BRIDGEWATER PAINT.

BRIDGEWATER MINERAL PAINT,
FOR WOOD, BRICK AND OTHER BUILDINGS,
Steamboats, Ships, Railroad Cars,
DEPOTS, AND ALL OUT-DOOR WORK
—Also, for all kinds of—
IRON WORK, ABOVE AND UNDER WATER.

G. C. BOGERT & CO., Agents,
No. 72 Camp street, N. O.

The superior qualities of the BRIDGEWATER PAINT are so extensively known, and its reputation so favorably established, that the Agents do not deem it necessary to enter into any lengthened description of its merits, and will, therefore only point out a few of its prominent properties, and refer direct to selected testimonials from parties, for the most part, well known in this vicinity.

For covering Roofs, either Tin, Iron, Zinc, Paper, Canvas or Wood, it will be found invaluable, as the bending, shrinking or warping of the material upon which it is used, does not affect the Paint. In twenty-four hours it dries, and in four weeks it becomes a perfect Slate. As a FIRE and WATER-PROOF Paint, it will be found superior to any other, and a perfect protection to buildings against sparks, cinders, etc.

It possesses great BODY, ELASTICITY, FLEXIBILITY and ADHESIVE properties, superior to any mineral substance now in use.

For DECKS of STEAMERS, either Wood or Canvas, it has no rival, as it not only dries rapidly, but becomes as hard as stone in a comparatively short time, forming a cooling perfectly SPARK and CINDER PROOF. The great body of the Paint, which has astonished all painters who have used it, makes it the best and cheapest covering for WOOD, TIN, CANVAS or MUSLIN ROOFS.

For every description of SHIP PAINTING, either Wood or Iron, above or under the water, it will be found unsurpassed, and it is especially recommended for decks of vessels. The certificates annexed on this point are most convincing.

For RAILROAD CARS, DEPOTS, BRIDGES AND ALL OUT-DOOR WORK, it has been successfully used at the North and has proven of incalculable service in durability, as well as the protection it affords against leaks, and injury to the cars from the effects of falling sparks and cinders.

For the purposes for which the Paint is recommended, it is UNEQUALED, and its value for PLANTATION use, for STEAMBOATS, etc., etc., is INCALCULABLE, besides being CHEAPER than ANY other PAINT in the COUNTRY. Its peculiar qualities must secure its general use in the South; and

TO PLANTER, BUILDER and STEAMBOAT OWNER

will by a single trial, be convinced of the superior advantages of the BRIDGEWATER PAINT, on the score of economy, durability and protective properties over all other mineral substances.

DIRECTIONS:

The quantity of oil required to reduce it to a proper consistency for use, depends upon the absorbing character of the surface to which it is applied. Great care should be observed to sweep clean the surface before painting. In applying it to canvas, it is better to use flour sizing first, as it prevents the decaying of the cloth, and makes a smooth, hard body, fire and water proof. One hundred pounds covers a surface of two thousand square feet with two coats.

In mixing with raw linseed oil, one pound of Litharge should be used to five gallons of oil. With the boiled oil no drier is necessary.

The BRIDGEWATER MINERAL can also be used for Fences, Barns, etc., by substituting lime for oil. Thus: One-twentieth lime, WELL SLACKED, then mix with the Mineral and reduce to a consistency for use by adding water. Apply with an ordinary white-wash brush.

Selected Certificates.

Certificate of the New Orleans Underwriters.

The undersigned Underwriters, having confidence in the BRIDGEWATER PAINT, for the covering of shingle roofs and frame buildings, will, at all times, give those fire risks a preference where the Bridgewater Paint is used.

Certificate of John F. Miller, of Attakapas.

New Iberia, Attakapas, March 16, 1859.

In July last, I was induced to apply the BRIDGEWATER MINERAL PAINT to my Sugar House, and in every respect it has exceeded my expectations, and the representations made by the Agents, Messrs. G. C. BOGERT & CO. I cheerfully add my testimony to the numerous ones embraced in the Agent's Circular, and recommend the same to Planters and others, as the best Fire and Water Protector I have ever known. Where I have applied it, it has been exposed to the sun since last July, and has neither blistered nor cracked, and has formed a solid metallic surface which has not entirely impervious.

(Signed) JOHN F. MILLER.

New Iberia, Attakapas, March 23, 1856.

The opinion entertained by me of the BRIDGEWATER PAINT, as expressed in the above certificate in 1856, has been more than confirmed since then. I consider it the most durable paint known, and combines all the virtues claimed for it by the Agents. (Signed) JOHN F. MILLER.

Certificates of Masters of Vessels, Ship Carpenters, etc.

