New Orleans Daily Crescent.

New Orleans Money Market.

CRESCENT OFFICE, No. 79 Camp street,
Tuesday Evening, Feb. 3, 1857.

Another week of business has passed by the last two days were tolerably active, and the sales of cotton were considerable, but the correspondence, so that it was late before they fully arrived a disposition to go to work, and the final result for the day did not amount to much. The offerings in the street were comparatively few, and the amount of business done, and the street closed very dull for the paper offering. There were sales to the amount of $38,000 in long days paper, well endorsed; at 7 per cent., and some $60,000, in various parcels, of 15 months date Al at 9 per cent., and a few small sums of A2 at 8 per cent. Lenders appear to meet the market freely.

In stocks, we learn of the sales of 70 shares Canal Bank at 120; 82 shares Bank of Louisiana at 152½; ex-dividend; 10 shares Southern Bank at 100.

In exchange matters we neither deal nor brisk to-day. The movements in sterling were unimportant, with no change in rates, and were Al clear bills at 9¾, 9 7/8. Bills with shipping documents at 9¾@9⅞. Francs 5.35¾@5.33½, with a sale of 200,000 at 5.30. On New York there were sales of $5,000, part at sight, at 1 discount, and part at one day sight at 1½ discount. No change to 30 days sight; 60 days sight was sold at ¼ dis. The tone continues to ease off, and the quotations at 9@9¼ dis., according to size, are nominal.

We give below the annual statement of the Louisiana State Bank, by which it will be perceived there is a nominal surplus of seven hundred and two thousand dollars. From this surplus the dividend declared on Saturday last—say 6 per cent., or $315,000 is to be deducted.

We also insert the net profits of the Citizens' Bank, for the last six months, are $207,000, or within a fraction of fourteen per cent., which carries a large sum to the reserve fund. The usual dividend of six per cent. is payable on the 9th inst.

The Board of Currency, in its annual report to the Legislature, giving some variations or departures from the law in regard to the issue of specie, for the fish of discounts which the Banks ought to maintain to keep within the pale of the Bank law, make the following recommendations:

"Had these deficiencies been merely temporary, or the result of any other cause than a deliberate purpose, they might not require any other notice than publicity. Neither the currency nor the interests of the public have been injuriously affected thereby, nor has the fixed weight of the Banks been increased during this period. At the same time there does not appear to be any exigency in commerce or the wants of the country for which warranted the deviation from the banking policy of the State.

We take issue with the report on the question of wants of the country. If the country has not wanted discounts and facilities to the extent of the requirements, then why did factors and commission merchants. When we say country, we mean the several States (including Louisiana) which are connected to New Orleans by commercial and geographical ties. As regards the exigency in commerce, the commercial community can be appealed to whether the documents of trade have not fully warranted the movements in the Banks. One of the Banks alluded to merits and has the reasons in our possession, a dollar of coin; another which has increased a small amount, ought to have extended its impression, while one Bank has imported in three months nearly one million of dollars, saved much pressure, and possibly prevented commercial disasters; besides aiding other Banks, receives an equal share of reproof. The time complained of, it appears, commenced on the 6th of October with one Bank, and with those others on the 20th of October, and extended to the 20th of January. We think this report speaks, and has spoken only to censure; there are precedents now on record to sustain the movements of the Banks for the last three months. We must not omit to report that the note implies that the Directors of the Banks are judicious.

The report closes with the following remarks, "The operations of the free banks have been within the rule, with the exception of one or two occasions, viz: on the 20th and 30th September, which may be considered as accidental." This is the only allusion to the free banks.

General condition of the affairs of the Louisiana State Bank on the 31st January, 1857.

DRUGS AND MEDICINES.

AYER'S CHERRY PECTORAL FOR THE rapid cure of
COUGHS, COLDS, HOARSENESS, BRONCHITIS, CROUP, INFLUENZA, WHOOPING COUGH, ASTHMA AND CONSUMPTION.

This remedy has won for itself more notoriety for its cures of every variety of Pulmonary disease, that it is entirely unnecessary to recount the evidences of its virtues in any community where it has been employed. So wide is the field of its usefulness, and so numerous the cases of its cures, that almost every section of the country abounds in persons publicly known, who have been restored from alarming and even desperate disease of the lungs by its use. When once tried its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs which are the fruitful source of fatality. And certainly in formidable attacks upon the lungs, but for the caliber varieties of Colds, Coughs, Hoarseness, etc., and for Children it is the pleasantest and safest medicine that can be obtained.

As it has long been in constant use throughout this section, we need not do more than assure the people its quality is kept up to the test that it ever has been, and that the genuine article is prepared by Dr. J. C. AYER, Lowell, Mass., and sold by every respectable druggist in the United States.

TESTIMONY FROM LOUISIANA.

The German Bitters superior to any preparations now in use.

JACKSON, La., August 15, 1854.

Dear Sir—I feel bound to express my gratification to you for the inestimable benefit I have derived from the use of two bottles of your German Bitters. I have found them to be all you recommend them to be, and cheerfully recommend them to the public as a safe and sure remedy for the diseases they are intended for, and superior to all other preparations now in use.

Very respectfully, yours, H. OPPENHEIMER.

THE BITTERS ALL THEY ARE REPRESENTED TO BE

JACKSON, La., August 20, 1854.

Dear Sir—I have used your German Bitters, and find them all they are represented to be. You may refer any person to them to the public as an excellent medicine.

Respectfully, yours, W. F. FAULKNER.

HIGHGROUND, La., May 23, 1855.

Your German Bitters have become very valuable medicine. I have disposed of all I received from you, and will have a new supply immediately.

DR. RAYBOLD QUALL says:

TRINITY, La., June 30, 1853.

I have for the last year used the German Bitters prepared by you, in my practice, and find them to be all and more than the only medicine of the kind that can be readily sold here, and I believe that in less than one year there will be more sold in this vicinity than in any other part of the country.

DR. RABE says:

FRANKLIN, La., June 24, 1852.

Your German Bitters have become very popular here, and I wish a fresh supply immediately.

E. A. ADAMS & CO. say:

RICHMOND, La., June 2, 1852.

Your Bitters give universal satisfaction to all who have used them.

You should bear in mind that these Bitters are entirely vegetable, thereby possessing advantages over most of the preparations recommended for similar diseases.

Sold by Druggists and Storekeepers in every town and village in the United States and Canadas. And by
