

New Orleans Daily Crescent

OFFICIAL JOURNAL OF NEW ORLEANS. PUBLISHED DAILY, EXCEPT ON SUNDAYS AND HOLIDAYS. BY NIXON & ADAMS. OFFICE, NO. 70 CAMP STREET.

AMERICAN STATE TICKET. FOR AUDITOR. FRANK HADWORTH, of East Feliciana. FOR TREASURER. J. W. WALKER, of St. Mary.

SUPERINTENDENT OF EDUCATION. W. A. LAKEY, of Calcasieu. FOR CONGRESS. First District—GEORGE BURNS, Jr. Second District—GLENN BURKE.

WEDNESDAY MORNING, AUGUST 14, 1867. The City of the steamer Chancellor has our thanks for late Louisville and Memphis papers.

UNIVERSITY OF LOUISIANA—Medical Department. We have been favored with a copy of the annual circular of the Medical Department of the University of Louisiana.

THE number of graduates this year was 55. The number of matriculants is 252; and in order to show how widely the usefulness of the University is appreciated, we give the nativity of the students.

THE next annual course begins on Monday, the 15th of November next, and we can confidently state to young men throughout the South, who may wish to embrace the medical profession, and become masters of it, that in no other part of the country can they find an institution of similar advantages.

THE great advantages of students in the University beyond the regular course of study, in the free and constant use of Charity Hospital, in which, under the instruction and guidance of the Professors, the most valuable of all education, the practical, is acquired.

PRELIMINARY to the regular course, lectures will be delivered daily in the amphitheater of the hospital, beginning on the 1st of October, free of extra charge. The dissecting rooms are to open on the second Monday of October.

THOSE who desire to avail themselves of the great advantages of the University, may ascertain all needed particulars of Prof. Hunt, the Dean. We refer to the card of the Faculty, in another part of our paper.

MERCANTILE ASSOCIATION OF NEW ORLEANS.—This Association was regularly organized last evening under the constitution adopted at the meeting on the 4th inst., by the election of Gen. A. B. Sikes, Esq., as President; George Seymour, Vice President; Wm. Grogan, Secretary; and James Ellison, Treasurer.

IT being considered necessary that the Association should be incorporated, and a charter for that purpose having been drawn up, it was presented to the Association, approved and signed by the members present; after which, the President was instructed to take all further steps necessary to incorporation.

THE prospects of the Association are extremely flattering, the members numbering already several hundred, and large donations and contributions have been promised by several of our prominent merchants and men of wealth. The election of a proper suite of names for the Association has been referred to a special committee.

NEW MUSIC.—Mr. L. Cahill has furnished us with a copy of the "Mandell's Schottische," one of A. Cardena's "Fleurs du Mississippi," for the piano.

HOPE INSURANCE COMPANY.—The office of this flourishing Company has been permanently removed to Messrs. N. Nicholson & Co.'s, at the corner of Canal street and Exchange Alley. Fire, river and marine risks will be taken, as usual.

NIAGARA SUSPENSION BRIDGE.—A tubular bridge is talked of to connect the United States with the Canadian, and to take the place of the suspension bridge, the dimensions to be as follows: Length of bridge 810 feet; height of piers above water, 235 feet, with a double railway track, carriage way, etc. The reason given for this project is the fact that the suspension bridges are liable to failure. It is asserted that the suspension bridge at Niagara Falls is not to be a permanent structure, that chain bridges cannot be depended upon for a longer period than seven years, the action of the weather and the wear and tear to which they are exposed rendering them dangerous after that time.

BRIDAL MURDER.—On the night of the 24th ult., Mr. William Galt, residing about six miles from Shelbyville, Tenn., was murdered in his bed, and his wife and child were so badly injured that it was believed they would die. The murderer carried off \$1,200, mostly in specie. Great excitement existed among the citizens of Shelbyville, and active measures were in progress to detect the perpetrators. The negroes on the farm were arrested on suspicion.

CHATEAU GIBOUIN.—This unrivaled red wine is to be had of Messrs. Rothchild, Thoms & Co., 319 Canal street. They are the sole agents, not only in this city, but in the United States.

TOILET ARTICLES.—Mrs. Boyd, at No. 128 Camp street, is supplied with everything in the way of permanency and cosmetics that the female toilet can require; and what is more, she sells them twenty-five per cent. cheaper than the ordinary dealer. Read her list in another column.

WINE AND LIQUOR.—The establishment of Mr. Sewell T. Taylor, No. 37 Royal street, keeps up his usual reputation. The very choice brands of Wines and Whiskeys are to be had here. See advertisement in another column.

