable also to those non-commissioned officers who, under the authority of the 17th section of the act of March 3, 1847, were recommended for promotion by brevet to the lowest grade of commissioned officer, but did not receive the benefit of that provision. A list of the non-commissioned officers embraced in this description will be published hereafter.

10. The 6th section of the act of Aug. 4, 1854, increasing the allowance to soldiers employed at work on fortifications, in surveys, in cutting roads, and other constant labor, of not less than ten days, a substitute for the act of March 2, 1819, on the same subject, which it entirely supersedes. Accordingly the "extra gill of whisky, or spirits," heretofore allowed to the army when employed on fatigue duty, is discontinued. Enlisted men employed as laborers and teamsters East of the Rocky Mountains, are now entitled to an extra compensation of twenty-five cents per day; and when employed as mechanics to forty cents; at all posts West of those mountains, the corresponding rates are thirty-five cents per day, respectively.

11. It is particularly enjoined on all commanding officers to see that the muster rolls embrace all the data necessary to ensure justice to the soldier, and to guide the paymaster in making his payments. Thus, when men are entitled to the benefits of the 2d section of the act of August 4, 1854, the following remarks should be placed opposite their names: "$2 pr. mo. for former services," the expression "former services" being used to designate the whole period of the soldier's service prior to the date of the act. If he be entitled to $1 additional for reenlisting subsequent to its date, the remark will then be, "$2 pr. mo. for former services, and $1 for reenlisting;" for a second reenlistment, "$2 pr. mo. for former services, and $2 for 2d re-enlistment," etc. For soldiers coming under the provisions of the 3d and 4th sections of the act, note as follows: "$2 pr. mo. for cert. merit;" "$2 pr. mo. for previous services, $9 for cert. merit, and $1 for re-enlisting," etc., according to the facts of the case. The bounty of "three months extra pay" allowed for re-enlistments under the 29th section of the act of July 5, 1838, is not to be entered on the muster-roll, as this bounty is paid by the recruiting officer, and not by the paymaster; but installments of bounty due for enlistments made under the provisions of the 3d section of the act of June 17, 1850, will be noted as follows: "1-10, (or ⅕, 1-6, or ¼, according to its being the installment due for the 1st, 2d, 3d, or 4th year's service,) Ret'd bounty ($——) due" the regulation amount of the bounty to be specified. The installment for the fifth year's service will be thus noted: "$—— Ret'd bounty ($——) due."

The pay certificates given to soldiers at the time of their discharge must also clearly set forth the extra allowances to which they are entitled.

By order of the Secretary of War.

S. COOPER, Adjutant General.

An eminent minister at Norwich made a sudden pause in his sermon; the congregation were panic-struck. Having riveted their attention, he addressed himself by name to a gentleman in the gallery, "Has that poor man who stands at the back of your pew a gold ring on his finger." The gentleman turned round, and replied, "I believe not, sir." "Oh, then, I suppose that is the reason he must not have a seat." The gentleman had three gold rings on his hand, and his pew was nearly empty.

The Jury who for the last month have been investigating the cause of the falling of the Granite Buildings in Broad street, Boston, returned a verdict on the 19th that the accident was the result of a want of proper precaution on the part of the owners, in not ascertaining the stability of the foundation wall; and also that Mr. French, one of the owners, when warned of the danger in season, did not take proper measures to avert it. They also declare that proper means should be taken to ascertain the stability of all buildings going up in the city.

☞ HOWARD ASSOCIATION, OFFICE No. 89 CAMP STREET, UP STAIRS.—Applications for Relief of Indigent Persons sick with the Yellow Fever, will be received at the Office of the Association DAILY from 8 to 9 and from 4 to 5 o'clock.
s17 2p2w D. I. RICARDO, Secretary.

☞ STATE LEGISLATURE.—Capt. JOHN A. JAQUESS is a candidate to represent the First Representative District in the State Legislature, made vacant by the resignation of Hon. H. M. Summers. s21

☞ JULES LAVERGNE, Esq., is a Candidate for the State Senate, to fill the vacancy created by the resignation of the Hon. J. A. Bread. s21

☞ CARD.—We miss some of our Books and Papers, which we feel satisfied were stored by some of our friends. Any person having them will do us a great favor by notifying us where they are in order that we may send for them.

A Liberal Reward will be paid in Cases where the parties will accept it. E. J. HART & CO., 1st Telegraphic st. s21

☞ NOTICE.—On Tuesday, October 2, R. M. Montgomery & Co., will commence to make DAILY SALES at Auction, of Furniture, etc., at No. 43 Bienville, Mrs. D. Camp street.

The sale of every description of new and second hand Furniture from the South, to which they respectfully invite the attention of housekeepers and others. s20 1w

RUPTURES CURED.—Sherman's Curative Patent Trusses and Supporters for relief and radical cure of Rupture, are to be had at all Druggists. To retailers good fix, apply to the proprietors establishment, 216 Chartres street, and Agents for Dr. Sherman. For further particulars, see advertisement on third page, or apply to the agents for a descriptive pamphlet. feb28 1y

CANCERS CURED.—Dr. Frazee has the honor to inform the public that he is prepared to treat all cases of this fatal disease; and he will GUARANTEE A CURE IN EVERY CASE, except when some vital organ may be seriously affected. Even these sufferers may obtain much relief. Those afflicted with Cancerous affections are invited to visit Dr. F. Consultations and patronage, as no evidence of his sincerity, and his confidence in the system of treatment, Dr. F. will undertake to cure every case of Cancer presented, and make no charge until the patient is cured. Patients cured without pain or the use of the knife. Twenty Dollars sent by mail will secure a package of the CANCER SPECIFIC, with full directions for use. Address DR. FRAZEE,
s20 1m1y Office, 38 St. Charles st.

Notice to Females.
☞ JOHN BULL'S SARSAPARILLA is one of the greatest Female Medicines now in this city. In those numerous cases where the constitution is debilitated, the nervous energy is lessened when the efforts of nature are weak and deficient, or are prostrate or overcome, when the face is pale and colorless, the strength feeble and yielding, the spirits troubled and depressed, the health broken, mind shaken and consequently the happiness destroyed, then BULL'S SARSAPARILLA is a sovereign remedy. It assists nature in the performance of her duty, braces the whole system, renews permanently the natural energies, removes obstructions, checks excesses, creates pure and healthy blood, and organic health and happiness. Were ladies generally to adopt the use of this medicine, we would see far less suffering, disease and unhappiness among them than now exists; health would be the place of sickness, the rosy cheek would succeed the pallid face; we should have smiles instead of tears, and perhaps a happy family, instead of one cut short by disease, or made miserable from continued suffering and ill-health. At that critical period termed the "turn of life," which is often attended with so much danger, BULL'S SARSAPARILLA is found to exert a most beneficial effect. All ladies approaching the critical period are requested to attend to this fact, and avail themselves of this valuable medicine.

For sale by the bottle or by wholesale, at proprietor's prices, by J. WRIGHT & CO, only agent for La., 191 Chartres street.
