B. A. FAHNESTOCK'S VERMIFUGE IN LOUISIANA—Twenty-one feet of Tape Worm expelled. Bayou Sara, La., January 14, 1855.
Messrs. B. A. Fahnestock & Co.:
Gentlemen—Some years since I recommended your Vermifuge to my relative, Mr. Charles Wee, of Jefferson county, Miss. for a child, eighteen months old, who was supposed to be dying from fits. He gave it two or three vials, which brought from it a tape worm twenty one feet long, and cured the child. This worm I preserved, and have shown it to planters in the city and the adjoining counties. I have sold thousands of bottles of your Vermifuge with perfect satisfaction to the purchasers. If this will be of any service to you, you are at liberty to use it. Valuable remedy, you are at liberty to use it.
JAMES P. HARPER,

THE COMMERCIAL DEPARTMENT.

New Orleans Money Market.

CRESCENT OFFICE, No. 70 Camp street,
Saturday Evening, Sept. 19, 1857.

The statement of the Banks, made to the Board of Currency this morning, is much more favorable than expected. There has been a reduction in full loans and discounts for the week of $27,000. There has also been an increase in coin and deposits.

The changes for the week are—

An increase in specie of	$188,968
An increase in deposits proper of	125,108
An increase in short loans of	466,979
An increase in exchange of	126,809
An increase in balances due distant banks	112,818
A decrease in circulation of	72,190

The actual variation in long and short loans is a decrease for the week of..... 27,970

The increase in deposits is with the Citizens', Union and Canal Banks. This looks well, considering the general position of the money market for the week. The increase in short loans is nominal, being the transfer of dead weight into active movement. The increase in exchange is with the Citizens' and Union Banks. It is gratifying to remark that the resources of these two Banks have kept the exchange market from further depression. The State Bank has also purchased during the week. One of the free banks has no exchange. The question of exchange will be coming up pretty formidable next month, as soon as the receipts of cotton bring large operators in the staple into market. The four old Banks were above line this morning in the sum of $683,000, say the Canal Bank $190,000, the Citizens' $161,000, the State Bank $164,000, Bank of Louisiana $61,000. This is not sufficient surplus to keep these Banks from being out of line should either of them pursue the trifling amount of a quarter of a million of dollars at one time. Every day the fallacy of the Legislation of the last general assembly is becoming manifest.

The four free Banks are all in excellent trim. They, however, like the old Banks, cannot discount only moderately above the respective income of each for the coming week. Independent of the security lodged with the State authorities for the circulation, each free bank has also to have sufficient coin in vault to meet the daily presentation of their issues.

The following was the position of the Banks on the 20th of September, 1856, one year ago:

Specie	$6,748,461
Circulation	7,811,395
Deposits	10,977,996
Short loans	19,483,499
Exchange	2,347,171
Due distant Banks	818,747
Long and short loans	24,942,716

It will be seen that the expansion of discounts in long and short loans to-day is only $494,531 in excess of last year. To the increase in circulation may be added the Bank of James Robb, so if there is any cause for excitement or panic in our market, we have not met with the causes, nor are there any reasons for believing that a pressure or stringency can last long. We expect that exchange will decline, and go lower than it has for years. This conforms to the natural laws of trade.

Under the daily accounts received by telegraphic and mail of high rates of interest being paid in Northern cities, with daily failures and suspensions, there has been some reaction on our market, which was observable to-day in some circles, leading to higher rates of interest being paid than for a long time past, and refusals of loans on the very best of securities.

The exchange market continues to lean in favor of buyers, with the exception of Bank checks on New York, for which the Banks obtain one per cent. prem. Outside there were sales of sight drafts at ½@¾ prem., with more firmness evinced by drawers. There were also purchases by dealers of sight at ½@¾ premium, and three days without grace at par; in fact, there are every shade of rates for sight and short sight, say one, three and five days sight, from par up to the Bank rate of one per cent. Sixty days sight was taken at 3% discount—extreme rates being from 2½@3½ discount, with a downward tendency, probably touch at 4. Sterling was taken for bills at 7¼@7⅜, and good at 7, with some bills of lading drafts being closed at 6 and below. Francs heavy at 5.30