CHURNS AND BUTTER.—Joe Domingo, the veteran maker of the West Hill No. 71 Canal street, keeps his churning and churning constantly. He imports nothing but the best, and those who may not wish to conveniences with his hand-pumped churning, he has a better chance to get his churning done at the same time, and advertisement.

SPLENDID PAPER HANGINGS.—The stock of wall paper now offered by Mr. P. No. 60 Canal street, is the most extensive and varied ever offered in the South. His display room is worth going a long way to see. Many of the patterns are gorgeous, and all are of the best quality. The inside of the room is made so beautiful as to be a pleasure to the eye. Mr. No. 60 Canal street, has his card and give him a call.

NEW MESS HALL.—Remember that Messrs. Hunt and Wilson, corner of the Crescent office, are disposing of their extensive stock of household goods at low prices. Every thing, almost in kind in the assortment, and there was a better chance to furnish a house elegantly and cheaply at the same time, see advertisement.

SECOND-HAND FURNITURE.—Mr. P. M. Torme, at No. 218 Bourbon street, buys, sells, exchanges and repairs, all kinds of second-hand furniture, on terms which will render it worth while for the owner to give him a call. See advertisement.

Another Row in the Third Congressional District.

The Third District is becoming famous for dissensions. Its pretensions on the score of rows are being admitted on all hands. The general Davidson row, which prevails throughout the entire District, has originated a large number of small rows, now being carried on, according to proportion in many of the parishes, and the national Democracy therein—side side of Kansas to the Freeholders by Buchanan and Walker—is "getting no better fast" in the way of harmony. They are quarreling with each other—telling tales upon each other—and getting into an interminable and vindictive state generally.

Verily, if things keep going on at this rate, the people of the South will begin to believe that the stories told on both sides, and if they do, the leaders on both sides will assuredly be overwhelmed by a storm of popular indignation. If the Democratic reports which are continually set afloat, pro and con, are entitled to credence, it is as certain as the sun shines at noonday that the Democratic voters of the Third District ought to get a new and honest set of political leaders. It is clear that they now have will not answer any eminently honorable or particularly serviceable purpose.

In the parish of Pointe Coupee there is a rumper of extraordinary dimensions "for its size." The Echo is the Democratic journal for that parish. It is opposed to Davidson, and is in favor of a new Convention and a new Congressional candidate. This has drawn upon it the indignation of the Davidson Democracy of the parish. Recently the Democrats of two wards assembled in primary meeting, denounced the Echo, declared that it had forfeited the confidence of the Democracy, and recommended the establishment of another paper which would "faithfully and fully represent the true Democratic sentiment of the parish." This, to us outsiders, appears rather unkind, for to our certain knowledge the Echo has never failed to bestow a hearty blow upon the American party and American Democracy of the parish. The Echo is a Democratic journal, and is in favor of a new Convention and a new Congressional candidate. This has drawn upon it the indignation of the Davidson Democracy of the parish. Recently the Democrats of two wards assembled in primary meeting, denounced the Echo, declared that it had forfeited the confidence of the Democracy, and recommended the establishment of another paper which would "faithfully and fully represent the true Democratic sentiment of the parish." This, to us outsiders, appears rather unkind, for to our certain knowledge the Echo has never failed to bestow a hearty blow upon the American party and American Democracy of the parish.

The number of graduates this year was 55. The number of matriculants is 252; and in order to show how widely the usefulness of the University is appreciated, we give the nativity of the students. From Louisiana, there are 93; Mississippi, 67; Alabama, 39; Texas, 30; Arkansas, 9; South Carolina, 6; North Carolina, 2; Georgia, 4; Tennessee, 3; Ohio, 2; Kentucky, 1; Virginia, 1; Maryland, 1; and Massachusetts, 1.

The next annual course begins on Monday, the 15th of November next, and we can confidently state to young men throughout the South, who may wish to embrace the medical profession, and become masters of it, that in no other part of the country can they find an institution of similar advantages. The faculty consists of James Jones, M. D., Professor of Practice of Medicine; J. T. Riddick, M. D., Professor of Chemistry; Wm. C. M. D., Professor of Surgery; A. H. Ozan, M. D., Professor of Obstetrics; G. A. Nott, M. D., Professor of Materia Medica; J. G. Nott, M. D., Professor of Anatomy; Thomas Hunt, M. D., Professor of Physiology and Pathology; and G. S. Vance, M. D., Demonstrator of Anatomy; Professor Hunt being the Dean of the Faculty.

THE great advantages of students in the University beyond the regular course of study, in the free and constant use of Charity Hospital, in which, under the instruction and guidance of the Professors, the most valuable of all education, the practical, is acquired. The anatomical museum of the College, also, is an accessory which is not excelled by anything of the kind in this country.

