BRIDGEWATER PAINT.

BRIDGEWATER MINERAL PAINT,

FOR WOOD, BRICK AND OTHER BUILDINGS,

Steamboats, Ships, Railroad Cars,

DEPOTS, AND ALL OUT-DOOR WORK

—Also, for all kinds of—

IRON WORK, ABOVE AND UNDER WATER.

G. C. BOGERT & CO., Agents,

No. 72 Camp street, N. O.

The superior qualities of the BRIDGEWATER PAINT are so extensively known, and its reputation so favorably established, that the Agents do not deem it necessary to enter into any lengthened description of its merits, and will, therefore, only point out a few of its prominent properties, and refer direct to selected testimonials from parties, for the most part, well known in this vicinity.

For covering Roofs, either Tin, Iron, Zinc, Paper, Canvas or Wood, it will be found invaluable, as the bending, shrinking or warping of the material upon which it is used, does not affect the Paint. In twenty four hours it dries, and in four weeks it becomes a perfect Slate. As a FIRE and WATER-PROOF Paint, it will be found superior to any other, and a perfect protection to buildings against sparks, cinders, etc.

It possesses great BODY, ELASTICITY, FLEXIBILITY and ADHESIVE properties, superior to any mineral substance now in use.

For DECKS of STEAMERS, either Wood or Canvas, it has no rival, as it not only dries readily, but becomes as hard as stone in a comparatively short time, forming a coating perfectly SPARK and CINDER PROOF. The great body of the Paint, which has astonished all painters who have used it, makes it the best and cheapest covering for WOOD, TIN, CANVAS or MINERAL ROOFS.

For every description of SHIP PAINTING, either Wood or Iron, above or under the water, it will be found unsurpassed, and it is especially recommended for decks of vessels. The certificates annexed on this point are most convincing.

For RAILROAD CARS, DEPOTS, BRIDGES AND ALL OUT-DOOR WORK, it has been successfully used at the North and has proven of inestimable service in durability, as well as the protection it affords against dampness, heat, and injury to the cars from the effects of falling sparks and cinders.

For the purposes for which the Paint is recommended, it is UNEQUALED, and its value for PLANTATION use, for STEAMBOATS, etc., etc., is INCALCULABLE, besides being CHEAPER than ANY other PAINT in the COUNTRY. Its peculiar qualities must secure its general use in the South; and any PLANTER, BUILDER, STEAMBOAT OWNER will by a single trial, be convinced of the superior advantages of the BRIDGEWATER PAINT, on the score of economy, durability and protective properties over all other mineral substances.

DIRECTIONS:

The quantity of oil required to reduce it to a proper consistency for use, depends upon the absorbing character of the surface to which it is applied. Grease, carry should be observed to sweep clean the surface before painting. In applying it to canvas, it is better to use flour sizing first, as it prevents the decaying of the cloth, and makes a smooth, hard body, fire and water proof. One hundred pounds covers a surface of two thousand square feet with two coats.

In mixing with raw linseed oil, one pound of Litharge should be used to five gallons of oil. With the boiled oil no drier is necessary.

The BRIDGEWATER MINERAL can also be used for Fences, Barns, etc., by substituting lime for oil. Two-twentieth lime, well slacked, then mix with the Mineral and reduce to a consistency for use by adding water. Apply with an ordinary white-wash brush.

Selected Certificates.

Certificate of the New Orleans Underwriters.

The undersigned Underwriters, having confidence in the BRIDGEWATER PAINT, for the covering of shingle roofs and frame buildings, will, at all times, give those fire risks a preference where the Bridgewater Paint is used.

SAML. F. ASHTON, Agent Delaware Mutual " "

Certificate of John F. Miller, of Atchapalas.

New Iberia, Atchapalas, March 16, 1852.

In July last, I was induced to apply the BRIDGEWATER MINERAL PAINT to my Sugar House, and in every respect it has exceeded my expectations, and fully represented to me by the Agents, Messrs. G. C. BOGERT & CO. I cheerfully add my testimony to the numerous ones received by Agent in Cincinnati, and recommend the same to Planters and others, as the best Fire and Water Protector I have ever known. Where I have applied it, it has been a preventive to the fire heed daily, and no neither blistered nor cracked, and has formed a solid metallic surface which has proved entirely impervious.

