STEAM COMMUNICATION WITH SOUTH AMERICA.

For some days we have had lying on our table a copy of a petition to the Senate and House of Representatives...

The necessity of a regular communication between the United States and South America is a subject of great importance...

Before turning the petition and statement called for to the committee, it is necessary to refer to a project...

As we think New Orleans possesses a large and increasing interest in this enterprise, we propose making a liberal synopsis from the prospect before us...

Some singular facts are set forth in the petition, which show the necessity of this enterprise...

The petitioners also believe that the postage now received on the transportation of the mails would amply make good the expenditure...

We append the contents of the petition, which we believe to be a synopsis of the whole...

The petitioners also believe that the postage now received on the transportation of the mails would amply make good the expenditure...