PRELIMINARY to the regular course, lectures will be delivered daily in the amphitheater of the hospital, beginning on the 1st of October, free of extra charge. The dissecting rooms are to open on the second Monday of October.

THOSE who desire to avail themselves of the great advantages of the University, may ascertain all needed particulars of Prof. Hunt, the Dean. We refer to the card of the Faculty, in another part of our paper.

Talk on 'Change.

Though the present time is the dullest part of the year, yet the manner in which the rail comes down does not confirm the remark, so far as Aquarius or the water king is concerned. We have not made a regular entry daily of the whims and caprices of the rain king, but we believe rain has fallen almost every day since the 4th of July. Although we have more many times, during the last thirty years, had as much rain in the season, yet it did not follow a cold spring, when the season was retarded thirty days. We have now reached the 12th of August, but no signs of a hale of new cotton from the Mississippi Valley. We have accounts of a bale of this season's growth, being received in Houston, Texas, on the 7th inst.; but this bale is a mere exotic—a plaything—the same as last year, when a bale was forced on the market on the 12th of July, and landed here on the 10th. At the same time, allowing this one bale to be entitled to any influence considered as a reality, it will not alter the general position of the crop now growing.

Some of our friends have been inquiring of us at present, how we would rather be excited just at this moment, though one year ago we expressed our opinions of a great deficiency in the cotton crop, and maintained them through the season, and we now find our figures and estimates do not vary 20,000 bales. We have another correspondent, who, during the spring past, wrote what exceeded about the weekly circulation forwarded to New York to Liverpool, regarding cotton—some highly repeated houses placing the crop of 1858 at 3,200,000 bales, others at 3,100,000, and then stylifying themselves as the season advanced, creeping down to 3,000,000 bales. The most accurate calculator was a telegraph operator, correspondent of the Manchester Guardian, and also of a prominent journal in this city. He, in one of his last communications, placed the growing crop at 2,900,000 to 3,000,000 bales, and the total crop, 3,000,000 bales. To sustain his views, he appealed to the potato crop, because some sacks of the article were received from here in New York in the month of April. These shipments of potatoes were a foreign conclusion that there would be more cotton raised than could be consumed. As this operator of renown is now in England, and the public is occasionally entertained with some of his opinions, we may not be out of place in communicating to him and his friends the prospects of the potato crop, which we transcribe as follows from the commercial report of a Western paper:

Potatoes are selling in Cincinnati at twenty-five cents a bushel. The Cleveland Herald says that it has been estimated that the crop of 1858 will be 10,000,000 bushels at twenty cents, in digging time. Well, although we are not yet ready to be annihilated in regard to cotton, yet we shall have to succumb to potatoes, and desire our readers in Liverpool and London to understand that the potato crop will be immense. We give this information gratis, and for the especial benefit of the Manchester Guardian and its illustrious correspondent, and desire to state that up to this (12th of August) not one bale of the 50,000 bales of cotton which were to be received in August has been received;—many large and many more small!

MORE MISSISSIPPI DESTINATIONS OF GOVERNOR WALKER.—The Carrollton Democrat—an influential journal in our sister State—denounces the abominable treachery of Walker in the following earnest language: Governor Walker was laboring under a strange delusion, if he supposed his past public services, as it is, by apparent merit, to entitle him to the office of Governor of the State, he has shown himself unworthy of the trust reposed in him from the chieftainship that his official delinquency so justly merits in the South.

That he is laboring diligently to thwart the popular will, and to obstruct the progress of the Southern domestic institutions, and force on the people of that Territory a Free Soil constitution, no one can doubt, who has kept up his eyes to the doings of this traitor. Would that the people of this Territory would take the same course in regard to his insurrection in office.

That he has been signally rebuffed by the people that first gave him position, he doubtless feels by this time. The history of his career, from the receipt of the commission to the capture of Delhi, is a lesson, in his haste, their confidence, their places of trust and honor, to the people of this Territory, who have not yet taken the same course in regard to his insurrection in office.

Three Days Later From Europe.

ARRIVAL OF THE CANADA AT HALIFAX. LAYING THE ATLANTIC TELEGRAPH CABLE. Result of the Goodwood Cup Race. MORE OF THE INDIAN REVOLUTION. ADDITIONAL BY THE INDIAN.

HALIFAX, Aug. 11.—The royal mail steamship Canada, Capt. King, from Liverpool on the afternoon of Saturday, August 1st, has arrived at this port, en route for Boston.

The Anglo-Saxon arrived at Liverpool on the 30th ult. Commercial Intelligence. LIVERPOOL, August 11.—The sales of cotton for the week foot up 37,000 bales, of which 9000 were taken on speculation and 42000 on contract. Cotton closed with an advancing tendency.