(Signed) JOHN F. MILLER.

Certificate of Dr. C. McCullum, Asst. Engineer N. Y. and Erie Railroad.

Engineer's Office, Owego, March 16, 1852.

Having to some extent used the several Mineral Paints which have been before the public for several years past, and finding none of them what, in my opinion, they were recommended to be, I was induced very reluctantly to try the BRIDGEWATER PAINT. I have painted several Bridges on the New York and Erie Railroad with this article, and have found it to be much superior to any article of the kind now in use.

(Signed) D. C. McCULLUM,
Assistant Engineer, N. Y. and E. Railroad.

Certificate of G. H. Talcott, Brevet Lieutenant Colonel New York Arsenal.

New York Arsenal, Oct. 3, 1851.

Being advised by one of the first painters in the city of New York to use the BRIDGEWATER PAINT in preference to any other, upon the Ordnance Buildings in my charge, on Governor's Island, I did so, and found it all that it was recommended to be. The buildings, which are of brick, speak for themselves, and I cheerfully give my testimony in behalf of the virtues of the paint, deeming it superior to any now in use.

G. H TALCOTT, Bt. Lt. Col.

Certificate of B. S. Alexander, of the United States Military Academy.

U. S. Military Academy, Jan. 26, 1852.

I have used the BRIDGEWATER PAINT upon some of the buildings under my supervision at West Point, and I cheerfully add my testimony as to its durability and cheapness. In future, I shall recommend it to my friends and use it myself.

B. S. ALEXANDER, Lt. Eng., U. S. A.

Painters' Certificates.

New York, Nov. 1, 1851.

I have been using Bridgewater Paint for the last six months, in preference to any other mineral, and in no instance have I been disappointed in its qualities. I painted the Ordnance Buildings, on Governor's Island, with it, and I have no hesitation in saying it covered the brick and lime stucco work better than any paint I could have used.

RADCLIFF CARMAN, Painter and Dealer in Paints, 88 Barclay street.

New York, Oct. 1, 1851.

The undersigned, having been induced by recommendation to use the Bridgewater Paint on the roof of the Phœnix Hotel, and to in so leaky a condition that during storms of any extent the rain came through in streams in several places, are happy to state that by one single coat of this paint the roof of the office has been rendered perfectly dry and tight.

FARRAR & BELLONI,
Cor. Ninth and Sycamore streets.

New York, Dec. 30, 1851.

We certify that we have used the Bridgewater Mineral Paint and are satisfied from our own observation that it is fully equal to any paint of the kind now in use.

FARRINGTON & CLARK, Painters and Dealers, 210 Eighth Avenue.

Certificate of Joseph Benson, Painter, 132 Camp St., New Orleans.

New Orleans, Feb. 6, 1852.

I have used the Bridgewater Paint on the roof of my house on brick and plastered buildings, and on tin, shingle and canvas roofs, and in every instance it has given the fullest satisfaction. From tests and experiments made under my immediate direction, I can testify to its being proof against the effects of sparks and cinders, and a preventive of fire in a high degree. I consider it far superior to any mineral paint I have ever seen, and invaluable for all out-door purposes; possessing qualities that particularly recommend it for use in a Southern climate.

JOSEPH BENSON, Painter,
No. 132 Camp street.

The attention of Planters is particularly directed to the following:

We, the undersigned, Cotton Factors and Commission Merchants, do cheerfully recommend the Bridgewater Paint for the purposes set forth in the Agent's Circular, and believe we are serving the interests of planters by calling their attention to its peculiar enduring and protective qualities.

PAYNE & HARRISON,
WRIGHT & WILLIAMS & CO.,
HOPKINS, PENNARD & CO.,
BUCHANON, CARROLL & CO.,
WARD & JONAS,
WATT & SANDERS,
HILL, McLEAN & CO.,
HENDERSON & WOOD & CO.

In addition to the above incontrovertible testimony of the superiority of the BRIDGEWATER PAINT, the Agents have in their possession innumerable certificates, which may be seen on application at their office.

