## RIVER INTELLIGENCE.

SATURDAY, April 17, 1858.

Yesterday the weather was clear and delightful. Business was much more lively on this levee than for several days previous. The landing is covered with all kinds of Western produce, but up-freights, though rather more plenty, still are quite scarce, considering the season of the year and the amount of tonnage in port. The number of departures was small and the arrivals were few; though there are a good many boats in port, not over a dozen will leave to-day.

Of the rivers, we learn by telegraph that the Mississippi at St. Louis up to the 15th, had risen two and a half feet, and was still rising. All the upper tributaries were very high.

The Ohio at Louisville was stationary, and the Mississippi at Memphis had risen fifteen inches, but was falling from Vicksburg down; before the city it was stationary; the Ouachita and Red rivers were both rising by the reports by the last boats in; the Cumberland was falling at last dates.

All the crevasses are about the same as last reported—widening and deepening of course excepted—but none stopped.

ARRIVALS.—The Louisville packet Fanny Bullitt, Capt. L. B. Dunham, arrived with a large cargo, and leaves again to-day at 5 P. M. We thank her polite clerk, Mr. Theo. Judge, for late papers.

The Bayou Lafourche packet Lafitte, Capt. Jno. J. Brown, arrived with 54 hhds. sugar and 98 bids. molasses, and leaves again as usual, to-day at 5 P. M., punctually. She is one of the institutions already on the lower rivers, and will, we hope, long continue so.

The Atchafalaya packet Cora, Capt. T. Gripon, arrived last night, and leaves again to-day at 5 P. M., as usual.

The Red river packet Rapides, Capt. Jno. C. Dowty, arrived from Grand Ecore with 936 bales cotton, 493 hhds. sugar and 586 bbls. molasses, and leaves again on Monday at 5 P. M.

The Louisville packet Jno. Rains, Capt. W. Underwood, arrived with a large cargo, and will leave again on Monday at 5 P. M. We return our hearty thanks to her polite clerk, Capt. A. Palacio, for late papers.

*R. W. McRae.*—This very regular Ouachita passenger packet will not leave until Tuesday next, the 20th inst. Capt. Leo Moore, to oblige many shippers, has broken his invariable rule of going on the day the boat is advertised at first, and will wait till Tuesday next.

## New Orleans Money Market.

CRESCENT OFFICE, No. 70 Camp street, Friday Evening, April 16, 1858.

The most important feature to day was the receipt at an early hour by telegraph of the arrival at New York of the Africa from Liverpool, with dates to the 3d inst. The advices are for the cotton week, which made Middling Orleans down to 6¾d, The last quotation before the departure of the steamer of the Africa quote a decline of ⅛ @ ¼. They are for the week and so, for the three days between the departure of the steamer of the 31st of March and the Africa. As regards the quotations of Cotton, we have always deemed them of trifling importance, and it is very immaterial in cotton operations, whether they go up or whether they go down, or whether they never vary. We have thus far given the latest figures taken, say to the last out of five millions pounds sterling at 9d.

There was very little done in the paper market to-day. In the aggregate about $45,000 of paper changed hands through brokers at the rate of 10 @ 11 and 12 per cent. for first class and good. The supply of money is large, but holders seem to think it is worth something, and exact higher rates than to any other time since the New York loans were made last week at 3½ @ 4 per ct. per cent.

The exchange market to-day was not active. The banks sold checks on New York at the rate of the week, say ¼ discount. Outside there were sales at from ¼ @ ⅝, and a fraction over. Thirty days sight ⅛ discount; sixty days 1½ discount. The quotations for sixty days range from 1¾, 1⅞ @ 2 and 2½ discount. There was not much offering, though some first class bankers sold at 2½ discount for very large figures not to be quotable. In foreign there was very little doing. Sterling without change. We quote bills with shipping documents at 108 @ 109¼; clear bills 107 @ 107¼ and 107⅜ and a fraction over. Bank drafts rule higher. Our regular advices from New York to-day quote sterling 9¾ @ 9⅞ for long. This, however, has been taken into consideration by dealers here. The demand for francs continued languid, nor are there many offering. We quote from 5.10 @ 5.25 and 5.15.

We have run day to day given the operations in the stock market. The only transaction we heard of to-day was 14 shares Louisiana State Bank at about $100. We noted one sale of City Consolidated then at at 81¾. There was also some few shares of Bank of America transferred at 92.

A sale of stocks, scrip and bonds will be made to-morrow at the Arcade by Palfrey & Co.