Orleans Fair, 8 1/2; Orleans Middling, 8 1/2; Mobile Fair, 8 1/2; Middling, 8 1/2. The whole stock in port amounts to 126,000 bales of which 403,000 bales are American.

HAVE COTTON MARKET. HALIFAX, August 10.—Cotton firm. New Orleans rice ordinary is quoted at 118 francs.

LIVERPOOL Cotton Market. LIVERPOOL, August 11.—The weather has been favorable for crops, and the prospects for harvest are good.

Wheat is 1d. 2d. lower. Western Canal flour 30s to 30s 6d. Southern, 31s. Ohio, 32s. White Corn, 45s.

Provisions are buoyant. Pork is 2s higher for the quality. Lard 60s to 62s. Bacon quiet. Sugar and Coffee quiet.

There has recently advanced. Hides dull. London Money Market. LONDON, August 11.—Baring & Bros. report an increased demand for money.

The billon in the Bank of England is decreasing. Consols for money are quoted at 91 1/2. American Securities are dull.

The Atlantic Telegraph. LIVERPOOL, August 11.—The vessel comprising the Telegraphic Squadron had arrived at Cork, and were to leave for Valencia Bay to-day. They will commence submerging the cable on the 3d or 4th.

The whole length of the cable was fully tested at Cork with a highly satisfactory result. Experiments in paying it off have been made between Dover and Queenstown, all of which have proved successful in the highest degree.

Goodwood Cup Races. Both the American horses, Pryor and Progress, ran for the Goodwood Cup, and were beaten. Fourteen horses ran and Pryor and Progress came out fifth and sixth.

Later from India. The arrival of the oriental mail from India confirms the previous telegraphic advices, with the exception of the report of the capture of Delhi.

A conspiracy had been discovered at Calcutta, which comprised within its arrangements a general rising of all the natives of the place.

The rebellion seems to be universal in Bengal. On the 17th, the regiments in Calcutta which had been previously publicly thanked for their behavior were disbanded.

Advices from Madras state that the native troops there manifest the most perfect loyalty. Fifty-six regiments in all have manifested, of which twenty have been disbanded and one disbanded.

The Bengal army has ceased to exist. It is rumored that the British Government intends sending 10,000 additional troops to India.

Consul had advised on the 24th of Saturday on the receipt of the report of the capture of Delhi.

Additional by the Indian. LIVERPOOL, July 23.—The Niagara cable for Cork with her portion of the Atlantic submarine telegraph cable on the 27th.

New York, August 10.—We have the following items yesterday by the Indian, which arrived at Quebec yesterday.

The American Yacht "Charter Oak," had arrived at Liverpool with only two persons on board.

Ledra Rollin and others denounce the charge made by the Paris Monitor, of their complicity in the recent conspiracy to assassinate Louis Napoleon.

The Government intend to demand the transportation of the parties in London, who are charged with being engaged in the late conspiracy against the Emperor. They will appear at a British Court.

Spain. Advices from Madrid state that the English and French Ambassadors had notified Spain that their Governments would not assist her in a war with Mexico, and consequently Spain acceded to their mediation.

Santa Anna had arrived at Madrid. India and China. We have advices from Calcutta, Madras and Bengal. The insurrection is spreading among the Bengal troops.

The King of Oude had been arrested and proofs of his complicity in the mutiny obtained. It was reported that Delhi had been captured, but the statement is entirely untrue.

The native troops in the Calcutta barracks had been quietly disbanded. We have advices from Hong-Kong to June last. After two severe engagements the Chinese fleet had been destroyed. The British loss was about 80 killed and wounded.

Minnesota News. CHICAGO, August 10.—Advices from Minnesota state that the arrival of Major Sherman's company overawed the Sioux, and they are now submissive.

Washington News. WASHINGTON, August 11.—The Postmaster General has completed his arrangements for the concentration of the great Northern and Eastern mail at Cincinnati for distribution; also for endeavoring to improve the Southern mail service.

Captain Pope is ordered to the command of the navy yard at Portsmouth, N. H., vice Com. Newton, deceased. Captain McKoon is appointed to the Superintendent of the Navy Arsenal at Philadelphia, to receive Com. Stone.

Elegant Stock of Clothing.

FOR MEN, BOYS AND CHILDREN, AT NEAR COST! ALFRED MUNROE & CO., No. 31 Magazine Street, corner of Gravier, WILL BE OPENED MONDAY, the 13th inst. SUMMER CLOTHING. NEAR COST!

Patent on Challenge Shirts. Our goods are the price as any other maker, and superior in form and fit.

The Best Remedy FOR CHILLS AND FEVER. OSOOS'S INDIA CHOLAGOUE.