The Agents deem it their duty, as well for the protection of the public as for the character of the Bridgewater Paint, to caution all interested against the imposition that has been practised, to a considerable extent, the past year. Owing to a complication of causes, the Company have not been enabled to keep a supply equal to the demand, and it is within the POSITIVE KNOWLEDGE of the Agents, that various mineral substances have been sold to parties OUT OF THE CITY, as the Bridgewater Paint. In order to prevent any future disappointment, we would suggest that orders be sent **direct to us**, or to correspondents here, with instructions to purchase ONLY of the Agents. For the future, we will be regularly supplied and will be able to fill orders to any extent.

NO DEVIATION in PRICE. Terms—For all sums under $100, CASH: from $100 to $200, sixty days; $200 and upwards, four month's credit for approved city acceptance.

For sale dry, in packages of 350 pounds, by

VALUABLE PLANTATION AND SLAVES AT AUCTION—The ARDOYNE PLANTATION, on the Bayou Black, parish of Terrebonne, La., with Slaves and Stock of every kind, will be sold at public auction in New Orleans, to the highest bidder, at Banks' Arcade, on the first MONDAY of February next, to effect a partition between the proprietors.

The property consists of over 2220 Acres of Land, inferior to none in Louisiana, for cane, corn and stock raising, the greater part of cultivation, about 300 acres of which are in cultivation; up wards of 80 Slaves, all family negroes; over 50 Mules; a stock of Cattle and Horses; Crops of Sugar, Molasses and Corn; Negroes' Cloths, with which the plantation is abundantly supplied; Corn and Hay, supposed to be sufficient for the next season's consumption.

The Machinery in the Sugar-House is of the most valuable kind and works well. The quality of the sugar usually made is inferior to none made in the State, and in quantity equal to that of any other plantation in proportion to the number of hands. The growing crop is expected to be about 600 hhds.

J. J. HANNA will be on the plantation during the rolling season, and will take pleasure in showing it to any person desirous of examining it.

The terms of sale are one-fourth cash, the purchaser to assume the mortgage debt due to the Bank of Louisiana, and the balance to be made payable in seven annual instalments, with approved endorsed notes to suit the vendors, if required, at one, two and three years from the date of sale, bearing interest at eight per cent., for sums from date; the vendors reserving the vendor's lien and privilege on the property sold; possession to be given when the terms or sale will have been complied with; but the use of the lands, horses, etc., will be reserved for the purpose of preparing for market, and removing from the plantation, whatever of the growing crop may still be on the plantation at the time of the sale.

A more particular description will be given before the day of sale.

For further particulars, apply to WM. R. LEVERICH & CO.
JAMES J. HANNA.
SARAH YORKE.

A NEW DISCOVERY—THE GREATEST AND MOST WONDERFUL IN THE WORLD.

SARSAPARILLA LOZENGES,

Simple and Compound.

Prepared by N. HERBU, Druggist and Physician.

Superior to all Essences, Syrups and Extracts so named, and to all specialities heretofore known.

I have for a long time thoroughly investigated the idea of a general therapeutic agent, susceptible of being applied to all diseases, the development of morbid principles of which are derived from an internal cause, either in the blood or any of the organs.

A careful and uninterrupted analysis of the animal, vegetable and mineral kingdoms had induced the hope that I could bring about such a result, and, thanks to my indefatigable researches, it is now obtained.

I have found in some vegetables the necessary means for this grand idea, which is based upon an oleaginous principle of Sarsaparilla purify known to the public. Such is the discovery which I have the honor this day of advertising. The form of Lozenges has been given to it, because its nature presented the possibility of doing otherwise; and I have divided it into simple and compound Lozenges, in order that they might be given to children as well as adults.

My first experiments were made privately, and remained unknown until wonderful results had satisfied me that I had succeeded, and that the change of quackery could not be brought against me.

The attention of physicians and of the public is called to these Lozenges, in order that every one may witness the admirable results of the same.

GENERAL EFFECTS.

Testified to by thousands of a thousand persons.

The stomach is cleansed, the blood is purified and renovated by removing all impurities from the system.

SPECIAL EFFECTS.

1. Prompt and radical cure of all diseases speedily.

2. Persons who have used these Lozenges have never had the cholera nor the yellow fever.

3. Venereal, syphilitic, hepatic, scrofulacal, gouty, rheumatic and nervous and bilious diseases, are completely cured a few days after the remedy is resorted to.

