It is now and universal article, let one that has stood the test of a long series of years, during which time it has received the most unqualified approbation of the American people, and its reputation and sale has extended by and by to an unprecedented extent, as testimony in its favor given by the most prominent and well known Physicians and individuals in all parts of the country fully proves. Its power over disease is acknowledged, and its sale is rapidly increasing, as the evidence in its favor is constantly coming before the public.
Many certificates have appeared in the papers, and the proprietor has thousands in his possession which he could publish, but deems it unnecessary to do so, as he does not wish to occupy the space, preferring rather to let the article recommend itself. D., Philadelphia, Pa., is on the outside wrapper of each bottle.

MESSRS. B. A. FAHNESTOCK & CO.:
GENTLEMEN—Having sold your valuable Vermifuge for some time, and having seen it used in numerous instances, we take pleasure in adding our testimony to the many already given in favor of it, as a safe and speedy remedy for all cases of worms. In no instance have we ever seen any evil result from its administration, but always the reverse, and the prompt relief it has afforded has invariably been followed by the expulsion of worms, and has been entirely satisfactory.
Believing that anything that has been set forth in regard to its virtues is fully in accordance with our observations, we can, as practitioners, but as men of business, we would unhesitatingly say to all who read this, that they have never seen it fail in any case where they have seen it used.