Certificate of Hughes & Valette.

New Orleans, March 4, 1856.

We have used the Bridgewater Mineral Paint, for which G. C. Bogert & Co. are agents, for the past five years, on steamboats, and on the Louisiana Dry Docks, and have had every opportunity of judging of its merits as a durable and protective paint.

In our opinion, it is superior to any we have ever seen when applied on fresh work, and is in every respect equal to what it is represented to be. In a short time it becomes a perfect slate, and yet possesses great body and elasticity. For decks of vessels, railroad cars, bridges, depots, and every description of roofing that is exposed to the weather, Bridgewater Mineral Paint we consider invaluable.

HUGHES, VALETTE & CO.,
(Signed) Agents of the Louisiana Dry Dock.

Certificate of Wm. C. Templeton.

G. C. Bogert—Dear sir: I have used your BRIDGEWATER PAINT on the decks of my steamships, and having fully tested its value, cheerfully recommend its use as the best and most economical paint I have ever used. I have also found it unequaled for painting decks covered with canvas, being flexible and impervious to water, and a protection against fire.

(Signed) W. C. TEMPLETON.

Certificate of Capt. Hall, bark Hiawatha.

New Orleans, Dec. 17, 1856.

I have used the Bridgewater Paint on the deck and houses of the bark Hiawatha, and find it superior to any paint I have used. I recommend it to masters of vessels, especially for decks. In June last my decks leaked, and the Bridgewater being gone, I repainted, applied two coats, since which they have been perfectly tight, and have not needed caulking or painting.

(Signed) DAVID. H. HALL, Master bark Hiawatha.

Certificate of Capt. Gale, of ship R. D. Shepherd.

New Orleans, Dec. 18, 1856.

Having used the Bridgewater Paint, on decks and other parts of my vessel, for some time past, I cheerfully endorse its merits, and consider it the best paint for durability and protection that I have ever used.

(Signed) JAMES GALE, Master of ship R. D. Shepherd.

Certificate of Capt. Hiter, of ship Tirrell.

New Orleans, March 3, 1856.

I have been using the Bridgewater Mineral Paint on the house of my ship, for the past two years, and consider it a most valuable paint for sea going vessels. I recommend its use to all without hesitation, both for economy and its undoubted protective qualities.

(Signed.) THOMAS G. HILER.

Certificate of Capt. R. Tucker, of ship Helen McGaw.

New Orleans, March 20, 1856.

I have tested the Bridgewater Paint, for which G. C. Bogert & Co. are agents, in various ways on my vessel in the past two years, and have found it in every respect superior to any paint I have ever seen. It is, in my opinion, invaluable as a durable and protective substance, and I recommend it to masters for ships' use in preference to any other.

R. TUCKER,
Master of ship Helen McGaw.

Certificate of Capt. St. Clair Thomasson, of the Steamer Magnolia.

New Orleans, Dec. 2, 1851.

Having painted the barricade deck of the passenger steamer Magnolia, under my command, with the BRIDGEWATER PAINT, I cheerfully recommend it for its impervious qualities, and have no hesitation in recommending it to any judicious master, to any mineral paint before the public, and believe it to be a certain protection against the effects of sparks and cinders. It has also proved entirely water-proof on my decks after three months' use. (Signed,) ST. C. THOMASSON.

Certificate of Capt. William Brown, of Towboat Porpoise.

I have used the BRIDGEWATER PAINT, for which Messrs. G. C. BOGERT & CO. are agents, on the barricade deck of the towboat "Porpoise." The paint has been on about three months, and sparks and cinders constantly fall on it, but have done it no sort of injury whatever. In about four weeks it became a perfect slate, and I am satisfied of its possessing all the qualities necessary to insure it a certain protection against the effects of sparks and cinders. I confidently recommend the Bridgewater Paint for the purposes set forth in the Agent's circular.

(Signed.) WM. BROWN, Captain of Towboat Porpoise.

New Orleans, Feb. 4, 1854.

Having had the Louisiana Dry Dock painted with the BRIDGEWATER PAINT, and its merits thoroughly tested, we concur in opinion with Capt. Thomasson, of the Magnolia, and Capt. Brown, of the Porpoise. We cheerfully recommend said paint as a superior article.

HUGHES, VALETTE & THOMAS, Louisiana Dock Yard.
J. F. WHITNEY & CO., Agents Louisiana Dry Dock Co.

Certificate of Capt. Thos. S. Minott, of Ship Oxford.

New Orleans, May 4, 1852.