4. All diseases of the lungs, head, eyes, stomach, bowels and other internal and external complaints disappear entirely, provided the Lozenges are resorted to.

For sale by the box, with a prospectus, showing how they must be used.

Certificate of Capt. St. Clair Thomasson, of the Steamer Magnolia.

New Orleans, Dec. 2, 1851.

Having painted the hurricane deck of the passenger steamer Magnolia, under my command, with the BRIDGEWATER PAINT, I cheerfully recommend it for its superior qualities, and have no hesitation in pronouncing it superior, in my judgment, to any mineral paint before the public, and believe it to be a certain protection against the effects of sparks and cinders. It has also proved entirely water proof on my decks after three months' use. (Signed,) ST. C. THOMASSON.

Certificate of Capt. William Brown, of Towboat Purpose.

I have used the BRIDGEWATER PAINT, for which Messrs. G. C. BOGERT & CO. are agents, on the hurricane deck of the towboat "Purpose," for three months, and find it to answer all the end sparks and cinders constantly falling upon it, has had most effect whatever. In about four weeks it became a perfect slate, and I am satisfied of its powers to withstand the effects of sparks and cinders. I can therefore recommend the Bridgewater Paint for the purposes set forth in the Agent's circular.

(Signed,) WM. BROWN, Captain of Towboat Purpose.

New Orleans, Feb. 4, 1852.

Having had the Louisiana Dry Dock painted with the BRIDGEWATER PAINT, and its merits thoroughly tested, we concur in opinion with Capt. Thomasson, of the Magnolia, and Capt. Brown, of the Porpoise. We cheerfully recommend said paint as a superior article.

HUGHES, VALETTE & CO., Louisiana Dock Yard.
J. P. WHITNEY & CO., Agents Louisiana Dry Dock Co.

Certificate of Capt. Thos. S. Minott, of Ship Oxford.

New Orleans, May 4, 1852.

I have used the BRIDGEWATER PAINT on the iron work, as also on the decks and canvas tarpaulins of the ship Oxford, and entirely to my satisfaction. I find that much of the rusting of iron and rotting of wood and canvas is prevented by the use of the Mineral Paint, and can recommend it to ship masters and owners as a valuable and cheap paint. THOS. S. MINOTT.

Certificate of Wm. S. Adams, Master of Ship Joseph Holmes.

New Orleans, Dec. 8, 1852.

I have used the BRIDGEWATER MINERAL PAINT on the iron work of the ship Joseph Holmes, for the last twelve months, and I think it is superior to red lead or any other paint for iron that is exposed to salt water. WM. S. ADAMS.

Certificate of Wm. Cutts, Master of Ship Charles Cooper.

New Orleans, Nov. 25, 1850.

I feel compelled, after having the BRIDGEWATER MINERAL PAINT on the decks of my ship over nine months, to say that it has proved infinitely superior to any Paint I have ever seen. I gave a certificate in March last, after one months' use, and my convictions then have become more confirmed, and I have now no hesitation in saying that the Bridgewater Paint CANNOT BE EQUALLED for ship purposes, and ship masters may rely on its not corroding the iron works of salt water, nor blistering or warping by exposure to the sun.

WM. CUTTS, Master of ship Charles Cooper.

Certificate of Capt. M. L. Carpenter, of Ship Elizabeth Denison.

New Orleans, Dec. 4, 1852.

I have used the BRIDGEWATER MINERAL PAINT, for which G. C. BOGERT & CO. are agents, on the decks of my ship, and I can testify to its superiority over all other Paints I have ever used. It is cheaper and more durable than any other, and I have no hesitation in recommending it to masters as the best substance for ship purposes I know of.

M. L. CARPENTER, Master of ship Elizabeth Denison.

Certificate of J. H. Whiting, Master of Bark Yankee Blade.

New Orleans, May 1, 1852.

The BRIDGEWATER Fire and Weather Proof PAINT, having been strongly recommended to me, I was induced to apply it to the decks of my vessel, and it gives me entire satisfaction than any other paint I have ever used. I recommend it to ship masters, and believe it will (when properly applied) prove new to decks and preserve the wood. I consider it a valuable discovery for ship owners, and intend hereafter to use the Bridgewater Mineral Paint in preference to any other.