We add our usual weekly table of quotations:

In answer to many enquiries we have had from shipping this week, a slight decline has taken place in the house of the cotton banks of Alabama. The Augusta and Savannah banks have agreed to receive coin payments on the 1st of May. The South Carolina banks have not come to any determination, but the presumption is they will be ashamed to continue under suspension when all solvent banks have resumed. The banks of Tennessee expect to resume before the first of November—probably some of them may before that time. There is so much discrimination against the State bank notes, that should some of the banks are afraid to resume at once, for fear all this paper would be returned on them at once, and place them in what might be termed a tight position.

The receipts of coin this week have been about $150,000, mostly in Mexican dollars. Sales have been made at 104¾ @ 105¾ for ounces. American silver continues plenty, and in large amounts is sold at 1¼ @ 1⅝ per cent. discount.

There has been very little demand for sterling this week.

The last St. Louis Price Current gives the following review of money matters in that city:

At about the date of our last review, the increased supply of exchange caused the bankers to reduce the selling rate to ¼ per cent. for gold, ½ per cent. for Missouri money, and 1¾ per cent. for currency, at which it has since been maintained, though the largely increased demand since has reduced the supply and caused an increased firmness in the market. The demand for money has also materially increased, but the discounting institutions have been able to pass all the first class paper offered. Call loans continue unusually easy, and a good deal of good paper has, consequently been offered on the street, while the rate ranges at 1½ @ 1¾ per ct. per month discount. The banks are now well supplied with gold, and have so strengthened their position that a resumption of specie payment will be safe and prudent, and it is anticipated will not be much longer delayed. Time bills are in fair supply, and continue to be purchased at about 1 per cent. per month discount. Currency for checks is limited supply.

Our produce market has continued quiet, and under the influence of recent advices from abroad, breadstuffs have increased in dullness. Receipts of every description are light, but as the bulk of it has already changed hands, the supplies offering are reduced, and the market is well sustained.

## Review of the Markets for Past Week.

CRESCENT OFFICE, No. 70 Camp street, Saturday Morning, April 17, 1858.

Business in our general market has been of a more moderate character during the past week, with reduced supplies of most consignments of Produce. Cotton has been depressed by the receipt of favorable advices from Europe, and the transactions have been unusually limited. The receipts of sugar and Molasses continue to fall off, and prices are well maintained although only a moderate demand has prevailed. Tobacco has arrived very freely and buyers have shown less anxiety to operate. Flour, Grain and Provisions of nearly all kinds have been in fair request, with an upward tendency in the rates for most of these articles. Freights have declined, with an extremely dull market throughout the week.

On Wednesday morning we published the City of Washington's advices, with dates from Liverpool to the 31st ult. They reported a decline of ⅛@⅜ on the week, and sales of about 21,000 bales during the three days, including 4000 for speculation and 5000 for export.

COTTON.....The America's advices, which appeared in our telegraphic columns on Saturday morning, were not of a very satisfactory tenor, but factors did not appear disposed to make any material concessions, and the sales of the day were confined to about 6000 bales at irregular prices without any marked decline. On Monday and Tuesday the market remained in a dull and unsettled condition, and barely 7000 bales changed hands during the two days at irregular and mostly at inside rates. With the City of Washington's accounts at hand on Wednesday morning there was still less inquiry and the offers of buyers being below the views of factors, the day's sales were only about 1200 bales in limited parcels at prices too irregular to admit of quotation. On Thursday again the market was very dull and barely 1000 bales could be sold, not too irregular for quotations, but mostly on a basis of 11@11⅛c for Middling, showing a decline of at least ⅛c from our previous quotations. Yesterday with the Africa's advices at hand there was rather more inquiry, and about 3,000 bales were sold, making a total for the week of 18,400 bales. Prices were still irregular but we quote as follows:

NEW ORLEANS CLASSIFICATION.

| | | | |
|---|---|---|---|
| Inferior | 10@10¼ | Middling | 10¾@11¼ |
| Ordinary | 10½@10¾ | Good Middling | 11⅛@11¾ |
| Good Ordinary | 10¾@10¾ | Middling Fair | 11⅝@— |
| Low Middling | 10¾@10¾ | Fair | —@— |

TOBACCO.....The receipts continue to show a gradually increasing stock the market has exhibited less buoyancy during the past week. The sales reported have amounted some 600 to 700 hhds. all on private terms except 30 at 9c, 6 at 11, 13 at 11¼, and 50 Clarksville at 12c ₱ lb. Holders go orally refuse to make any material concessions, and we retain our last quotations as follow:

| | |

| Planters' Leaf | 8@9c |
| Leaf, Inferior to Common | 9@10c |
| Fair | 10@11c |
| Good | 11@12c |