I have used the BRIDGEWATER PAINT on the iron work, as also on the decks and canvas tarpaulins of the ship Oxford, and entirely to my satisfaction. I find that much of the rusting of iron and rotting of wood and canvas is prevented by the use of the Mineral Paint, and can recommend it to ship masters and owners as a valuable and thrifty paint. THOS. S. MINOTT.

Certificate of Wm. S. Adams, Master of Ship Joseph Holmes.

New Orleans, Dec. 8, 1852.

I have used the BRIDGEWATER MINERAL PAINT on the iron work of the ship Joseph Holmes, for the last twelve months, and I think it is superior to red lead or any other paint for iron that is exposed to salt water. WM. S. ADAMS.

Certificate of Wm. Cutts, Master of Ship Charles Cooper.

New Orleans, Nov 26, 1856.

I feel compelled, after having used the BRIDGEWATER MINERAL PAINT on the decks of my ship over nine months, to say that it has proved infinitely superior to any Paint I have ever seen. I gave a certificate in March last, after one month's use, and my convictions then have been more than confirmed, and I have now no hesitation in saying that the Bridgewater Paint CANNOT BE EQUALED for ship purposes, and ship masters may rely on its not corroding by the action of salt water, nor blistering or warping by exposure to the sun.

WM. CUTTS, Master of ship Charles Cooper.

Certificate of Capt. M. L. Carpenter, of Ship Elizabeth Denison.

New Orleans, Dec. 4, 1852.

I have used the BRIDGEWATER MINERAL PAINT, for which G. C. BOGERT & CO. are Agents, on the decks of my ship, and I can testify to its superiority over all other Paints I have ever used. It is cheaper and more durable than any other, and I have no hesitation in recommending it to masters as the best substance for ship purposes I know of.

M. L. CARPENTER, Master of ship Elizabeth Denison.

Certificate of J. H. Whiting, Master of Bark Yankee Blade.

New Orleans, May 1, 1852.

The BRIDGEWATER Fire and Weather Proof PAINT, having been strongly recommended to me, I was induced to apply it to the decks of my vessel, and it gives me better satisfaction than any other paint I have ever used. I recommend it to ship owners, and believe it will when properly applied, prove very leaks of decks and preserve the wood. I consider it a valuable discovery for ship owners, and intend hereafter to use the Bridgewater Mineral Paint in preference to any other.

J. H. WHITNEY, Master of Bark Yankee Blade.

Certificate of J. H. Ashley, Master of Schooner L. F. Rogers.

New Orleans, July 15, 1852.

I have used the BRIDGEWATER PAINT on the decks of the Schooner "L. F. Rogers," and find that it is the best Paint we decks I have ever used. J. H. ASHLEY, Master.

BRIDGEWATER PAINT.

Certificates of Railroad Officers.

West Point, Dec. 17, 1851.

I have used the BRIDGEWATER PAINT upon the buildings under my charge at West Point, and have found it to fulfill every all my expectations. I have no hesitation in adding my testimony to the good qualities of the paint, deeming it the best article I have ever used.

LIEUT. and Quarter Master U. S. Military Academy.

Certificate of Oliver H. Lee, Superintendent of Hudson River Railroad.

Hudson River Railroad Office, New York, Jan. 16, 1852.

This is to certify that I have used the BRIDGEWATER PAINT on roofs of cars, on a metal roof of Depot buildings, and on iron work generally, and to some extent on wood work, and have no hesitation in saying that, besides taking the price into consideration, it is the best article for the uses I have named with which I am acquainted. It seems to possess durability and adhesiveness, and fully meets my expectations.

OLIVER H. LEE,
Late Superintendent of H. R. Railroad.

Mr. Lee is now Secretary H. R. Railroad.

Certificate of D. C. McCallum, Asst. Engineer N. Y. and Erie Railroad.

Engineer's Office, Oswego, March 16, 1852.

Having to some extent used the several Mineral Paints which have been before the public for several years past, and finding none of them what, in my opinion, they were recommended to be, I was induced very reluctantly to try the BRIDGEWATER PAINT. I have painted several bridges on the New York and Erie Railroad with this article, and have found it to be much superior to any article of the kind now in use.

(Signed) D. C. MCCULLUM,
Assistant Engineer, N. Y. and E. Railroad.

Certificate of G. H. Talcott, Brevet Lieutenant Colonel New York Arsenal.

New York Arsenal, Oct. 23, 1851.

Being advised by one of the first painters in the city of New York to use the BRIDGEWATER PAINT in preference to any other, upon the Ordnance Buildings in my charge, on Governor's Island, I did so, and found it all that it was recommended to be. The buildings, which are of both wood and stone, are painted, and I cheerfully give my testimony in behalf of the virtues of the paint, deeming it superior to any now in use.