J. H. WHITNEY, Master of Bark Yankee Blade.

Certificate of J. H. Ashley, Master of Schooner L. F. Rogers.

New Orleans, July 18, 1852.

I have used the BRIDGEWATER PAINT on the decks of he Schooner "L. F. Rogers," and find that it is the best Paint of decks I have ever used. J. H. ASHLEY, Master.

IMPORTANT TO COTTON PLANTERS.—IT which Cotton cannot be troubled—The undersigned has invented and obtained letters patent from the United States for the arrangement and combination of machinery for converting Seed Cotton into Yarns in a continuous process, by which cotton through the preparation and spinning machinery, until it is ready for shipment or weaving. The saving of COTTON WASTE will be at least Two Per Cent., and as I include the process the use of machinery to press the cotton into bales, or its handling as well, and dispense with all dangerous fire, which are very destructive in their operation on the fibre, and more indispensable to those of ginning and spinning as separate manufactures, my YARNS are made of unbroken fibre, and bound will be fifty per cent. stronger, will command advanced prices, and they will distance all competition in any market.

The undersigned is now prepared to dispose of rights to use his patent; and Planters will be informed as to terms, with complete instructions how to use it, how to obtain the best machinery, and all other necessary particulars, on application addressed to me here, or on consultation with me at my rooms, corner Front and Dauphin streets, up stairs.

between Gravier and Common.

RURAL RESIDENCES—
MANUFACTURING SITES!
RARE OPPORTUNITY!!
LONG CREDIT!!!

FOR SALE—150 SQUARES OR ABOUT 3000 LOTS IN THE TOWN OF KENNER.

This property is situated on the line of the N. O., Jackson and G. R. Railroad, ten miles from the city. The ground, forming a part of the Metairie Ridge, is higher than any other place within forty-five miles, and will drain itself rapidly, without any artificial means.

To secure airy, healthy and agreeable neighborhoods, as rural retreats for those from the confinement of the city, are the late sections of the higher grounds have been set apart for private residences, with ample space and under uniform regulations, all the streets of which it is designed shall be lined with shade and ornamental trees. To meet their wants, grounds have been set apart and will be donated to the proper parties for schools, churches, academies, lyceums, &c. Intemperance and wealth may combine to make a place unsurpassed for rustic beauty.

Other sections are set apart for business purposes. This locality presents more decided advantages for a manufacturing town than any other point in our State. It has a front on the Mississippi river of more than a mile and a half, and a rear upon the navigable waters of Lake Pontchartrain, only about four miles distant. It is the only place where the N. O., Jackson and G. R. Railroad connects directly with the river, and offers at the same time easy access to the piney woods and lumber districts. For the establishment of manufactories of all descriptions, docks and wharves, Kenner, in the very nature of things, is superior; and for the encouragement of artisans and the mechanic arts, so much needed in our midst, liberal inducements will be offered.

Lumber by the daily trains, and brick made on the spot, can be delivered here at less than twenty cents. The Railroad company will render the necessary facilities to the traveling community, and will run an accommodation train to and from the town at hours to suit the convenience of those residing in the city, as soon as a sufficiency of travel may require it. Mr. P. Irwin will also run his line of omnibusses to the depot at the requisite hours, thus making the connection with Canal street.

A portion of this property will be sold at low prices, for the small payment of five per cent. in cash, balance five years credit with interest at six per cent. per annum.

For further particulars, apply to MINOR KENNER, at the town of Kenner; W. P. COLEMAN, 55 St. Charles street; or J. S. FOSE, 145 Magazine street. n20 1y

DOGS!—DOGS!—DOGS!—HARVEY A. HARDING has the pleasure of informing his friends and the sporting public that he is now prepared to let out dogs on hire, consisting of Deerhounds, the Northern Counties, Terriers, Newfoundlands, etc., etc. A few of Dogs, for sale, can always be found at his Kennels. Also, a fine assortment of Puppies.

Office, 145 Baronne street, near Poydras. Kennels, Second street, near St. Bernard, Fourth District.

N. B.—H. A. H. also treats the different Diseases of the dog. n21 1m
