DOUBLING THE INCOME OF COTTON PLANTERS.

PATENTED IMPROVEMENT IN THE MANUFACTURE OF YARNS.

Employing to Spin the Crop up but about one-fourth the number required to raise it. In the number consisting of children of six years of age and above, and women unfit for plowing or picking cotton.

I am prepared to furnish Planters with this NEW COMBINATION OF MACHINERY, inclusive of the STEAM ENGINE, if required, complete. The Gin with Lap Apparatus in one Machine, and the Sequent Machines of the Spinning Series, and to have all arranged in the Spinning Room on the plantation, complete, with grass-duplicate. Also, competent Engineers.

ONE-HALF OF THE NEW PORTION OF THE INCOME the year we first spin, will MORE THAN PAY for the whole Machinery, inclusive of the Steam Engine and the Spinner's Wages.

No IMPROVEMENT, in its results to the Planter, is equivalent to his having purchased of me a plantation, negros, etc., more productive than those he now works; and while his Spinning interests will prove his diversion, it will be removed from the cares and anxieties inherent to Planting, Gathering and Baling up a crop.

MY TERMS.

MACHINERY is a CASH ARTICLE, but for good acceptance I can grant reasonable facilities; and for the RIGHT OF THE PATENT, one-fourth of the gain of the first five years of the excess the Yarns bring over Ginned Cotton, with a contract insuring payment should the plantation change proprietors.

Propositions from Planters may now be made, and to know cost of Machinery in their particular case, they must not omit to state what has been the number of pounds of Cotton ginned how many pounds of Yarn a day they must Spin.

GEO. G. HENRY, Mobile, Ala.

GILHAN'S PNEUMATIC SUBSOIL AND GRANULATOR is now in use on seven plantations, comprising the largest and smallest classes; on some of which it has taken off three crops. It is combined and attached to the Planter, and will be found, direct, no additional boilers are required where the sugar-mill boilers are large and Gilhan's Bagasse Furnace is used—one pair of mules will draw the Planter and Subsoiler and 24 feet long, with Gilhan's Bagasse Furnace, now furnish steam to grind the cane and run the Pneumatic Battery, making 10 kinds, sugar and

26. The Pneumatic Battery or Granulator is put in operation at much less expense to the planter than any other steam battery or application of steam, so making sugar, in part or entirely by steam.

For further information, a pamphlet with full specifications and drawings will be sent on application to me or my agent in New Orleans, Mr. G. W. Church, Thomas Murray, Isaac Thayer Mather, Purser & Co., Camp street.

RURAL RESIDENCES—

MANUFACTURING SITES!
RARE OPPORTUNITY!
LONG CREDIT!!!

FOR SALE—150 SQUARES OR ABOUT 3400 LOTS IN THE TOWN OF KENNER.

This property is situated on the line of the N. O., Jackson and G. N. Railroad, ten miles from the city. The ground, forming a part of the Metairie Ridge, is higher than any other place within forty five miles, and will drain itself rapidly, without any artificial means.

To secure airy, healthy and agreeable neighborhoods, as residential retreats for the families and business men of the city, certain sections of the higher grounds have been set apart for private residences, with ample space and under uniform regulations, all of which shall be lined with trees, and will have shade and ornamental trees. To meet their wants, grounds have been set apart and will be donated to the proper parties for schools, churches, public squares, etc. Here trade and wealth may combine to make a place unsurpassed for rustic beauty.

Other sections are set apart for business purposes. This locality presents more decided advantages for a manufacturing town than any other point in our State. It lies a front on the Mississippi river of more than two miles, and a rear upon the navigable waters of Lake Pontchartrain, only about four miles distant. It is directly on the line of the N. O., Jackson and G. N. Railroad connects directly with the river, and offers at the same time easy access to the piney woods and lumber districts. Here will be the manufacture of all descriptions, dry docks and steamboat building. It has not a superior; and for the encouragement of artizans and the mechanic arts, so much needed in our midst, liberal inducements will be offered.

Lumber by the daily trains, and brick made on the spot, can be delivered to suit the convenience of parties. The Railroad Company will render the necessary facilities to the traveling community, and will run an accommodation train to and from the town at 8 hours to suit the convenience of those doing business in the city, as soon as a sufficiency of travel may require it. Mr. P. Irwin will also run his line of omnibusses to the depot at the requisite hours, and will make arrangements for with Canal street.

A portion of this property will be sold as low prices, for the small payment of five per cent. in cash, balance five years credit with interest at six per cent. per annum.

For further particulars, apply to MINOR KENNER, at the town of Kenner, W. P. GOLEMAN, 46 St. Charles street; or J. R. WISE, 14 Carondelet street.

A NEW DISCOVERY—THE GREATEST AND MOST WONDERFUL IN THE WORLD.

SARSAPARILLA LOZENGES,

Simple and Compound.

Prepared by Dr. HERKEL, Chemist and Physician.

Superior to all Essences, Syrups and Extracts so named, and to all sarsaparilla heretofore known.

I have for a long time been deeply investigated the idea of a general therapeutic agent, susceptible of being applied to all diseases, whether of constitution or material principle of which proceeds from an internal cause, either in the blood or any of the organs.

A careful and uninterrupted analysis of the animal, vegetable and mineral kingdoms has induced the hope that I could bring about such a result, and, thanks to my indefatigable researches, it is now obtained.

I have found in many vegetables the necessary means for this grand idea, which is based upon an oleaginous principle of Sarsaparilla partly known to the public. Such is the discovery which I have made by the aid of scientific research. The form of Lozenges has been given to it, because its nature precluded the possibility of doing otherwise; and I have divided it into simple and compound Lozenges, in order that they might be given to children as well as adults.

My first experiments were made privately, and remained unknown until confirmed, and satisfied me that I had succeeded, and that the charge of quackery could not be brought against me.

The sanction of physicians and of the public is called to these Lozenges, in order that every one may witness the admirable results of the same.

GENERAL EFFECTS

Testified to by upwards of a thousand persons.

The stomach is cleansed, the blood is purified and renovated by removing all impurities from this precious organ and fluid.

SPECIAL EFFECTS.

1. Prompt and radical cure of all diseases generally.

2. Persons who have used these Lozenges have never had the cholera or the fever and ague.

3. Venereal, syphilitic, hepatic, scorbutical, gouty, rheumatic and nervous and bilious diseases, are completely cured a few days after the remedy is resorted to.

4. All diseases of the lungs, kidneys, stomach, bowels and other internal and external complaints disappear entirely, provided the Lozenges are resorted to.

For sale by the box, with a prospectus, showing how they must be used.