G. H TALCOTT, Bt. Lt. Col.

Certificate of R. E. Alexander, of the United States Military Academy.

U. S. Military Academy, Jan. 26, 1852.

I have used the BRIDGEWATER PAINT upon some of the buildings under my supervision at West Point, and I cheerfully add my testimony as to its durability as a fire proof. Painters, I shall recommend it to my friends and use it myself.

R. E. ALEXANDER, Lt. Eng., U. S. A.

Painters' Certificates.

New York, Nov. 1, 1851.

I have been using Bridgewater Paint for the last six months, in preference to any other mineral paint, and in no instance have I been disappointed in its qualities. I painted the Ordnance Buildings, on Governor's Island, with it, and I have no hesitation in saying it covered the brick and lime stucco work better than any paint I could have used.

RADCLIFF CARMAN, Painter and Dealer in Paints, 85 Barclay street.

New York, Oct. 1, 1851.

The undersigned, having been induced by recommendation to use the Bridgewater Paint on the roof of their office, which was in so leaky a condition that during storms of any extent the rain came through in streams in several places, are happy to state that by one single coat of this paint the office has been rendered perfectly dry and tight.

FARRAR & BELLONI.
Cor. Ninth and Stuyvesant streets.

New York, Dec. 30, 1851.

We certify that we have used the Bridgewater Mineral Paint and are satisfied from our own observation that it is full equal to any paint of the kind now in use.

FARRINGTON & CLARK, Painters and Dealers,
210 Eighth Avenue.

Certificate of Joseph Benson, Painter, 132 Camp St., New Orleans.

New Orleans, Feb. 5, 1852.

I have used the Bridgewater Paint for the past five months on brick and plastered buildings, and on tin, shingle and canvas roofs, and in every instance it has given the fullest satisfaction. From tests and experiments made under my immediate direction, I can testify to its being proof against the effects of sparks and cinders, and a protection against leaks. I consider it far superior to any mineral paint I have ever seen, and invaluable for all out-door purposes: possessing qualities that particularly recommend it for use in a Southern climate.

JOSEPH BENSON, Painter,
No. 132 Camp street.

The attention of Planters is particularly directed to the following:

We, the undersigned, Cotton Factors and Commission Merchants, do cheerfully recommend the Bridgewater Paint for the purposes set forth in the Agent's Circular, and take pleasure in serving the interests of planters by calling their attention to its peculiar enduring and protective qualities.

PAYNE & HARRISON.
WRIGHT, WILLIAMS & CO.,
GEO. M. PINCKARD & CO.,
BUCHANAN, CARROLL & CO.,
WARD & JONAS.
WATT & DASAULLES,
HILL, MCMANUS & CO.,
M. GREENWOOD & CO.

In addition to the above incontrovertible testimony of the superiority of the BRIDGEWATER PAINT, the Agents have in their possession innumerable certificates, which may be seen on application at their office.

The Agents deem it their duty, as well for the protection of the public as for the character of the Bridgewater Paint, to caution all interested against the imposition that has been practiced, to a considerable extent, the past year. Owing to a competition of causes, the Company have not been enabled to keep a supply equal to the demand, and it is within the POSITIVE KNOWLEDGE of the Agents, that various mineral substances have been sold to parties OUT OF THIS CITY, as the Bridgewater Paint. In order to prevent any future disappointment, we would suggest that orders be sent **direct to us,** or to correspondents here, with instructions to purchase ONLY of the Agents. For the future, we shall be regularly supplied and will be able to fill orders to any extent.

NO DEVIATION IN PRICE. Terms—For all sums under $100, CASH; from $100 to $300, sixty days; $300 and upwards, four months credit for approved city acceptance.

For sale dry, in packages of 350 pounds, by

G. C. BOGERT & CO.,
72 Camp street,
Agents for the States of Louisiana,
a22 tf Mississippi, Alabama and Texas.

NOTICE—R. CAHUZAC & CO. HAVING DISSOLVED this date, either partner will sign the name of said firm in liquidation. RAYMOND CAHUZAC,
STANISLAS PLASSAN.

THE UNDERSIGNED HAVE FORMED A NEW copartnership in commendum under the style of S. PLASSAN. STANISLAS PLASSAN,
RAYMOND CAHUZAC,
In Commendam.
New Orleans, June 1, 1857. jel

NOTARIAL NOTICE.—Wm. P. CHARLES CUVILLIER, Notary Public, is associated with the undersigned, and the Notarial business heretofore conducted by me at No. 55 Camp street, will be continued by us at the same place, without interruption. WALTER H. PETERS.
